The Hundred And The Hundred Rolls An Outline Of Local Government In Medieval England:

The Hundred & The Hundred Rolls Helen Cam, 2025-05-08 Originally published in 1930 this book outlines the system of local government at work in the reign of Edward I and provides a guide to the study of the 3 volumes of the Rotuli Hundredorum and Placita Quo Warranto which were printed early in the nineteenth century The Hundreds were the districts of England into which every county was subdivided They varied in size and shape but formed an indispensable part of the system of local government For taxation justice police law and military defence the Hundred came into play The Hundred Rolls were a complete statement as to the administration of the counties of England and the Hundred Rolls of 1274 75 are the starting point of this book In interpreting them one can understand not only the England of Edward I but the whole system of local government of the early Middle Ages in England

England 1170--1300 John Sabapathy, 2019-09-13 The later twelfth and thirteenth centuries were a pivotal period for the development of European government and governance A mentality emerged that trusted to procedures of accountability as a means of controlling officers conduct The mentality was not inherently new but it became qualitatively more complex and quantitatively more widespread in this period across European countries and across different sorts of officer The officers exposed to these methods were not just state ones but also seignorial ecclesiastical and university college officers as well as urban communal ones This study surveys these officers and the practices used to regulate them in England It places them not only within a British context but also a wide European one and explores how administration law politics and norms tried to control the insolence of office The devices for institutionalising accountability analysed here reflected an extraordinarily creative response in England and beyond to the problem of complex government inquests audits accounts scrutiny panels syndication Many of them have shaped the way in which we think about accountability today Some remain with us So too do their practical problems How can one delegate control effectively How does accountability relate to responsibility What relationship does accountability have with justice This study offers answers for these questions in the Middle Ages and is the first of its kind dedicated to an examination of this important topic in this period **Business and Community in**

Medieval England Catherine Casson, Mark Casson, John S. Lee, Katie Phillips, 2020-04-01 One of the most important manuscripts surviving from thirteenth century England the corpus of documents known as the Hundred Rolls for Cambridge have been incomplete until the recent discovery of an additional roll This invaluable volume replaces the previous inaccurate transcription by the record commission of 1818 and provides new translations and additional appendices Shedding new light on important facets of business activity in thirteenth century Cambridge this volume makes a significant contribution to our

knowledge of the early phases of capitalism This unique text will be of interest to anyone working in the fields of economic and business history entrepreneurship philanthropy and medieval studies A research monograph based on recently discovered historical documents **Compassionate Capitalism Business and Community in Medieval England** by Casson et al is also now available from Bristol University Press **Imprisoning Medieval Women** Dr Gwen Seabourne,2013-07-28 The non judicial confinement of women is a common event in medieval European literature and hagiography The literary image of the imprisoned woman usually a noblewoman has carried through into the quasi medieval world of the fairy and folk tale in which the maiden in the tower is one of the archetypes Yet the confinement of women outside of the judicial system was not simply a fiction in the medieval period Men too were imprisoned without trial and sometimes on mere suspicion of an offence yet evidence suggests that there were important differences in the circumstances under which men and women were incarcerated and in their roles in relation to non judicial captivity This study of the confinement of women highlights the disparity in regulation concerning male and female imprisonment in the middle ages and gives a useful perspective on the nature of medieval law its scope and limitations and its interaction with royal power and prerogative Looking at England from 1170 to 1509 the book discusses the situations in which women might be imprisoned without formal accusation of trial how social status national allegiance and stage of life affected the chances of imprisonment the relevant legal rules and norms the extent to which legal and constitutional developments in medieval England affected women s amenability to confinement what can be known of the experiences of women so incarcerated and how women were involved in situations of non judicial imprisonment aside from themselves being prisoners The New Cambridge Medieval History: Volume 5, C.1198-c.1300 Rosamond McKitterick,David Abulafia,1995 Sample Text **Compassionate Capitalism** Catherine Casson,Mark Casson,John S. Lee,Katie Phillips,2020-04-01 It may seem like a recent trend but businesses have been practising compassionate capitalism for nearly a thousand years Based on the newly discovered historical documents on Cambridge s sophisticated urban property market during the Commercial Revolution in the thirteenth century this book explores how successful entrepreneurs employed the wealth they had accumulated to the benefit of the community Cutting across disciplines from economic and business history to entrepreneurship philanthropy and medieval studies this outstanding volume presents an invaluable contribution to our knowledge of the early phases of capitalism A companion book **The Cambridge Hundred Rolls Sources Volume** replacing the previous incomplete and inaccurate transcription by the Record Commission of 1818 is also available from Bristol University Press **A Gentry Community** Eric Acheson,2003-10-30 An examination of the gentry as land holders pillars of society political leaders family members and individuals The Medieval March of Wales Max Lieberman,2010-01-28 This book examines the making of the March of Wales and the crucial role its lords played in the politics of medieval Britain between the Norman conquest of England of 1066 and the English conquest of Wales in 1283 Max Lieberman argues that the Welsh borders of Shropshire which were first from c 1165 referred to as

