Splendors of Nature National Museum of Natural History (U.S.),1970 **Reconceiving Nature** PATRICIA MURPHY,2019-03-28 Surprisingly glimmerings of ecofeminist theory that would emerge a century later can be detected in women s poetry of the late Victorian period In *Reconceiving Nature* Patricia Murphy examines the work of six ecofeminist poets Augusta Webster Mathilde Blind Michael Field Alice Meynell Constance Naden and L S Bevington who contested the exploitation of the natural world Challenging prevalent assumptions that nature is inferior rightly subordinated and deservedly manipulated these poets instead reconstructed nature **Nature's Altars** Susan R. Schrepfer,2005 Book Review

Splendors of Nature National Museum of Natural History,Francis M. Hueber,1981* Nature Songs David Chalmers Nimmo,1915 *Nature Songs* by David Chalmers Nimmo first published in 1915 is a rare manuscript the original residing in one of the great libraries of the world This book is a reproduction of that original which has been scanned and cleaned by state of the art publishing tools for better readability and enhanced appreciation Restoration Editors mission is to bring long out of print manuscripts back to life Some smudges annotations or unclear text may still exist due to permanent damage to the original work We believe the literary significance of the text justifies offering this reproduction allowing a new generation to appreciate it Children Today ,1980 The Nature of Childhood Pamela Riney-Kehrberg,2014-04-04 When did the kid who strolled the wooded path trolled the stream played pick up ball in the back forty turn into the child confined to the mall and the computer screen How did Go out and play go from parental shooing to prescription When did parents become afraid to send their children outdoors Surveying the landscape of childhood from the Civil War to our own day this environmental history of growing up in America asks why and how the nation s children have moved indoors often losing touch with nature in the process In the time the book covers the nation that once lived in the country has migrated to the city a move whose implications and ramifications for youth Pamela Riney Kehrberg explores in chapters concerning children s adaptation to an increasingly urban and sometimes perilous environment Her focus is largely on the Midwest and Great Plains where the response of families to profound economic and social changes can be traced through its urban suburban and rural permutations as summer camps scouting and nature education take the place of children s unmediated experience of the natural world As the story moves into the mid twentieth century and technology in the form of radio and television begins to exert its allure Riney Kehrberg brings her own experience to bear as she documents the emerging tug of war between indoors and outdoors and between the preferences of children and parents It is a battle that children at home with their electronic amenities seem to have won an outcome whose meaning and likely consequences this timely book helps us to understand *Frankness in Religion* Robert James Hutcheon,1929 **A Religion of Nature** Donald A. Crosby,2012-02-01 The beauty sublimity and wonder of nature have been justly celebrated in all of the religious traditions of the world but usually these traditions have focused on beings or powers presumed to lie behind nature providing nature s ultimate

explanation and meaning In a radical departure Donald A Crosby makes an eloquent case for regarding nature itself as the focus of religion conceived without God gods or animating spirits of any kind and argues that nature is metaphysically ultimate He explores the concept of nature the place of humans in nature the responsibilities of humans to one another and to their natural environments and offers a religious vision that grants to nature the kind of reverence awe love and devotion formerly reserved for God Crosby also shares his personal journey from theistic faith to a religion of nature *Facing Up to Mortality* Daniel Liechty, 2021-10-21 Exploring a new approach to interfaith interreligious communication the contributors to this collection seek to interact from the perspective of their own tradition or academic discipline with Ernest Becker's theory on the relationship between religion culture and the human awareness of death and mortality While much interfaith interreligious dialogue focuses on beliefs and practices thus delineating areas of disagreement as a starting point these chapters foster interactive communication rooted in areas of the universal human experience Thus by demonstration these authors argue for the integrity and efficacy of this approach for pursuing intercultural and interdisciplinary communication
