Social Planning By Frontier Thinkers:

Social Planning by Frontier Thinkers Matthew Page Andrews,2013-10 This is a new release of the original 1944 edition

Social Planning by Frontier Thinkers Matthew Page Andrews,2009-07 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work *The Free Man's Library* Henry Hazlitt,1956 Frontier Thinking and Human-Nature Relations E. C. H. Keskitalo,2024-06-12

Combining historical social and regulative analysis this book builds a compelling critique of frontier thinking as it continues to form our assumptions about social and environmental organisation in ways that impact not least the present environmental crisis This book systematically identifies the ways in which images of nature and society are formed by the historically developed frontier oriented narratives which have underpinned much Anglo American and Anglocentric thought The book confronts these conceptions at large showing that they never held empirically and contrasts them with the situation in northern Europe where diverging assumptions are integral to this day Through this juxtaposition this book illustrates not only the pervasiveness of structures of understanding in steering policy but also the varying traditions regarding how understandings of the environment can be formed This study highlights how historical thought patterns formed for very different reasons than exist today continue to shape our assumptions about nature the relation between urban and rural areas and our understanding of ourselves in relation to the environment This book will be of wide interest to a range of academics and students in the fields of geography anthropology environmental studies sociology political science and development studies amongst others The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **The Mainspring of Human Progress [Revised Edition]** Henry Grady Weaver,2016-10-21 Author Henry Grady Weaver was convinced that human liberty is the mainspring of progress and that government tends always to tyranny In this book first published in 1947 Weaver popularizes these themes for the American people This is the Revised Edition first published in 1953 containing Weaver s revisions discussed and agreed prior to his untimely death in 1949 Faith and Action R. J. Rushdoony,2019-08-26 Faith and Action is the complete collection of the essays of R J Rushdoony written for the Chalcedon Report between 1965 and 2001 along with several transcripts of his recorded talks The large volume The Roots of Reconstruction only contained his Chalcedon Report essays up until 1985 so most of the essays included in Faith Action were unavailable to readers for many years until now In order to make the author s knowledge more accessible this three volume collection features some of the most extensive indexing we ve ever done including a General Index a History Index a Scripture Index a Works Cited Index and a Chalcedon Report Directory A total of 183 pages of indexing This handsome set of

books is a must have for any serious library The central theme of this collection of essays is Christian Reconstruction which to Rushdoony meant the responsibility of Christian citizenship in the Kingdom of God For him his central drive behind his research and writing was to move men to faith and action Rushdoony was primarily an essayist who vigorously and prolifically wrote on a multiplicity of subjects issues and disciplines Despite his being critical of both the contemporary church for its compromise and the humanistic state for its will to be as God these essays are replete with Rushdoony's undying faith in the victory of God in history Rushdoony's big idea was Christian Reconstruction which centered not on a pursuit of political power but rather an equipping of Christians to take back government by means of self government in terms of God's law This three volume collection will no doubt serve the larger church for many generations as they seek first the Kingdom of God in their spheres and in their times *Social Reconstruction* Karen L. Riley, 2006-05-01

ocial Reconstruction as a philosophy stream of thought or official program is often synonymous with Depression era Progressivism But Social Reconstruction unlike progressivism enjoyed political stardom The spirit of progressivism at least in terms of education found a home in those enthusiasts who supported a child centered perspective of education Others such as the essentialists viewed their progressive role as one that advanced the view of essential or basic education as the most sound approach to curriculum and teaching Still others more radical in their outlook believed that progress should be framed with questions about social justice and equity Proponents of social reconstruction included Harold Rugg and George Counts although the movement was rich with supporters To date social reconstruction is only a by word in most texts that deal with the Progressive Era or progressive education perhaps because Rugg and Counts the two most visible proponents sought and received the political limelight no matter how glaring In any event the depths of social reconstruction have yet to be plumbed Hence the first book in this series will offer a comprehensive treatment of Social Reconstruction which include chapters that examine its proponents political nature and social justice programs born of and within the tumultuous context of progressive politics **Frontiers of Development in the Amazon** Antonio Augusto Rossotto Ioris, Rafael R. Ioris, Sergei V. Shubin, 2020-06-22

Frontiers of Development in the Amazon Riches Risks and Resistances contributes to ongoing debates on the processes of change in the Amazon a region inherently tied to the expansion of internal and external socio economic and environmental frontiers This book offers interdisciplinary analyses from a range of scholars in Europe Latin America and the United States that question the methods of development and the range of socio ecological impacts of those methods by examining the theoretical methodological and empirical dimensions of frontier making along with evaluating and refining existing frameworks Contributors focus on the complex politics of border formation shaped by institutional economic and political forces placing them in relation to ethical imaginary and symbolic elements In doing so contributors explore the dynamic production of identities values and subjectivities covering matters of migratory patterns complex power struggles and intensive at times violent clashes Among other topics this book assesses the recent encroachment of export driven

agribusiness into the Amazon Region in the context of recolonization resource exploitation and multiple programs of modernization and national integration Scholars of Latin American studies international development environmental studies and applied social sciences will find this book particularly useful

Public Schools in Hard Times David B. Tyack, Robert Lowe, Elisabeth Hansot, 1984 In the first social history of what happened to public schools in those years of the locust the authors explore the daily experience of schoolchildren in many kinds of communities the public school students of working class northeastern towns the rural black children of the South the prosperous adolescents of midwestern suburbs How did educators respond to the fiscal crisis and why did Americans retain their faith in public schooling during the cataclysm The authors examine how New Dealers regarded public education and the reaction of public school people to the distinctive New Deal style in programs such as the National Youth Administration They illustrate the story with photographs cartoons and vignettes of life behind the

There is consensus in literature that urban areas have become increasingly vulnerable to the outcomes of economic restructuring under the neoliberal political economic ideology The increased frequency and widening diversity of problems offer evidence that the socio economic and spatial policies planning and practices introduced under the neoliberal agenda can no longer be sustained As this shortfall was becoming more evident among urban policymakers planners and researchers in different parts of the world a group of discontent researchers began searching for new approaches to addressing the increasing vulnerabilities of urban systems in the wake of growing socio economic and ecological problems This book is the joint effort of those who have long felt that contemporary planning systems and policies are inadequate in preparing cities for the future in an increasingly neoliberalising world It argues that resilience thinking can form the basis of an alternative approach to planning Drawing upon case studies from five cities in Europe namely Lisbon Porto Istanbul Stockholm and Rotterdam the book makes an exploration of the resilience perspective raising a number of theoretical debates and suggesting a new methodological approach based on empirical evidence This book provides insights for intellectuals exploring alternative perspectives and principles of a new planning approach **Booklist** ,1944 **Reclaiming the Strike Zone** Victor Alexander Baltov,2012-09-18 America has steadily regressed from a Republic under the Sign of the Cross towards a mobacracy under the Sign of the Scorpion Social responsibility and the ethics of conscience have vacated the Field of Dreams like a Baroid tater an all about me cult of celebrity has evolved Reclaiming the Strike Zone traces the metaphorical
