design and explores what effect dialogues surrounding these transactions had on the standardisation of furniture production during this period This was an era before mass production when domestic furniture was made both to order and from standard patterns and negotiations between producers and consumers formed a crucial part of the design and production process This study narrows in on three main areas of this process the role of pattern books and their readers the construction of taste and style through negotiation and daily interactions through showrooms and other services to reveal the complexities of English material culture in a period of industrialisation A Cultural History of Furniture in the Modern Age Claire I. R. O'Mahony, 2022-02-24 Furniture is a unique witness to the transformations of private and public experience amidst the upheavals of the 20th century how we work rest and play are determined by the embodied encounter with furniture defining and projecting a sense of identity and status responding to and exemplifying contrasting social conditions political and economic motivations aesthetic predilections and debates Assessing physical and archival evidence drawn from a spectrum of iconic and under represented case studies an international team of design historians collaborate in this volume to explore key methodological questions about how the production consumption and mediation of furniture reveal shifting cultural habits and histories across diverse contexts amidst modernity Drawing upon a wealth of visual and textual sources this volume of A Cultural History of Furniture presents essays that examine key characteristics of the furniture of the modern period on the themes of design and motifs makers making and materials types and uses the domestic setting the public setting exhibition and display furniture and architecture visual representations and verbal representations Furniture History ,1972

Louise Brigham and the Early History of Sustainable Furniture Design Antoinette LaFarge, 2019-10-24 During the Progressive Era a time when the field of design was dominated almost entirely by men a largely forgotten activist and teacher named Louise Brigham became a pioneer of sustainable furniture design With her ingenious system for building inexpensive but sturdy box furniture out of recycled materials she aimed to bring good design to the urban working class As Antoinette LaFarge shows Brigham forged a singular career for herself that embraced working in the American and European settlement movements publishing a book of box furniture designs running carpentry workshops in New York and founding a company that offered some of the earliest ready to assemble furniture in the United States Her work was a resounding critique of capitalism s waste and an assertion of new values in design values that stand at the heart of today s open and green design movements **Faulkner and Material Culture** Joseph R. Urgo, Ann J. Abadie, 2009-09-18

Photographs lumber airplanes hand hewn coffins in every William Faulkner novel and short story worldly material abounds The essays in Faulkner and Material Culture provide a fresh understanding of the things Faulkner brought from the world around him to the one he created Charles S Aiken surveys Faulkner s representation of terrain and concludes contrary to established criticism that to Faulkner Yoknapatawpha was not a microcosm of the South but a very particular and quite specifically located place Jay Watson works with literary theory philosophy the history of woodworking and furniture making

and social and intellectual history to explore how Light in August is tied intimately to the region's logging and woodworking industries. Other essays in the volume include Kevin Railey's on the consumer goods that appear in *Flags in the Dust*. Miles Orvell discusses the Confederate Soldier monuments installed in small towns throughout the South and how such monuments enter Faulkner's work. Katherine Henninger analyzes Faulkner's fictional representation of photographs and the function of photography within his fiction, particularly in *The Sound and the Fury*. Light in August and *Absalom, Absalom!* **Chair** Galen Cranz, 1998 Traces the history of the chair and provides guidelines to assist the reader in choosing a chair that suits one's body. **An Illustrated Guide to Furniture History** Joclyn M. Oats, 2021-07-20 An Illustrated Guide to Furniture History provides upper level students and instructors with an alternative visual analytical approach to learning about furniture history from Antiquity to Postmodernism. Following an immersive teaching model, it presents a Nine Step Methodology to help students strengthen their visual literacy and quickly acquire subject area knowledge. Moving chronologically through key periods in furniture history and interior design such as the Renaissance, the Arts and Crafts Movement, and Modernism, it traverses Europe to America to present a comprehensive foundational guide to the history of furniture design. Part I addresses furniture within the context of the built environment, with chapters exploring the historical perspective, construction principles, and the categorization of furniture. In Part II, the author visually depicts the structural organization of the methodological process, a three category framework: History, Aesthetics, and Visual Notes. The chapters in this part prepare the reader for the visual analysis that will occur in the final section of the book. The book is lavishly illustrated in full color with over 300 images to reinforce visual learning and notation. A must have reference and study guide for students in industrial and product design, interior design, and architecture. **Interactive Artifacts and Furniture Supporting Collaborative Work and Learning** Pierre Dillenbourg, Jeffrey Huang, Mauro Cherubini, 2008-12-25 The field of Computer Supported Collaborative Learning (CSCL) has traditionally focused on virtual learning environments and has somewhat neglected the physical environments in which students interact with each other and with their teachers. However, over the last years, scholars have devoted growing attention to the interplay between digital and physical environments. *Interactive Artifacts and Furniture Supporting Collaborative Work and Learning* reveals how these advances in computer science and human computer interaction impact CSCL environments. The underlying theme of the contributions is the social affordances of physical objects, i.e., the understanding of how technology augmented physical objects support interactions among groups in a way more intuitive or natural than traditional computers. This collection of leading researchers investigates how artifacts may trigger rich interactions among groups, which is a central quest for researchers in CSCL. *Interactive Artifacts and Furniture Supporting Collaborative Work and Learning* illustrates a turn in the field of CSCL and emphasizes an important message for a generation of CSCL designers and researchers. *Consumption and the World of Goods* John Brewer, Roy Porter, 2013-06-17 The study of past society in terms of what it consumes rather than what it produces is, relatively speaking,

