Performativity, Politics, and the Production of Social Space Michael R. Glass, Reuben Rose-Redwood, 2014-01-10 Theories of performativity have garnered considerable attention within the social sciences and humanities over the past two decades At the same time there has also been a growing recognition that the social production of space is fundamental to assertions of political authority and the practices of everyday life However comparatively little scholarship has explored the full implications that arise from the confluence of these two streams of social and political thought This is the first book length edited collection devoted explicitly to showcasing geographical scholarship on the spatial politics of performativity It offers a timely intervention within the field of critical human geography by exploring the performativity of political spaces and the spatiality of performative politics Through a series of geographical case studies the contributors to this volume consider the ways in which a performative

conception of the political might reshape our understanding of sovereignty political subjectification and the production of social space Marking the 20th anniversary of the publication of Judith Butler's classic *Bodies That Matter* 1993 this edited volume brings together a range of contemporary geographical works that draw exciting new connections between performativity space and politics Routledge Handbook of Social and Cultural Theory Anthony Elliott, 2013-12-04 If today students of social theory read Jurgen Habermas Michel Foucault and Anthony Giddens then proper regard to the question of culture means that they should also read Raymond Williams Stuart Hall and Slavoj Zizek The Routledge Handbook of Social and Cultural Theory offers a concise comprehensive overview of the convergences and divergences of social and cultural theory and in so doing offers a novel agenda for social and cultural research in the twenty first century This Handbook edited by Anthony Elliott develops a powerful argument for bringing together social and cultural theory more systematically than ever before Key social and cultural theories ranging from classical approaches to postmodern psychoanalytic and post feminist approaches are drawn together and critically appraised There are substantive chapters looking at among others structuralism and post structuralism critical theory network analysis feminist cultural thought cultural theory and cultural sociology Throughout the Handbook there is a strong emphasis on interdisciplinarity with chapters drawing from research in sociology cultural studies psychology politics anthropology women's studies literature and history Written in a clear and direct style this Handbook will appeal to a wide undergraduate and postgraduate audience across the social sciences and humanities We Live in Social Space Fred Emil Katz, 2017-01-18 This is how the book starts Does the fetus know it is in its mother's womb Probably not Certainly not in any conscious way Yet it is there in the womb asserting its existence In that prepartum existence the fetus is coping on its path to becoming a viable human being Do we postpartum humans know that we live in some sort of external womb Probably not Yet we do live in the confines of an external womb I'll call it social space We may not be aware of it but we live in and through and by the actions of social space The book examines four attributes of that Social Space They give new illumination to many facets of our life from our sexuality to willingness to believe in false messiahs from stage fright among even the most accomplished performers to our enjoyment of opera *Transnational Social Spaces* Eyüp Özveren, 2017-03-02 The ongoing processes of globalization and regionalization have drawn attention away from the traditional domains of nation states and their interaction However the border crossing activities of non state agencies organizations and institutions should not be overlooked as they can shed new light on our common understanding of the contemporary world Using the concept of transnational social spaces contributors to this volume demonstrate the importance of transnational spaces A collaborative project by experts across the social science disciplines *Transnational Social Spaces* focuses in particular on the German Turkish context Human Cognition and Social Agent Technology Kerstin Dautenhahn, 2000 This text discusses design issues of social agent technology with the perspective of human cognition It combines the disciplines of computer science social science and psychology but seeks to avoid being overly

