The Basecamp Manifesto Terence C. Young, 2024-10-31 It is often said that it is lonely at the top But this loneliness can be dangerous not only to the leader but also to the led It turns out we hold our environments as we are held If we are not held in a caring and daring fashion it shows up in how we live and lead The Basecamp Manifesto is a formative work on developing and sustaining leadership skills Here Terence Young outlines the development of a changed narrative around leading organizations Rather than the often stereotyped perception of leadership as a solitary ascent to the top followed often by an equally solitary descent down the leadership peak Young has created a framework for leadership that relies on developing a basecamp of companions Like the familiar basecamps of extraordinary physical ascents of Mount Everest and other spectacular and spectacularly challenging peaks a leader's basecamp is a secure base of trusted and trusting peers that shape and nurture you during the ascent to leadership Young presents the gifts that current and future leaders should find in a secure base greater clarity in the sense making process enhancement of agility in navigating dynamic situations building endurance to face challenges and fostering generativity for greater productivity and innovation in one's life quest The Basecamp Manifesto is written for leaders of all organizations whether for profit or nonprofit Whether a business leader an educational leader a political leader a religious leader or other society facing leader all leaders face particular and specific challenges in leadership How do I lead and navigate with those in my circle through a world of increasing volatility uncertainty complexity and ambiguity For the sake of those you lead Young's groundbreaking work says to leaders find your people find your secure base find and shape and nurture the circle of trust that can make you a quality leader The Basecamp Manifesto can help you to become intentional about shaping relationships where clarity agility durability and generativity can be found and fostered

Crowley, 2022-08-23 Leadership and engagement expert Mark C Crowley shows how trading in the old business playbook for heart led leadership strategies will create purpose driven

dedicated employees and higher levels of performance Revised and updated to address the needs of those managing Gen Z and millennial employees in addition to the latest global research on employee engagement In this thoroughly revised and updated edition of his now classic book visionary Mark C Crowley provides the roadmap workplace leaders the world over are seeking How to most successfully and sustainably inspire and manage other human beings in the post pandemic era Nearly 50 million workers quit their jobs in the U S alone in 2021 a record number likely to be exceeded in 2022 While we might imagine that an opportunity to earn greater pay is the key driver of this Great Resignation research shows two thirds of the reasons people leave jobs boil down to issues related to their engagement and overall well being More specifically people quit when they feel they aren't valued respected appreciated coached or cared about personally by their manager and organization Thanks in large part to the COVID pandemic and a global reset of what matters most to people in their lives human beings have profoundly evolved in what they need and want in exchange for their work Consequently a radical change in employee expectations demands that organizations and managers rapidly pivot by embracing leadership practices that match the moment The remedy to the Great Resignation is to adopt more humane ways of managing people knowing they inherently lead to infinitely greater engagement not to mention optimal employee performance In this new and updated version of his seminal and visionary book Mark C Crowley draws upon emerging medical and other scientific discoveries which prove it's the heart not the mind that drives human motivation and achievement While we've long been led to believe that human beings are essentially rational beings new research shows that feelings and emotions far more often motivate human behavior and what people care about most and commit themselves to in their lives In light of this breakthrough understanding it's become incumbent upon workplace managers to pay great attention to their employees emotional experience at work far greater attention than any of us ever believed necessary Ironically most of us were told the heart has no place in workplace management In fact most of us were taught that the heart acts like Kryptonite in leadership it inherently undermines a manager's effectiveness and lowers performance What makes this book so remarkable is that it brilliantly contradicts all those traditional beliefs and proves why people naturally and instinctively respond to managers who care about them personally and support their deep human needs To be absolutely clear there's nothing soft or weak about the Lead From The Heart philosophy Instead it represents the future of workplace management and a roadmap to driving uncommon engagement productivity and profitability when organizations around the world are wanting it most Rich with inspiring stories and illuminating research this book proves that when you lead people with a greater balance of mind and heart people naturally follow And they also excel Cultivating Cultures of Thinking in Australian Schools Cameron Paterson, Simon Brooks, 2025-10-30 This book is a call to action for educators who seek to move beyond superficial learning and engage students in deeper more meaningful thinking At a time when education is dominated by standardisation and a crowded curriculum this book champions a different path prioritising student agency curiosity and thinking Grounded in the
