Splendid Isolation 1763-1780 The Stenton Lecture 1969 The Stenton Lecture 1969:

Splendid Isolation, 1763-1780 Michael Roberts, 1970 The Encyclopedia of Diplomacy, 4 Volume Set Gordon Martel, 2018-04-30 The Encyclopedia of Diplomacy is a complete and authoritative 4 volume compendium of the most important events people and terms associated with diplomacy and international relations from ancient times to the present from a global perspective An invaluable resource for anyone interested in diplomacy its history and the relations between states Includes newer areas of scholarship such as the role of non state organizations including the UN and M decins Sans Fronti res and the exercise of soft power as well as issues of globalization and climate change Provides clear concise information on the most important events people and terms associated with diplomacy and international relations in an A Z format All entries are rigorously peer reviewed to ensure the highest quality of scholarship Provides a platform to introduce unfamiliar terms and concepts to students engaging with the literature of the field for the first time **Late Georgian and Regency England, 1760-1837** Robert A. Smith, 2004-07-08 A guide to historical literature on England between 1760 and 1837 emphasising more recent work **Three Victories and a Defeat** Brendan Simms, 2008-12-09 In the eighteenth century Britain became a world superpower through a series of sensational military strikes Traditionally the Royal Navy has been seen as Britain s key weapon but in Three Victories and a Defeat Brendan Simms argues that Britain s true strength lay with the German aristocrats who ruled it at the time The House of Hanover superbly managed a complex series of European alliances that enabled Britain to keep the continental balance of power in check while dramatically expanding her own empire These alliances sustained the nation through the War of the Spanish Succession the War of the Austrian Succession and the Seven Years War But in 1776 Britain lost the American continent by alienating her European allies An extraordinary reinterpretation of British and American history Three Victories and a Defeat is a masterwork by a rising star of the historical profession **England, Prussia, and the Seven Years War** Karl W. Schweizer, 1989 This study contributes toward re assessment of the Anglo Prussian alliance and illuminates the mechanics of the international system of the period It relies extensively on previously unconsulted official and private papers *Subsidies, diplomacy, and state formation in Europe, 1494-1789* Svante Norrhem, Erik Thomson, 2020-03-18 This book examines early modern politics diplomacy and finance by looking at the transfer of money and other resources between sovereigns in return for military or political service often known as the payment of subsidies Focusing on payments made by the French crown the contributors explore how subsidies provided opportunities for princes statesmen generals and merchant bankers to pursue their political goals By highlighting the ways in which the payment and acceptance of subsidies shaped concepts of honour and reputation the book shows how material interests and questions of identity coalesced The construction of states and the political debates within polities are seen to have been influenced by the movement of money and resources across borders Consequently the interaction between financial and mercantile hubs and networks was vital to state formation in early modern Europe An electronic edition of this

Otte, 2024-09-24 Leuthen 1757 is one of the best known battles of the Seven Years War the most consequential conflict in continental Europe between the Thirty Years War and the wars of Revolutionary and then Napoleonic France It was a victory against the odds over a vastly superior Austrian enemy who held the initiative in the war Leuthen confirmed the reputation of Frederick II the Great of Prussia as one of history's greatest military commanders His victory rested on superior drill and firepower intelligent use of the terrain and his perfecting of the oblique battle order But faulty intelligence and flawed decision making on the Austrian side were no less important as T G Otte shows in this reappraisal of events Leuthen was of profound significance for the war and for the future course of European history Frederick's victory reversed the military dynamic of the current conflict It kept Prussia in the war preserved the existence of the Prussian state and laid the foundations of its further rise with consequences beyond Frederick's own times It also ensured Britain's final commitment to what was becoming a global conflict The significance of Prussia's victory extended beyond the military sphere The Leuthen myth encapsulated in the evocative image of Frederick's exhausted grenadiers intoning the church hymn Now thank ye all our Lord shaped political and historical disputes in nineteenth and twentieth century Germany It also influenced the intellectual assumptions that underpinned Prusso-German war planning before the First World War The Chorale of Leuthen provided the accompanying chords of German cultural developments up to the collapse of the Third Reich in the burning ruins of Berlin But even to the present day its echo can still be heard As with other great battles Leuthen is constantly reassessed and rewritten as an element of national culture and identity Johnson and His Age James Engell, 1984 Published in the bicentennial year of Samuel Johnson's death Johnson and His Age includes contributions by some of the nation's most eminent scholars of eighteenth century literature A section on Johnson's life and thought presents fresh analyses of Johnson's friendships with Mrs Thrale and George Steevens new information on Johnson's relations with Smollett and Thomas Hollis a speculative essay on Johnson and the Meaning of Life and a provocative examination of Johnson Traveling Companion in Fancy and Fact Other essays reinterpret basic assumptions in Johnson's criticism and examine The Antinomy of Style in Augustan poetics Hume's critique of criticism and the broad Anglo-Scots inquiry on subjectivity in literature A section on major figures of the age discusses Gray and the problems of literary transmissions Hogarth's book illustrations for friends Gibbon's oratorical silences Blake's concept of God and Burke's attempt to forestall Britain's ruinous policy toward the American colonies A section on the novel examines that genre from Richardson and Sterne to Austen Among the contributors are Bertrand H Bronson Jean H Hagstrum Patricia Meyer Spacks Robert Haisband Howard D Weinbrot Mary Hyde Ralph W Rader Lawrence Lipking Gwin J Kolb John H Middendorf W B Carruichan and Max Byrd Bibliography of Historical Works Issued in the United Kingdom, 1966-1970, 1972 **Library of Congress Catalog** Library of Congress, 1972 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps
