## **The Hungarians A Divided Nation By Borsody Stephen:**

*Silenced Voices* Csilla Bertha, Donald E. Morse, 2008 This book is a timely reminder of how theatre can not just entertain but enlighten and transform us too The five plays it collects are wonderfully theatrical moving fluidly from absurdism to tragedy and from satire to the darkly comic The translators give us versions that will stimulate and delight readers performers and audiences And by giving voice to the forgotten playwrights of Central Europe they also deeply enrich our understanding of the relationship between art ethics and politics in Europe both in the past and the present BOOK JACKET

*Between State and Nation* M. Waterbury, 2010-11-14 Based on a qualitative study of Hungary and its changing relationship to the 3 million ethnic Hungarians in neighbouring states this book argues that it is not the ties of ethnicity but the political interests of kin state elites that drives states in Eastern Europe to take action on behalf of ethnic kin in neighboring states

*Central and East European Politics* Zsuzsa Csergo, Daina S. Eglitis, Paula M. Pickering, 2021-06-22 Now in a fully revised and updated edition this essential text provides a comprehensive introduction to Central and Eastern Europe including the Baltics and Ukraine Broad but nuanced it offers a reader friendly overview of the globally and regionally significant changes and challenges the region faces Divided into two parts the book first presents thematic chapters on key issues including nationalism and challenges to democratic institutions and practices the contentious politics of memory debates over demography and migration in a region with a shrinking population and Russian efforts to retain regional influence through hard and soft power The case study chapters that follow highlight key political developments after communism as well as providing a strong foundation for readers on regional history and the political and economic experiences of the communist years Each covers the foundational topics of political history political competition economic development social problems relationships with European institutions and threats to good governance For students and specialists alike this book will be an invaluable resource on this dynamic region of Europe

*Nationalism and Territory* George W. White, 2000 Why do nations come into conflict What factors lead to the horrors of ethnic cleansing This timely book offers clear eyed answers to these questions by exploring how national identity is shaped by place focusing especially on Serbia Hungary and Romania Moving beyond studies of nationalism that consider only the economic and geostrategic value of territory George W White shows that the very core of national identity is intimately bound to specific places Indeed nations define themselves in terms of spaces that have historical linguistic and religious meaning as Serbs have clearly demonstrated in Kosovo These territories are concrete expressions of a nation's identity both past and present With his detailed analysis of the places that define national identity in Southeastern Europe White convincingly shows why territorial disputes so often escalate into war

*Eastern Europe* Richard Frucht, 2004-12-22 A contemporary analysis of the people cultures and society within the regions that make up Eastern Europe

*Eastern Europe An Introduction to the People Lands and Culture* sheds light on modern day life in the 16 nations comprising Eastern Europe Going beyond the history and

politics already well documented in other works this unique three volume series explores the social and cultural aspects of a region often ignored in books and curricula on Western civilization The volumes are organized by geographic proximity and commonality in historical development allowing the countries to be both studied individually and juxtaposed against others in the region The first volume covers the northern tier of states the second looks at lands that were once part of the Hapsburg empire and the third examines the Balkan states Each chapter profiles a single country its geography history political development economy and culture and gives readers a glimpse of the challenges that lie ahead Vignettes on various topics of interest illuminate the unique character of each country Ligeti's Laments: Nostalgia, Exoticism, and the Absolute Amy

Bauer, 2017-07-05 When the Hungarian composer Gyrgy Ligeti passed away in June 2006 he was widely feted as being one of the greatest composers of our time His complete published works were recorded during his lifetime and his music continues to inspire a steady stream of performances and scholarship Ligeti's Laments provides a critical analysis of the composer's works considering both the compositions themselves and the larger cultural implications of their reception Bauer both synthesizes and challenges the prevailing narratives surrounding the composer's long career and uses the theme of lament to inform a discussion of specific musical topics including descending melodic motives passacaglia and the influence of folk music But Ligeti laments in a larger sense his music fuses rigour and sensuality tradition and the new and influences from disparate high and low cultures with a certain critical and ironic distance reflected in his spoken commentary as well as in the substance of his music The notions of nostalgia exoticism and the absolute are used to relate works of different eras and genres along with associated concepts of allegory melancholy contemporary subjectivity and the voice *The Struggle for the Eurasian Borderlands* Alfred J. Rieber, 2014-03-20 A major new account of the Eurasian borderlands as shatter zones which have generated some of the world's most significant conflicts The Wrath of Nations: Civilizations and the Furies of Nationalism William Pfaff, 1994-11-10 In this refreshing antidote to the swell of books about the end of modernity Ivan

Sanders Commonwealth William Pfaff writes an enthralling narrative of the fall of empires and the rise of nations and with them of modern nationalism the most important of all political forces as we enter the next century Rooted in the human need for secure place communal loyalty and individual identification nationalism has both created nations and ruined them It paved the way for Nazism but eventually destroyed it It brought down the European colonial empires but has left Africa confronting anarchy and much of Asia dominated by ambitious and authoritarian new nations It forced Soviet armies out of Afghanistan and Eastern Europe and eventually led to the downfall of Communism Writing with both urgency and sobriety William Pfaff shows that without understanding this ineradicable factor in our political life we cannot reckon with the realities that may await us **Central and East European Politics** Sharon L. Wolchik, Jane Leftwich Curry, 2018-03-29

