Social Influence On Ethical Behavior In Organizations:

Social Influences on Ethical Behavior in Organizations John M. Darley, David M. Messick, Tom R. Tyler, 2001-03-01

For too long organizational scientists have not adequately attended to the problems of unethical behavior in organizations. This collection of essays provides the stimulus needed to help move the study of unethical behavior to center stage in the organizational sciences. It does so by posing provocative questions that not only entail a concern for understanding unethical behavior but that also strike at the very core of how and why organizations function as they do. The book addresses the asymmetries in power and influence created by hierarchies that give rise to ethical problems, the tactics that might reduce the effectiveness of improper influence attempts, and how the inappropriate use of influence diffuses, for example, through a market.

Social Influences on Ethical Behavior in Organizations John M. Darley, David M. Messick, Tom R. Tyler, 2001-03

This collection of essays provides the stimulus needed to help move the study of ethics in organizations to center stage and stimulate social scientists to seek ways of enhancing the human condition.

Research Companion to Corruption in Organizations

Ronald J. Burke, Cary L. Cooper, 2009-01-01 This is a very timely book. The coverage it gives to the topic is superb. The individual organisational and institutional causes of corruption are laid out along with analyses of the choices that we all have to make to deal with its consequences. In these times of increased scrutiny of corporate behaviour there is something to learn here for policy makers, corporate leaders and researchers alike. Paul Sparrow, Lancaster University, UK. Ronald Burke and Cary Cooper have assembled the most comprehensive volume of work available today on the topic of organizational corruption. However, the volume is far reaching in more than just its content. In addition to attracting some of the most widely read scholars in the area, Burke and Cooper have found space for a number of bright new voices and thus insights as well.

This makes for a volume that is as vibrant and exciting as it is complete. Scholars not only should read it they will enjoy doing so. Marshall Schminke, University of Central Florida, US. Corruption in organizations is creating an increasing number of victims and causing huge costs. This timely book brings together international researchers who address the causes and consequences of corruption in organizations and the action needed to reduce levels of corruption worldwide. Corruption is a worldwide problem and is likely to increase as a result of the current economic meltdown. Specific attention is devoted to causes of corruption such as individual levels of moral development, moral disengagement, greed, the routinisation of corruption and organizational factors such as conflicts of interest, reward systems and organizational cultural values. The Companion suggests methods and examples to reduce levels of corruption that include education and training, whistleblowing, the increase of organizational controls through rules and structure and developing an ethical organizational culture. Academics and postgraduate students interested in both crime and corruption in organizations will warmly welcome the Companion. Policymakers in government, those involved in professional services such as accountants and lawyers as well as managers of any organization interested in conducting ethical business will find the Companion invaluable. **Power and**

Influence in Organizations Roderick M. Kramer, Margaret A. Neale, 1998-08-11. This volume is a readily accessible compilation of current original research in the area of power and influence in organizations. Power and Influence in Organizations offers a rich exploration of emerging trends and new perspectives. Contributors include leading scholars in organizational behavior and theory and major contemporary intellectual pioneers in research on power and influence including Samuel B. Bacharach, Robert Cialdini, Edward J. Lawler and Jeffrey Pfeffer. Each contributor provides insight into his or her own research, an overview of general trends and thoughts about the direction of future research. Topics examined include manipulation of employee perceptions and values, the links between power and accountability, sharing power, the effects of gender on power and influence, illusions of influence and impression management. Advanced students and scholars in organizational behavior, social influence, power and politics, conflict management and institutional politics will find Power and Influence in Organizations stimulating and a useful roadmap to present and future research. **Corporate**