technical and is written for an interdisciplinary audience **Uneven Development** Neil Smith, 2010-01-25 In *Uneven Development* a classic in its field Neil Smith offers the first full theory of uneven geographical development entwining theories of space and nature with a critique of capitalist development Featuring pathbreaking analyses of the production of nature and the politics of scale Smith's work anticipated many of the uneven contours that now mark neoliberal globalization This third edition features an afterword updating the analysis for the present day **Spatial Information Theory** Max J. Egenhofer, Nicholas Giudice, Reinhard Moratz, Michael Worboys, 2011-09-08 This book constitutes the refereed proceedings of the 10th International Conference on Spatial Information Theory COSIT 2011 held in Belfast ME USA in September 2011 The 23 revised full papers were carefully reviewed and selected from 55 submissions They are organized in topical sections on maps and navigation spatial change spatial reasoning spatial cognition and social aspects of space perception and spatial semantics and space and language *Society, Space, and Social Justice* Jennifer Y. Pomeroy, Vandana Wadhwa, 2019-10-25 *Society Space and Social Justice* addresses multiple contextual intersectionalities highlighting the underlying processes and causes contributing to the genesis and regeneration of emergent and extant spaces of injustice Employing quantitative and qualitative techniques underpinned by elucidatory theoretical frameworks the contributors to this collection investigate intersections of class disability gender race and the other within sociocultural and political economic structures in varied geographic scales in Brazil India South Africa Sri Lanka Uganda and the United States This book's thematic diversity the environment and outdoors employment and labor gendered othered violence health and disease housing infrastructure and urban design gives it interdisciplinary appeal This timely collection examines and unpacks the complex mechanisms by which social justice can be perverted thwarted or achieved *Migration and Social Pathways* Anna Guhlich, 2017-10-02 The landscape of European migration has changed considerably over the past decades in particular after the fall of the iron curtain and again after the EU enlargement to the east The author researches the phenomenon of highly qualified migration using the example of migration between the Czech Republic and Germany The book reveals diverse strategies migrants use to respond to the possible devaluation of their qualification e.g. by making use of their language skills starting new studies or using transnational knowledge *Social work* Lothar Böhnisch, Wolfgang Schröer, 2016-11-21 In many regions of the world the twenty first century has started with a structure of endless challenges for social work Social work seems to be in demand almost everywhere from support schemes for children and young people into adulthood and on to support for elderly people in community work in cities and rural regions in disaster relief and in care for refugees This book describes the field of social work its themes problems and methods in the face of the concept of the second reflexive modernisation The question needs to be asked of how and whether social work's success story from the first modernity can continue We discuss the second modernity as a time of blurring boundaries Today it frequently faces the problem that the organised terms of its approaches come up against a social reality where the frameworks of social life are becoming dynamic Normalised structures are

dissolving or becoming mixed with new ones boundaries are blurring and new ones appearing Accounting and Social Theory Lisa Jack,2016-10-14 Is society possible without accounting In speech or in writing we communicate actions plans and decisions using numbers calculations words and images Although accounting research is dominated by quantitative analyses the role of accounting in society is firmly established over thousands of years In this concise book Lisa Jack demonstrates the power of social theory in expanding the value of accounting research Accounting and Social Theory An introduction includes advice on research problems as well as guidance on fertile areas for new research The tools techniques and developments covered by the author help readers to see social research in accounting as the study of the use misuse and abuse of accounting communications by people and the effects that this has on social relationships Stories of accounting in war agriculture and food gender health and other areas illustrate the ways in which the threads of accounting run through society Having emerged from the author s wealth of teaching experience this book provides a student focused treasure trove that illuminates the field for early career researchers in accounting and established academics looking to expand the impact of their work *The Cambridge Handbook of Social Problems*: A. Javier Treviño,2018-03-22 The introduction of the Affordable Care Act in the United States the increasing use of prescription drugs and the alleged abuse of racial profiling by police are just some of the factors contributing to twenty first century social problems The Cambridge Handbook of Social Problems offers a wide ranging roster of the social problems currently pressing for attention and amelioration Unlike other works in this area it also gives great consideration to theoretical and methodological discussions This Handbook will benefit both undergraduate and graduate students eager to understand the sociology of social problems It is suitable for classes in social problems current events and social theory Featuring the most current research the Handbook provides an especially useful resource for sociologists and graduate students conducting research Transnationality and Social Mobility Lisa Bonfert,2025-08-15 Considering that changes in people s life chances are increasingly shaped by cross border movements and transnational connections this book proposes a transnational conception of social mobility Emphasising the manifold ways in which contexts of migration and transnationality affect perceptions and evaluations of betterment the book argues for linking the study of social and spatial mobility to better capture how people navigate social structures of inequality in a globalised world Based on the experiences of people who moved to Germany to improve their lives in some way this book links empirical findings with theoretical considerations from transnational and intersectional scholarship to propose an alternative concept of social mobility that emphasises people s subjective interpretations of success and failure in their search of betterment Drawing on the concepts of social spaces capitals and reference group theory a model of the cogwheels of social mobility is proposed to account for the varying ways in which cross border migration and transnational connections initiate changes in people s social position within and across country borders This book will therefore be of interest to scholars of sociology geography and politics with interests in migration transnationalism and mobility
