Splendidly Victorian Essays In Nineteenth And Twentieth Cen:

Splendidly Victorian Michael H. Shirley, Todd E. A. Larson, 2001 Splendidly Victorian Michael Shirley, Todd Larson, 2017-11-22 This title was first published in 2001 The eminent historian of Victorian Britain Walter L Arnstein has over the course of a career spanning more than 40 years arguably introduced more students to British history than any other American historian This collection of essays by some of his former students celebrates Arnstein s inspirational teaching and writing with surveys and analyses of various aspects of the social cultural economic and political history of nineteenth and early twentieth century Britain Nineteenth century topics covered in the volume include early Victorian caricatures and the thin legal lines that they often trod British Army fashion and its contribution to Royal spectacles Free Trade Radicals and how they viewed educational reform and moral progress the persistence of Chartist ideology following the failure of the movement in 1848 Disraeli and Derby s involvement with the Navy s administration religious periodicals and their influence the myth of Bismarck as an honest broker of peace and the subsequent collapse of the myth as a later source of enmity in Anglo German relations the powerful mystique evoked back in England by the London missionary societies Mongolian missions Victorian urban planning and the re introduction of the market place Rural-Urban Relationships in the Nineteenth Century Mary Hammond, Barry Sloan, 2016-05-20 The essays in this collection seek to challenge accepted scholarship on the rural urban divide Using case studies from the UK Europe and America contributors examine complex rural urban relationships of conflict and cooperation The volume will be of interest to those researching society and politics criminology literature and demographics *Charles Pelham Villiers: Aristocratic Victorian Radical* Roger Swift, 2017-03-16 This book provides the first biographical study of Charles Pelham Villiers 1802 1898 whose long UK parliamentary career spanned numerous government administrations under twenty different prime ministers An aristocrat from a privileged background Villiers was elected to Parliament as a Radical in 1835 and subsequently served the constituency of Wolverhampton for sixty three years until his death in 1898 A staunch Liberal free trader throughout his life Villiers played a pre eminent role in the Anti Corn Law League as its parliamentary champion introduced an important series of Poor Law reforms and later split with William Gladstone over the issue of Irish Home Rule turning thereafter to Liberal Unionism Hence Villiers who remains the longest serving MP in British parliamentary history was intimately involved with many of the great issues of the Victorian Age in Britain *War in the Nineteenth Century* Jeremy Black, 2013-04-26 This book provides an accessible and up to date account of the rich military history of the nineteenth century It takes a fresh approach making novel links with conflict and coercion and moving away from teleological emphases Naval developments and warfare are included as are social and cultural dimensions of military activity Leading military historian Jeremy Black offers the reader a twenty first century approach to this period particularly through his focus on the dynamic drive provided by different forms of military goals or tasking This allows echoes with modern warfare to come to the fore and provides a fuller understanding

of a period sometimes considered solely as background to the total war of 1914-18. Alongside state to state warfare and the move toward total war Black's emphasis on different military goals gives due weight to trans-oceanic conflict at the expense of non-Europeans. Irregular, internal and asymmetric war are all considered, ranging from local insurgencies to imperial expeditions and providing a deliberate shift from Western centrality. At the very cutting edge of its field, this book is a must-read for all students and scholars of military history and its related disciplines.

The American Experiment and the Idea of Democracy in British Culture, 1776-1914 Ruth Livesey, 2016-04-01. In nineteenth-century Britain, the effects of democracy in America were seen to spread from Congress all the way down to the personal habits of its citizens. Bringing together political theorists, historians and literary scholars, this volume explores the idea of American democracy in nineteenth-century Britain. The essays span the period from Independence to the First World War and trace an intellectual history of Anglo-American relations during that period. Leading scholars trace the hopes and fears inspired by the American model of democracy in the works of commentators including Thomas Paine, Mary Wollstonecraft, Alexis de Tocqueville, Charles Dickens, John Stuart Mill, Richard Cobden, Charles Dilke, Matthew Arnold, Henry James and W. T. Stead. By examining the context of debates about American democracy and notions of culture, citizenship and race, the collection sheds fresh light on well-documented moments of British political history such as the Reform Acts, the Abolition of Slavery Act and the Anti-Corn Law agitation. The volume also explores the ways in which British Liberalism was shaped by the American example and draws attention to the importance of print culture in furthering radical political dialogue between the two nations. As the comprehensive introduction makes clear, this collection makes an important contribution to transatlantic studies and our growing sense of a nineteenth-century modernity shaped by an Atlantic exchange. It is an essential reference point for all interested in the history of the idea of democracy, its political evolution and its perceived cultural consequences.

