Sociological Reasoning Towards A Past Modern Sociology:

Sociological Reasoning Rob Stones, 1996-07-03 While sociological modernists were outrageously presumptuous in their claims for sociological knowledge postmodernists have gone to another extreme in claiming that it has no more truth status than fiction Critical of both positions Sociological Reasoning develops an original typology of approaches to social scientific theory and research which is distinguished by its openness and reflexive awareness of rhetorical and methodological aspects of knowledge claims Laced with graphic illustrative examples this is a strikingly well written text that will appeal to students at undergraduate level and beyond

The Politics of Truth and Reconciliation in South Africa Richard Wilson, 2001-05-02 The South African Truth and Reconciliation Commission TRC was set up to deal with the human rights violations of apartheid during the years 1960-1994 However as Wilson shows the TRC's restorative justice approach to healing the nation did not always serve the needs of communities at a local level Based on extended anthropological fieldwork this book illustrates the impact of the TRC in urban African communities in Johannesburg While a religious

constituency largely embraced the commission's religious redemptive language of reconciliation Wilson argues that the TRC had little effect on popular ideas of justice as retribution This provocative study deepens our understanding of post apartheid South Africa and the use of human rights discourse It ends on a call for more cautious and realistic expectations about what human rights institutions can achieve in democratizing countries

Not Losing Face

Richard Michael Head,2025-01-01 What power is may be or imagined to be through human considerations It is vital since the energy used to generate power is life's social and cultural fabric Since power is understood in many ways it shows that it is too complicated to just conveniently rationalize from a compartmental methodology However there is also a paradox here since power can be reduced to the simplicity of acting in a certain way or not acting in a certain way This acting may be self induced or from pressure applied by others and societal expectations Hence power is multifaceted but also of a binary yes or no within its potentiality and actuality It is the versatile nature of power within the space of its binary disposition that the book interweaves with When interweaving eleven faces have been selected to offer what power is and does Eight are prominent social thinkers or simply thinkers who consider what life is as it may be incorrect just to restrict or label them to the social aspect of living as being of and in existence is more than that Another is the physical evolving environment through which all living beings enjoy movement One other participates with power through religious filters of production and the remaining one is an artistic appreciation of how to power My face of power filters these faces
