Splendors Of Asia:

The Splendours of Asia: India, Thailand, Japan Robert Payne, 1966 *The International Quarterly*, 1904 *The International Quarterly* Frederick Albert Richardson, 1904 **Asia**, 1927 *The Evolution of Indian Stupa Architecture in East Asia* Eric Stratton, 2002

Contents I Introduction II Symbolic analysis of religious architecture III Indianization in Southeast Asia lineage one 1 Religious foundations 2 Architecture 3 Java 4 Cambodia 5 Champa IV Burma lineage two 1 Thai Era 2 The lineages of stupa forms V The philosophical Indianization of Northeast Asia the third lineage 1 China 2 Korea 3 Japan 4 Tibet 5 Mongolia 6 The Tibetan stupa Bibliography

This work seeks to explore the development of East Asian architecture based upon its borrowings from the Indian stupa While most scholars agree that some features of East Asian religious architecture have been strongly influenced by the symbolic architecture of the stupa this study specifically seeks to identify three distinct architectural lineages originating from India to East Asia These lineages were inspired by the work of Liang Ssu Ch eng who first identified several families of pagoda structures in Mainland China in the early part of the 20 century However here we extend our search to all the nations that have employed the stupa architecture outside India and Nepal These other lineages have been identified through careful analysis in archaeological anthropological historical and religious studies The first of these lineages extends through Indo China and Indonesia The second lineage is mainly found extending through Burma Both lineages one and two meet together in later Thai architecture The third lineage extends across Central Asia to the shores and nations of Far East Asia such as Japan Korea and China As all the lineages are demonstrated to be imbued and propagated by the sacred and ancient symbolism of India each chapter examines the history of Indian thought as it was introduced into a region and then discusses the features of the most well known structures of that region
