Miller,2004 Examines the dramatic growth of legal gambling in the United States and the shifting and often contentious politics accompanying its spread      *The Politics of Regulation* Jacint Jordana,David Levi-Faur,2004-01-01 These changes together with the general advance in the study of regulation undoubtedly demand a re evaluation of the theory of regulation its methodologies and scope of application This book is a perceptive investigation of recent evolutions in the manner and extent of governance through regulation Scholars and students of comparative politics public policy regulation theory institutional economics and political sociology will find it to be essential reading It will also prove a valuable source of reference for those working or dealing with regulatory authorities and for business managers in private industries and services operating under a regulatory framework      **States Against Migrants** Antje Ellermann,2009-01-08 In this comparative study of the contemporary politics of deportation in Germany and the United States Antje Ellermann analyzes the capacity of the liberal democratic state to control individuals within its borders The book grapples with the question of why in the 1990s Germany responded to vociferous public demands for stricter immigration control by passing and implementing far reaching policy reforms while the United States failed to effectively respond to a comparable public mandate Drawing on extensive field interviews Ellermann finds that these crossnational differences reflect institutionally determined variations in socially coercive state capacity By tracing the politics of deportation across the evolution of the policy cycle beginning with anti immigrant populist backlash and ending in the expulsion of migrants by deportation bureaucrats Ellermann is also able to show that the conditions underlying state capacity systematically vary across policy stages      **Public Policy Making** Larry N. Uncompromising Positions Elizabeth Anne Oldmixon,2005-12-02 Cultural factions are an intrinsic part of the fabric of American politics But does this mean that there is no room for compromise when groups hold radically different viewpoints on major issues Not necessarily For example in a June 2003 Time CNN poll 49% of respondents identified themselves as pro choice and 46% identified as pro life But in the same poll 81% indicated that abortion should be always legal or sometimes legal suggesting that pro life and pro choice are not discrete positions but allow room for compromise How do legislators legislate policy conflicts that are defined in explicitly cultural terms such as abortion gay marriage and school prayer American political institutions are frequently challenged by the significant conflict between those who embrace religious traditionalism and those who embrace progressive cultural norms Uncompromising Positions God Sex and the U S House of Representatives investigates the politics of that conflict as it is manifested in the proceedings of the U S House of Representatives Oldmixon traces the development of these two distinct cultures in contemporary American politics and discusses the decision making and leadership tactics used by legislators to respond to this division of values She argues that cultural conflict produces an absolutist politics that draws on religious values not amenable to compromise politics One possible strategy to address the problem is to build bipartisan coalitions Yet interviews with House staffers and House members as well as roll calls all demonstrate that ideologically driven politicians sacrifice compromise and stability to achieve short term political gain Noting polls that show Americans tend to support compromise positions Oldmixon calls on House members to put aside short term political gain take their direction from the example of the American public and focus on finding viable solutions to public policy not zealous ideology
