Towards a Comparative Analysis of Social Inequalities between Europe and Latin America Pedro López-Roldán, Sandra Fachelli, 2020-11-13 This open access volume identifies the common and specific aspects of social mechanisms that generate inequalities through comparative analyses of different dimensions in which inequalities are expressed. It includes studies on social inequalities in 5 European and 5 Latin American countries along 11 thematic axes: inequalities in the labour market and labour trajectories, asymmetries in the relationship between training and employment, inequalities in work and family life, educational inequalities, geographical and social inequalities, ethnicity and language, social inequalities, migration and space, uncertainty, strategies, resources and capabilities, inequality of opportunity, intergenerational social mobility, social policies, gender inequalities and research methodology. This volume is the result of a large collaborative project on social inequality funded by the European Commission, the International Network for Comparative Analysis of Social Inequalities. Taking into account diverse perspectives and approximations, the collaborators have created a general analytical framework as a model of analysis of social inequalities. The various contributions in this volume help readers gain a global outlook and help reflect on social inequalities in a comparative perspective. This volume addresses social science graduate and postgraduate students, researchers, social policy makers as well as a broader academic audience interested in social inequality. Changing Structures of Inequality Yannick Lemel, Heinz Noll, 2002-05-02 Changing Structures of Inequality examines these questions in a new comparative perspective covering five national societies: Canada, France, Germany, Spain and the United States. The authors offer a deep analysis of country specific research traditions in the fields of class analysis and social stratification, revealing important conceptual differences which have consequences for the diagnoses. They present the results of substantial comparative studies on different aspects of inequality in developed societies: the inequality of income and wealth, educational inequalities, status, crystallization, migration and inequality, gender inequality and the structuring effect of social class, highlighting similarities as well as substantial differences between the societies under examination. The authors offer a nuanced conclusion that puts in perspective the different topics of this contemporary debate. Developed societies are now characterized by more dynamic and pluralistic structures of inequalities where classes have lost

Gentrification: A Working-Class Perspective Kirsteen Paton, 2016-04-22 Focusing on the working class experience of gentrification this book re-examines the enduring relationship between class and the urban Class is so clearly articulated in the urban from the housing crisis to the London Riots to the evocation of housing estates as the emblem of Broken Britain Gentrification is often presented as a moral and market antidote to such urban ills deeply institutionalised as regeneration and targeted at areas which have suffered from disinvestment or are defined by lack Gentrification is no longer a peripheral neighbourhood process it is policy it is widespread it is everyday Yet comparative to this depth and breadth we know little about what it is like to live with gentrification at the everyday level Sociological studies have focused on lifestyles of the middle classes and the working class experience is either omitted or they are assumed to be victims Hitherto this is all that has been offered This book engages with these issues and reconnects class and the urban through an ethnographically detailed analysis of a neighbourhood undergoing gentrification which historicises class formation critiques policy processes and offers a new sociological insight into gentrification from the perspective of working class residents This ethnography of everyday working class neighbourhood life in the UK serves to challenge denigrated depictions which are used to justify the use of gentrification

based restructuring By exploring the relationship between urban processes and working class communities via gentrification it reveals the hidden rewards as well as the hidden injuries of class in post industrial neighbourhoods In doing so it provides a comprehensive sociology of gentrification revealing not only how gentrification leads to the displacement of the working class in physical terms but how it is actively used within urban policy to culturally displace the working class subject and traditional

Caring is Sharing? Katherine Twamley,2024-11-06 Caring is Sharing explores why and how mixed sex couples make decisions around parental leave at the transition to parenthood and how these decisions shape their work and family care practices during and after the leave period It does this through a longitudinal qualitative comparative analysis of mixed sex parent couples in England who do and do not share parental leave after the birth of their first child The study shows that men and women s visions and practices of family life are embedded in ideals of appropriate intimate relations and negotiated with real and imagined reactions from peers wider family and colleagues These negotiations are often deeply emotional and shape how parents navigate the wider institutional and structural context in the UK where parental leave policy family and work norms are highly gendered The book shows that practices of couple intimacy in the UK influence the imaginaries of new parents and the processes through which they enact divisions of parental leave and ultimately of care In so doing it highlights the intersections of intimacy and equality contributing to debate around the stalled gender revolution and what is needed if UK parental leave policy is to become an effective driver of change in gender relations and family life Praise for Caring is Sharing Katherine Twamley s beautifully crafted book Caring is Sharing makes significant contributions to scholarly and
