Spirit Capable The Story Of Commonwealth Edison:

A Spirit Capable John Hogan, 1986 **Edison to Enron** Robert L. Bradley, Jr., 2011-10-03 The oil industry in the United States has been the subject of innumerable histories But books on the development of the natural gas industry and the electricity industry in the U S are scarce Edison to Enron is a readable flowing history of two of America s largest and most colorful industries It begins with the story of Samuel Insull a poor boy from England who started his career as Thomas Edison s right hand man then went on his own and became one of America s top industrialists But when Insull s General Electric s energy empire collapsed during the Great Depression the hitherto Great Man was denounced and prosecuted and died a pauper Against that backdrop the book introduces Ken Lay a poor boy from Missouri who began his career as an aide to the head of Humble oil now part of Exxon Mobil Lay went on to become a Washington bureaucrat and energy regulator and then became the wunderkind of the natural gas industry in the 1980s with Enron To connect the lives of these two energy giants Edison to Enron takes the reader through the flamboyant history of the American energy industry from Texas wildcatters to the great pipeline builders to the Washington wheeler dealers From the Reviews This scholarly work fills in much missing history about two of America s most important industries electricity and natural gas Joseph A Pratt NEH Cullen Professor of History and Business University of Houston a remarkable book on the political inner workings of the U S energy industry Robert Peltier PE Editor in Chief POWER Magazine This is a powerful story brilliantly told Forrest McDonald Historian

Throgmorton, 1996-07 Planning as Persuasive Storytelling is a revealing look at the world of political conflict surrounding the Commonwealth Edison Company s ambitious nuclear power plant construction program in northern Illinois during the 1980s Examining the clash between the utility consumer groups community based groups the Illinois Commerce Commission and the City of Chicago Throgmorton argues that planning can best be thought of as a form of persuasive storytelling A planner s

task is to write future oriented texts that employ language and figures of speech designed to construct constituencies that the planner's vision is both desirable and feasible Though seeking to persuade the planner must also remain open to transformation through honest engagement with contending stories Juxtaposing stories about efforts to construct Chicago's electric future Planning as Persuasive Storytelling suggests a shift in how we think about planning In order to account for the fragmented and conflicted nature of contemporary American life and politics that shift would be away from science and the experts and toward persuasive storytelling by diverse authors P 4 of cover

Chicago and the Old Northwest, 1673-1835 Milo Milton Quaife, 2001 In this sweeping survey Milo Milton Quaife traces the events leading from Chicago's emergence as a key outpost at the edge of the frontier to its establishment as the crossroads of American commerce Strategically located at the head of the Great Lakes on the Chicago portage one of the main highways connecting the Great Lakes St Lawrence waterway with the Mississippi River Chicago was equally valued by explorers traders settlers and governments Quaife narrates the opening of trade and the course of European exploration facilitated by the Chicago portage and subsequent construction of the Illinois and Michigan Canal He profiles the personalities who shaped the early Chicago area from the French explorers La Salle Marquette and Joliet to the ambitious Champlain who set the course for decades to come by securing for New France the enmity of the Iroquois Quaife provides a full description of the Indian trade which constituted the basis of commerce in the region for the entire period covered by the book as well as a blow by blow account of how old rivalries and alliances between Indian tribes complicated the English and French plans for divvying up the New World He also describes the conflicts between natives and whites with sympathy and detail on both sides depicting Indian attacks on white settlements as rationally motivated acts aiming toward specific goals of strategy or revenge First published in 1913 Chicago and the Old Northwest 1673 1835 is one of the earliest works of a man who became one of the premier scholars of his generation In a new introduction Chicago historian Perry R Duis sketches Quaife's long and varied career his influence on the history profession and his crusade to prove that a black trader was the first permanent resident of Chicago

Planning Ethics Sue Hendler, 2018-04-17 Over the past fifty years professional understanding of planning has changed markedly In the past planning was primarily described as a technical activity involving data collection analysis and synthesis of physical plans and supporting policies Now planning is seen as a much broader set of human activities encompassing the physical world and also the realm of public and social services Not surprisingly planners' discussions of ethics have evolved Professional ethics is regarded by many planners to be limited to a set of rules of behavior regarding interactions with the public sources of data government officials and one another This shift is symbolized by the evolution of the labels by which ethics is known from a circumscribed view of professional ethics to a broader concept of ethics in planning both of which are discussed in this book Sue Hendler argues that planners recognize that every act of planning pursues certain human values and is a series of statements about what we take to be right or wrong and what we take to represent the highest priorities of the society

Planning Ethics explores planning within alternative moral theories including liberalism communitarianism environmentalism and feminism The contributors illustrate the application of these ethical principles in specific planning contexts encompassing community development land conversion waste management electric power planning and education planning This is the next generation of thinking on ethics and planning It will be a centerpiece of every planning curriculum