New Perspectives on the History of Facial Hair Jennifer Evans, Alun Withey, 2018-03-02. This volume brings together a range of scholars from diverse disciplinary backgrounds to re-examine the histories of facial hair and its place in discussions of gender, the military, travel and art, amongst others. Chapters in the first section of the collection explore the intricate history of beard-wearing and shaving, including facial hair fashions in long historical perspective and the depiction of beards in portraiture. Section Two explores the shifting meanings of the moustache, both as a manly symbol in the nineteenth century and also as the focus of the material culture of personal grooming. The final section of the collection charts the often complex relationship between men, women and facial hair. It explores how women used facial hair to appropriate masculine identity and how women's own hair was read as a sign of excessive and illicit sexuality.

The Second Generation Andreas W. Daum, Hartmut Lehmann, James J. Sheehan, 2015-12-01. Of the thousands of children and young adults who fled Nazi Germany in the years before the Second World War, a remarkable number went on to become trained historians in their adopted homelands. By placing autobiographical testimonies alongside historical analysis and professional reflections, this richly varied collection

comprises the first sustained effort to illuminate the role these men and women played in modern historiography Focusing particularly on those who settled in North America Great Britain and Israel it culminates in a comprehensive meticulously researched biobibliographic guide that provides a systematic overview of the lives and works of this second generation

Women and the Colonial Gaze Tamara L. Hunt, Micheline R. Lessard, 2002-06 Women and the Colonial Gaze is the first collection to present a broad chronological and geographical examination of the ways in which colonial powers have represented women in colonized native societies exploring the ways in which both colonizers and colonized have been affected by these perceptions

Ambivalent Nation Hugh Dubrulle, 2018-06-11 In Ambivalent Nation Hugh Dubrulle explores how Britons envisioned the American Civil War and how these conceptions influenced their discussions about race politics society military affairs and nationalism Contributing new research that expands upon previous scholarship focused on establishing British public opinion toward the war Dubrulle offers a methodical dissection of the ideological forces that shaped that opinion many of which arose from the complex Anglo American postcolonial relationship Britain's lingering feeling of ownership over its former colony contributed heavily to its discussions of the American Civil War Because Britain continued to have a substantial material interest in the United States its writers maintained a position of superiority and authority in respect to American affairs British commentators tended to see the United States as divided by two distinct civilizations even before the onset of war a Yankee bourgeois democracy and a southern oligarchy supported by slavery They invariably articulated mixed feelings toward both sections and shortly before the Civil War the expression of these feelings was magnified by the sudden emergence of inexpensive newspapers periodicals and books The conflicted nature of British attitudes toward the United States during the antebellum years anticipates the ambivalence with which the British reacted to the American crisis in 1861 Britons used prewar stereotypes of northerners and southerners to help explain the course and significance of the conflict Seen in this fashion the war seemed particularly relevant to a number of questions that occupied British conversations during this period the characteristics and capacities of people of African descent the proper role of democracy in society and politics the future of armed conflict and the composition of a durable nation These questions helped shape Britain's stance toward the war and in turn the war informed British attitudes on these subjects Dubrulle draws from numerous primary sources to explore the rhetoric and beliefs of British public figures during these years including government papers manuscripts from press archives private correspondence and samplings from a variety of dailies weeklies monthlies and quarterlies The first book to examine closely the forces that shaped British public opinion about the Civil War Ambivalent Nation contextualizes and expands our understanding of British attitudes during this tumultuous period

Unveiling the Energy of Verbal Artistry: An Emotional Sojourn through **Splendidly Victorian Essays In Nineteenth And Twentieth Cen**

In a world inundated with screens and the cacophony of quick connection, the profound power and emotional resonance of verbal artistry frequently diminish in to obscurity, eclipsed by the regular onslaught of sound and distractions.
