The Hidden Springs Renée Haynes,1973 **Psychics, Sensitives and Somnambules** Rodger I. Anderson,2015-01-27

Claimants of paranormal abilities have always attracted controversy and fascination and sometimes rigorous study by scientists Charles Bailey an Australian medium was seemingly able to materialize different objects animate and inanimate under conditions which made it difficult to conceive how they could have been normally produced Sumitra Singh a woman of Northern India who in 1984 became subject to epileptic type seizures claimed to be possessed by spirits of the dead Franck Kluski was a Polish poet banker and physical medium who specialized in both human and animal materializations This biographical dictionary contains profiles of 330 psychics worldwide from Tony Agpaoa to Elenor Zugun each accompanied by a bibliography listing the primary sources consulted The primary focus is on those claimed psychics who have figured prominently in the history of the subject though some lesser known figures are included to show how rich varied and colorful that history has been The aim throughout is to present each case as fairly and dispassionately as the facts allow with a particular eye for accuracy in details and presentation The approach is historical not apologetic or accusatory making the work ideally suited as a permanent reference Women's University Narratives, 1890-1945, Part II Anna Bogen,2017-11-20

The years 1890 1945 saw an unprecedented outpouring of fiction focused on British university life much of it reflecting the drastic change that had swept through the higher education system in the late nineteenth century Among these narratives a significant subgroup focused on the lives of women students newly admitted to the structures of higher education system their presence still stridently and sometimes even violently opposed especially at Oxbridge These novels and short stories collected here largely unknown today were widely discussed and debated in the public sphere during the early twentieth century contributing not only to the formation of public knowledge and opinion about education through cultural figures like the Girton Girl or the undergraduette but also sparking debate about many wider social and cultural issues from the place of the women writer in the literary scene to the emergence of new discourses around psychology and the body The majority have not been reprinted since their original publication and until now have been rarely available to scholars The publication of Women s University Narratives 1890 1945 therefore provides a major new resource for scholarship in many areas including women s studies educational history and literary and cultural modernism The Trial of Woman D.
