Intuitive Instructional Speech in Sufism Martin A. M. Gansinger, 2022-08-17 The Sufi tradition remains one of the most mysterious and least understood systems of self realization This book demystifies the practice of the sohbet an ad hoc discourse as the central instructional tool in the globally influential Naqshbandi Haqqani Order It approaches the practice using categories of improvised music to establish a framework for analyzation Its ritualized formal structure illustrated via selected talks of Shaykh Nazim Adil al Haqqani discloses the underlying and assumingly primary function to provoke prolonged states of raised awareness in listeners and condition their sympathetic nervous system In an extensive discussion based on several years of field research in Cyprus the book relates this intention to similar practices in other traditional knowledge systems by proposing psychophysical interpretations based on psychology biochemistry neuroscience or quantum physics It will appeal to scholars and students of Sufism Islamic studies and comparative religion as well as those interested in performance studies and improvised music interpersonal communication and education

The Hidden Domain Norman Friedman, 1997 Did you know that our everyday world arises from an invisible ocean of unlimited energy that surrounds and permeates us That all events exist in potential form in this ocean and certain ones are selected to be manifest in our reality That this domain is the source not only of our universe but innumerable other universes as well The Hidden Domain explores this realm using nonmathematical concepts that are solidly grounded in science Ideas from physicists from religious and philosophical sources and from Seth the discarnate entity brought to us by Jane Roberts illuminate this intriguing depiction of the world that underlies all experience

Quantum God Michelle Langenberg, 2013-07-10 If Quantum God were a Who God would not be the judgmental biased and sometimes malicious Old Man in the Sky many of us grew up with but rather the All where everything is possible and pulsating with potential If Quantum God were a What God might be the fabric that connects every idea every desire every personality and everything in a pulsating energetic ever Becoming Whole If Quantum God were a Where God could be the Higgs Boson God Particle upon which angels dance or an everywhere with ever burgeoning dimensions well beyond our comprehension of the universe as we know it If Quantum God were a Why God would exist because creativity cannot be contained or restrained but seeks free flowing expression expanding in waves and ripples of idea become event Yet Quantum God may be most like a How the how behind everything we know and laws we can only guess at the how that lays the groundwork for miracles as commonplace occurrences and composes a theme from the frequency or vibration of joy Quantum God How Life Really Works sheds light on the misconceptions that limit us and offers insights that can free us to be the true powers we really are seemingly magical beings who create with godlike abilities When we understand the invisible workings of the universe we stop being victims of creative laws we don't understand These laws rule our lives whether we comprehend them or not What could we do if we understood them Is there anything we could not do Miracles are the way life is meant to work Quantum God tells about how we shortchange ourselves our true creative

potential how our hopes and dreams fears and feelings of inadequacy create our experiences how to rise out of depression victimhood and blame to find joy and peace how to believe in ourselves and live with confidence and optimism You are now what you think you are but youre actually so much more You can become whatever you believe is possible Learn how to redefine yourself

Marja de Vries,2012-05-25 The Whole Elephant Revealed offers clear insights into the existence and operation of universal laws and the golden ratio It is a synthesis based on common insights found in all wisdom traditions into the operation of universal laws on the one hand and on cutting edge scientific discoveries that are in line with those insights on the other hand These principles are called universal because they work on all levels of existence apply to everything that exist and create order and harmony in the universe Insights into the operation of the universal laws reveals a whole new worldview It helps us to understand how everything works in the universe who we really are and how we can make conscious choices that are more in line with these universal laws Above all it helps us to understand what works and what doesne tm t work in the long term Everything that operates in line with the universal laws follows the path of least resistance and is in harmony with the greater whole It makes us realize that while everything in the universe works in harmony with these principles many aspects of our personal life and our Western culture are not in line with the operation of these underlying principles If we choose to act in line with the operation of the universal laws it will go easier will be more in tune with who we really are and more in harmony with the greater whole This choice is hard to make though if we done tm t know those principles For that reason the rediscovery of the working of these principles seems to be of extreme importance In this time of great changes and global unbalance a growing number of people begin to feel the need for a clear and well founded insight into the universal laws because this gives an understanding of what is needed to restore the balance and harmony in ourselves as well as worldwide Because the nature of these principles is universal they apply to all aspects of our individual and social life Therefore they can be used as a frame of reference for all personal and social transformations which aim at a greater harmony within ourselves and with the greater whole *Layered Reality* Valo Ray,2020-08-15 Layered Reality is a candid dialogue between a truth seeker a semi fictional character who personifies the author and a highly evolved channelled spirit entity Zachariah **Conscious Medicine** Gill Edwards,2010-11-18 Radical changes are afoot in medicine as we build stronger bridges between science and spirituality In CONSCIOUS MEDICINE Gill Edwards explains that mind and body are inseparable and that emotions are crucial in health and disease Her new approach to healthcare is based on the latest research into the transformative power of consciousness energy and the bodymind She explains how when you break your
