Graziano, Robert Salmon, 2013-09-13 Get a wealth of information about the theory and practice of social work with older adults, their families, and their caregivers. Although there is a considerable amount of writing on both group work and social work with the elderly, there is surprisingly little about applying this practice method to this specific age group. *Group Work and Aging Issues in Practice: Research and Education* fills this gap by presenting penetrating articles about a mutual aid approach to working with diverse groups of older adults with varied needs. Respected experts and gifted researchers provide case studies, practice examples, and explanation of theory to illustrate this practice method with aging adults, their families, and their caregivers. *Group Work and Aging Issues in Practice: Research and Education* discusses in depth information on group work with gay and lesbian elders, caregivers, elders with Alzheimer's disease, service providers, special populations such as Vietnamese and Latino elders, and provides information on the use of expressive therapies like art, drama, and dance. Each well-referenced chapter presents high-quality, up-to-date social group work practice strategies to prepare practitioners for the needs of the growing population of elderly in the near future. *Group Work and Aging Issues in Practice: Research and Education* discusses the adaptation of group work practice approaches when working with older group members, the use of a Record of Service as an analytical tool in group work with aging lesbians, a chronicle of a student's field placement at a drop-in center for homeless senior citizens, the sociocultural reality of the Asian immigrant elderly, residential substance abuse treatment for older adults, mutual aid groups for older persons with mental illness, the relationship between caregiver support groups and the marker framework of family caregiving, telephone caregiver support groups, group work interventions with elderly parents of adults with severe mental illness, a program for the development and implementation of an intergenerational singing group, support groups as an effective therapy at end of life, the use of a mutual aid group with home attendants, and much more. *Group Work and Aging Issues in Practice: Research and Education* reveals the latest examples of good group work practice with aging adults and their support systems, perfect for practitioners, educators, and anyone interested in and/or work with older adults.

Inclusive Group Work William Pelech, Robert Basso, Cheryl

D. Lee, Maria Gandarilla, 2016 *Inclusive Group Work* offers an innovative approach to working with intervention groups and task groups by redefining the concept of diversity and reframing core group work concepts. Appropriate for both undergraduate and graduate courses, this book introduces readers to the foundations of group practice with an emphasis on social justice. The book presents diversity as a relational concept that is at the heart of all group interactions. Individual identity is complex and in order for all members to be treated equally, their individuality must be accepted and respected. Using this framework, the book discusses the values and ethics of social work with groups, explores the stages of group work including planning, and presents both basic and advanced skills such as conflict resolution and the use of self. Theories are put into practice in three chapters of case studies that show in detail how diversity can be employed as a strength in multiple settings to achieve the wide variety of goals groups pursue. Through this new approach, students and practitioners alike will learn how to harness diversity to engage and maintain participation in inclusive group processes.

Working with Older Adults: Group Process and Technique Barbara Haight, Faith Gibson, 2005-03-30 Beginning with an overview of the changing world of aging, this book goes on to address practical principles and guidelines for group work.

Group Work With Overwhelmed Clients Elaine Pinderhughes, June Gary Hopps, 2002-02 Respected experts June Gary Hopps and Elaine Pinderhughes advocate for the efficiency and power of group therapy in this first of its kind handbook that will aid social service agency administrators, clinicians, and paraprofessionals in the implementation of group counseling. When considering the benefits of group counseling, it is no surprise that group psychotherapy is proven to be one of the most effective treatments for overwhelmed clients. Now from the educated and experienced minds of Hopps and Pinderhughes comes an authoritative comprehensive guide that explores the use of group therapy in poor and oppressed populations to help cope with addiction, gang membership, job preparation, sex education, and many other topics. *Group Work for Overwhelmed Clients* offers case-specific vignettes, insights on leader issues, and practical application methods in the form of hands-on guides and step-by-step instructions to organizing groups, targeting and screening members, establishing goals, and managing group dynamics. Unlike books that focus on single-issue therapy, this one-of-a-kind guide presents an approach to integrated treatment demonstrating that the sharing of support and empowerment from group settings can be life-transforming.