a new development The focus on consumption changes the whole emphasis and structure of historical enquiry While human beings usually work within a single trade or industry as producers as say farmers or industrial workers as consumers they are active in many different markets or networks And while history written from a production viewpoint has by chance or design largely been centred on the work of men consumption history helps to restore women to the mainstream The history of consumption demands a wide range of skills It calls upon the methods and techniques of many other disciplines including archaeology sociology social and economic history anthropology and art criticism But it is not simply a melting pot of techniques and skills brought to bear on a past epoch Its objectives amount to a new description of a past culture in its totality as perceived through its patterns of consumption in goods and services Consumption and the World of Goods is the first of three volumes to examine history from this perspective and is a unique collaboration between twenty six leading subject specialists from Europe and North America The outcome is a new interpretation of the seventeenth and eighteenth centuries one that shapes a new historical landscape based on the consumption of goods and services

Eighteenth-Century Furniture Clive Edwards,1996 The eighteenth century has been seen as a Golden Age of design and craftsmanship This book goes well beyond these ideas and investigates the various developments in the infrastructure of the eighteenth century furniture world

The Encyclopedia of Furniture Joseph Aronson,1961-12-13 A completely revised edition covering every period and development to the present the designers and makers the woods and other materials the architecture and decoration 2 000 photographs Glossary Bibliography Index

Dictionary of Furniture Charles Boyce,2014-01-02 In a comprehensive listing of entries from Aalto Hugo Alvar Henrik to Zui Weng Yi Boyce illuminates readers about furniture styles construction details terminology furniture designers and design movements throughout history and throughout the world Styles covered include European inspired classical baroque pop rococo and modernist This extensive guide will be helpful for furniture enthusiasts historians and those interested in redecorating their homes

Wild Things Judy Attfield,2020-08-20 What do things mean What does the life of everyday objects

reveal about people and their material worlds Has the quest for the real thing become so important because the high tech world of total virtuality threatens to engulf us This pioneering book bridges design theory and anthropology to offer a new and challenging way of understanding the changing meanings of contemporary human object relations The act of consumption is only the starting point of object s lives Thereafter they are transformed and invested with new meanings and associations that reflect and assert who we are Defining designed things as things with attitude differentiates the highly visible fashionable object from ordinary aretefacts that are too easily taken for granted Through case studies ranging from reproduction furniture to fashion and textiles to clutter the author traces the connection between objects and authenticity ephemerality and self identity Beyond this she shows the materiality of the everyday in terms of space time and the body and suggests a transition with the passing of time from embodiment to disembodiment

A Short Dictionary of Furniture John Gloag, 2022-10-24 Originally published in 1952 but enlarged and revised in 1969 this dictionary became a standard authoritative work of reference It contains 2 612 entries and over 1 000 illustrations reproduced from contemporary sources and from drawings by Ronald Escott Marcelle Barton and Maureen Stafford The work is divided into 6 sections the first and second concern the description and design of furniture the third contains the entries the fourth gives a list of furniture makers in Britain and North America section five records books and periodicals on furniture and design and the concluding section sets out in tabular form the periods with the materials used and types of craftsmen employed from 1100 to 1950
