Spinoza Critical Assessments

Jeroen M.M. van de Ven

Spinoza Critical Assessments:

Spinoza: Context, sources, and the early writings Genevieve Lloyd, 2001 Spinoza Genevieve Lloyd, 2001

Spinoza's Ethics Beth Lord, 2010-02-28 Everything you need to know about Spinoza's Ethics in one volume The Ethics presents a complete metaphysical epistemological and ethical world view that is immensely inspiring However it is also an extremely difficult text to read This book takes readers through the text stopping at the most perplexing passages to explain key terms unfold arguments offer concrete examples and raise questions for further thought It is designed to be read alongside the Ethics enabling students to think critically about Spinoza's views and build an understanding of his complex system *Rhetoric, Materiality, & Politics* Barbara A. Biesecker, John Louis Lucaites, 2009 Rhetoric Materiality and Politics explores the relationship between rhetoric's materiality and the social world in the late modern political context Taking as their point of departure a reprint of Michael Calvin McGee's 1982 call to reconceptualize rhetoric as the palpable experience of sociality the authors in this volume grapple anew with the role of communication practices in contemporary collective life Drawing upon the work of Michel Foucault Jacques Lacan and Jacques Derrida these twelve original essays supplement extend and challenge McGee's position collectively advocating on behalf of a shift in theoretical and critical attention from rhetorical materialism to rhetoric's materiality Book Jacket **Spinoza's Radical Cartesian Mind** Tammy

Nyden-Bullock, 2010-07-15 Seventeenth century Holland was a culture divided Orthodox Calvinists loyal to both scholastic philosophy and the quasi-monarchical House of Orange saw their world turned upside down with the sudden death of Prince William II and no heir to take his place The Republicans seized this opportunity to create a decentralized government favourable to Holland's trading interests and committed to religious and philosophical tolerance The now ruling regent class freshly trained in the new philosophy of Descartes used it as a weapon to fight against monarchical tendencies and theological orthodoxy And so began a great pamphlet debate about Cartesianism and its political and religious consequences This important new book begins by examining key Radical Cartesian pamphlets and Spinoza's role in a Radical Cartesian circle in Amsterdam two topics rarely discussed in the English literature Next Nyden Bullock examines Spinoza's political writings and argues that they should not be seen as political innovations so much as systemizations of the Radical Cartesian ideas already circulating in his time The author goes on to reconstruct the development of Spinoza's thinking about the human mind truth error and falsity and to explain how this development particularly the innovation of parallelism the lynchpin of his system allowed Spinoza to provide philosophical foundations for Radical Cartesian political theory She concludes that contrary to general opinion Spinoza's rejection of Cartesian epistemology involves much more than the metaphysical problems of dualism it involves ironically Spinoza's attempt to make coherent a political theory bearing Descartes's name **Providence Lost** Genevieve Lloyd, 2009-07-01 In our ever more secular times is providence lost Perhaps but as Lloyd makes clear providence still exerts a powerful influence on our thought and in our lives This book

traces a succession of transformations in the concept of providence through the history of Western philosophy *Printing Spinoza* Jeroen M.M. van de Ven, 2022-04-04 In *Printing Spinoza* Jeroen van de Ven systematically examines all seventeenth century printed editions of Spinoza's writings published between 1663 and 1694 as well as their variant issues In focus are Spinoza's 1663 adumbration of Ren Descartes's *Principles of Philosophy* with his own *Metaphysical Thoughts* the *Theological Political Treatise* 1670 and the posthumous writings 1677 including the famously known *Ethics* Van de Ven's descriptive bibliography studies contextualizes and records all aspects of the publication history of Spinoza's writings from manuscript to print and assesses their immediate reception It discusses the printed books codicology philology typographical and textual relationships illustration programmes as well as their dissemination in early Enlightenment Europe in view of the physical aspects of 1 246 extant copies and their provenance *Spinoza's Authority Volume II* A. Kiarina Kordela, Dimitris Vardoulakis, 2017-12-28 Spinoza's political thought has been subject to a significant revival of interest in recent years As a response to difficult times students and scholars have returned to this founding figure of modern philosophy as a means to help reinterpret and rethink the political present *Spinoza's Authority Volume II* makes a significant contribution to this ongoing reception and utilization of Spinoza's 1670s *Theologico Political* and *Political* treatises By taking the concept of authority as an original framework this book asks How is authority related to law memory and conflict in Spinoza's political thought What are the social historical and representational processes that produce authority and resistance And what are the conditions of effective resistance *Spinoza's Authority Volume II* features a roster of internationally established theorists of Spinoza's work and covers key elements of Spinoza's political philosophy **Heidegger and Nietzsche** Louis P. Blond, 2010-01-01 Examines the birth of a new philosophical position resulting from Heidegger's notorious confrontation with Nietzsche *Spinoza: The political writings* Genevieve Lloyd, 2001 These volumes provide a comprehensive selection of high quality critical discussions of Spinoza's philosophy published in or translated into English since 1970 Edited by a distinguished academic panel these volumes allow current debates on key themes to be followed through in depth and present to readers the diversity of philosophical approach and interpretation that characterizes recent Spinoza scholarship
