

-Culture is the tangible and intangible values formed based on the long history of an ethnic group. Tangible culture can be referred to as relics, while intangible culture can be referred to as language, religion, and customs. Culture is the spiritual value and belief of a civilization. "Culture is the collective programming of the mind that distinguishes the members of one human group from another. In this sense, culture consists of value systems, and these values are the foundation of culture." (Hofstede, 1980) (1)

-Globalization is a process of increasing influence between regions and countries. There is no one generally acceptable definition of globalization that has been provided, though the term has been used to cover wide areas across borders in economic, political, social, cultural, religious, technological, communication, governance, disease and other spheres (2). "...a term which captures the growing intensity of worldwide interconnectedness: in short, a 'shrinking world'. It is, however, a highly uneven process, so far from necessarily creating a more cooperative world it is also a source of global friction, instability, inequality and conflict." (Baylis et al, 2014) (3)

-Vietjet has a vision of becoming a multinational airline, and to achieve this goal Vietjet needs to have a diverse understanding of culture in its management team and employees. The first reason is to understand the culture of customers from all over the world to create a classy service for customers and partners. Next is human resource management. When Vietjet wants to expand internationally, it needs employees from other countries. Finally, compliance with the law, each culture has its own regulations, so culture is very important for companies that will work multinationally. Currently, Vietjet is operating a flight network covering destinations in Vietnam and more than 30 destinations in the region to Asia countries, operates a fleet of modern A320 and A321 aircraft with an average age of 3 years [Vũ chúng tôi \(vietjetair.com\)](http://vnc.vietjetair.com) (4). Because Vietjet has not yet operated flights in Europe, Vietjet will not encounter problems with cultural differences between Asia and Europe.

Part4:

Managers must first demonstrate trustworthiness by acting appropriately. Senior and intermediate managers' attitudes affect the company's safety policy and staff behavior.

Effective communication is needed to create company safety policies. Senior executives must stress safety and lead by promoting a Culture of Integrity and Reporting to encourage employee confidence in the security system. Complete or the safety mechanism is verbal.

Finkel,Roy F. Baumeister,2019-03-15 Social psychology uses clever even ingenious research methods to explore the most essential questions of the human psyche Why do we help some people and harm others Why do we pay so much more attention to powerful people than they pay to us If humans evolved from great apes why are human selves so much more elaborate How do social relationships make us more versus less prone toward physical illness This volume provides a graduate level introduction to social psychology The authors are world renowned leaders on their topic and they have written state of the art overviews of the discipline s major research domains The chapters convey the joy excitement and promise of scientific investigations into human sociality **Transforming Social Representations** S. Caroline Purkhardt,2015-06-19 Common sense by definition is familiar to us all Science for some of us is more remote yet it is not always clear what the connections are between these two ways of seeing the world In this title originally published in 1993 the author explores several related themes in social psychology to elucidate the way we understand the social construction of knowledge and the means by which we change social reality From the perspective of a critique of social representations theory the author argues that this necessitates a change of viewpoint from the individualistic and mechanistic assumptions of Cartesian science to the social and evolutionary perspective of a Hegelian framework This not only emphasizes the cultural and historical dimensions of social phenomena but also illuminates the social and dynamic nature of individuals As a consequence the discipline of social psychology must itself be transformed recognizing the active participation of scientists in the social construction of scientific knowledge This title will be of interest to those working in social psychology history and philosophy of science and sociology