Now in a fully updated edition this essential text explores the other half of Europe the new and future members of the EU along with the problems and potential they bring to the region and to the world stage Clear and comprehensive it offers an

authoritative analysis of Central and Eastern Europe the Baltics and Ukraine      *The Economics of Secession* NA  
 NA,2016-04-30      Of Walls and Bridges Bennett Kovrig,1991-06 In this ambitious work Bennett Kovrig lucidly traces the economic political and ideological developments that have characterized U S relations with Eastern Europe since World War II Kovrig provides a refreshingly objective examination of the complex evolution of events that led to the end of the cold war His account of the days prior to America's global confrontation with the U S S R when U S interests in Eastern Europe were minimal of the economic and psychological warfare of the cold war and of the growing diversity of Eastern European nations that contributed to the upheavals of 1989 offers a rich and comprehensive background to the current scenario      **Ethnic Politics in Eastern Europe: A Guide to Nationality Policies, Organizations and Parties** Janusz Bugajski,2016-09-16 This guide charts national histories and policies relevant statistics and chronologies and the identities programmes and activities of the full spectrum of ethnically based parties and organizations in Central and Eastern Europe      **Stalin's Legacy in Romania** Stefano Bottoni,2018-05-29 This study explores the little known history of the Hungarian Autonomous Region HAR a Soviet style territorial autonomy that was granted in Romania on Stalin's personal advice to the Hungarian Szekely community in the summer of 1952 Since 1945 a complex mechanism of ethnic balance and power sharing helped the Romanian Communist Party RCP to strengthen with Soviet assistance its political legitimacy among different national and social groups The communist national policy followed an integrative approach toward most minority communities with the relevant exception of Germans who were declared collectively responsible for the German occupation and were denied political and even civil rights until 1948 The Hungarians of Transylvania were provided with full civil political cultural and linguistic rights to encourage political integration The ideological premises of the Hungarian Autonomous Region followed the Bolshevik pattern of territorial autonomy elaborated by Lenin and Stalin in the early 1920s The Hungarians of Szekely Land would become a titular nationality provided with extensive cultural rights Yet on the other hand the Romanian central power used the region as an instrument of political and social integration for the Hungarian minority into the communist state The management of ethnic conflicts increased the ability of the PCR to control the territory and at the same time provided the ruling party with a useful precedent for the far larger nationalization of the Romanian communist regime which starting from the late 1950s resulted in ethnicized communism an aim achieved without making use of pre war nationalist discourse After the Hungarian revolution of 1956 repression affected a great number of Hungarian individuals accused of nationalism and irredentism In 1960 the HAR also suffered territorial reshaping its Hungarian born political leadership being replaced by ethnic Romanian cadres The decisive shift from a class dictatorship toward an ethnicized totalitarian regime was the product of the Gheorghiu Dej era and as such it represented the logical outcome of a long standing ideological fouling of Romanian communism and more traditional state building ideologies      *Screen Memories* Catherine Portuges,1993 excellent Slavic Review displays a depth of scholarship and breadth of research which in the main is distilled into a

fascinating read At last M sz ros is getting the attention she deserves Sight and Sound Drawing on personal reminiscences interviews with Meszaros and critiques of individual films Portuges delineates in detailed and convincing fashion the cultural contradictions surrounding Meszaros and her art Signs This book provides engaging insight to works by one of Hungary s best contemporary filmmakers M rta M sz ros Canadian Slavonic Papers A fascinating exploration of the culture of post Stalinist Eastern Europe through a detailed study of the achievements of its foremost woman director and revealing interviews with the filmmaker and her collaborators M rta M sz ros s visual representations of youth sexual difference and class conflict challenged official socialist versions of gender family relations and workers lives Her films include documentaries and features and the recently completed Diary of My Father and Mother

**Nationalist Politics and Everyday Ethnicity in a Transylvanian Town** Rogers Brubaker, Margit Feischmidt, Jon Fox, Liana Grancea, 2018-06-05 Situated on the geographic margins of two nations yet imagined as central to each Transylvania has long been a site of nationalist struggles Since the fall of communism these struggles have been particularly intense in Cluj Transylvania s cultural and political center Yet heated nationalist rhetoric has evoked only muted popular response The citizens of Cluj the Romanian speaking majority and the Hungarian speaking minority have been largely indifferent to the nationalist claims made in their names Based on seven years of field research this book examines not only the sharply polarized fields of nationalist politics in Cluj Transylvania and the wider region but also the more fluid terrain on which ethnicity and nationhood are experienced enacted and understood in everyday life In doing so the book addresses fundamental questions about ethnicity where it is when it matters and how it works Bridging conventional divisions of academic labor Rogers Brubaker and his collaborators employ perspectives seldom found together historical and ethnographic institutional and interactional political and experiential Further developing the argument of Brubaker s groundbreaking Ethnicity without Groups the book demonstrates that it is ultimately in and through everyday experience as much as in political contestation or cultural articulation that ethnicity and nationhood are produced and reproduced as basic categories of social and political life

Human Rights and Political Dissent in Central Europe Jakub Tyszkiewicz, 2021-12-06 This volume examines to what extent the positive atmosphere created by the Helsinki Accords contributed to the change in political circumstances seen in the countries of Central Europe under Soviet domination It focuses in particular on firstly a consequent new impetus to bolster human rights in international politics as Western democracies especially the US integrated human rights concerns into its foreign policy relations with Soviet Bloc countries and secondly how this Western embrace of human rights seemed to create new incentives for increased dissident activity in Central and Eastern Europe and from 1976 onward Finally the book reminds us of the significant role of the Helsinki Accords in developing democratic practices in Eastern European societies under Soviet domination in 1975 1989 and in creating the conditions for the peaceful transition to democratic government in the years that followed This book will be of key interest to scholars and students of the history of communism post Soviet