Marchia Wallie provide a paradigm for the creation of the March He reassesses the role of William the Conqueror s tenurial settlement in the making of the March and sheds new light on the ways in which seigneurial administrations worked in a cross cultural context Finally he explains why from c 1300 the March of Wales included the conquest territories in south Wales as well as the highly autonomous border lordships This book makes a significant and original contribution to frontier studies investigating both the creation and the changing perception of a medieval borderland Plantagenet Ancestry: A Study In Colonial And Medieval Families, 2nd Edition, 2011 , *Policing: A Short History* Philip Rawlings,2012-12-06

Providing an overview of the history of policing in the UK the book investigates the changes in policing strategies over time and provides a historical foundation for contemporary debates It will be essential reading for anybody interested in the history of policing and in today s intense debates on what the police do **The Commercialisation of English Society, 1000-1500** R. H. Britnell,1996

The commercialisation of English society offers a major new interpretation of social and economic change in England over five centuries By 1500 English livelihoods depended more upon money and commercial transactions than ever before the institutional framework of markets had been transformed and urban development was more pronounced These changes were not however caused by any unilinear development of population output or money supply This pioneering study examines both institutional and economic transformation and the social changes that resulted and stresses the limited importance of formal trading institutions for the development of local trade Commercial transition is throughout analysed from a broader perspective that looks at the changing power relations within medieval society which might loosely be described as feudal and considers how these relations were affected by such commercial development

The Soldier Experience in the Fourteenth Century Anne Curry,Andy King,David Simpkin,2011 Essays throwing fresh light on what it was like to be a medieval soldier drawing on archival research The long fourteenth century saw England fighting wars on a number of diverse fronts not just abroad in the Hundred Years War but closer to home But while tactics battles and logistics have been frequently discussed the actual experience of being a soldier has been less often studied Via a careful re evaluation of original sources and the use of innovative methodological techniques such as statistical analysis and the use of relational databases the essays here bring new insights to bear on soldiers both as individuals and as groups

Topics addressed include military service and the dynamics of recruitment the social composition of the armies the question of whether soldiers saw their role as a profession and the experience of prisoners of war Contributors Andrew Ayton David Simpkin Andrew Spencer David Bachrach Iain MacInnes Adam Chapman Michael Jones Guilhem Pepin Remy Ambuhl Adrian R Bell **History** ,1921 Chronological coverage with articles on social political cultural economic and ecclesiastical history

Market Morality James Davis, 2011-11-24 This important study examines the market trade of medieval England by providing a wide ranging critique of the moral and legal imperatives that underpinned retail trade James Davis shows how market goers were influenced not only by practical and economic considerations of price quality supply and demand but also by the moral and cultural environment within which such deals were conducted This book draws on a broad range of cross disciplinary evidence from the literary works of William Langland and the sermons of medieval preachers to state civic and guild laws Davis scrutinises everyday market behaviour through case studies of small and large towns using the evidence of manor and borough courts From these varied sources Davis teases out the complex relationship between morality law and practice and demonstrates that even the influence of contemporary Christian ideology was not necessarily incompatible with efficient and profitable everyday commerce

The Intellectual Property of Nations Laura R. Ford, 2021-05-20 This sweeping sociological analysis traces the emergence of intellectual property as a new type of legal property
