McCullough, 2025-04-14 Jacob Boehme 1574 1624 was a wildly creative mystical writer whose extraordinary revelations of God the soul and the universe have been consigned to obscurity In this original book Glenn J McCullough argues that Boehme is the ultimate source of a key modern movement psychotherapy Bringing clarity to Boehme s revelations McCullough shows how he anticipates the pioneering concepts of Sigmund Freud and C G Jung including their ideas of the unconscious mind and its remarkable potentials At the centre of Boehme s thought is the figure of Sophia divine Wisdom and her seven drives which guide the soul on a journey of

expanded awareness and rebirth While Boehme has been dismissed as an esoteric outsider McCullough situates him in the mainstream Western tradition of Augustine and Luther while highlighting his unique approach to the ecstatic dream world of Wisdom

Jacob Boehme, His Life and Teaching, Or, Studies in Theosophy Hans Martensen, 1885 **A Critique of Some Philosophical Aspects of the Mysticism of Jacob Boehme** George Mervin Alleman, 1932 *Le ministère de l'homme-esprit. John Pye Smith, 1861 **First Lines of Christian Theology** John Pye Smith, William Farrer, 1854 Philosophy of the Unconscious Eduard Von Hartmann, 2014-06-23 This is Volume VII of eight in a series on the Philosophy of Mind and Language Originally published in 1931 this book presents Speculative Results according to the Inductive Method of Physical Science Interest in Hartmann's conception of the Unconscious until the beginning of the present century was primarily metaphysical his treatise was merely the first and most significant of the thirty volumes which set forth his system

Philosophy of the Unconscious Eduard von Hartmann, 1884 Philosophy of the Unconscious: Metaphysics of the unconscious Eduard von Hartmann, 1893 V 1 The class of books to which the Philosophy of the Unconscious belongs is all but unrepresented in our literature but the absence of similar home productions can no longer be held to imply either an inability to comprehend their scope or an indifference to their results To what shall we attribute the welcome accorded of late to certain reproductions and elucidations of the master works of modern Transcendentalism if not to the awakening of a long repressed desire to re-examine the foundations of a spiritual fabric for whose stability an instinctive confidence alone made answer To many two attitudes of mind have become insupportable that of total unconcern about fundamental truth and that of unthinking acquiescence in the admission of merely juxtaposed and uncommunicating spheres of positive knowledge and impenetrable nescience PsycINFO Database Record c 2011 APA all rights reserved The Life and Mission of Emanuel Swedenborg Benjamin Worcester, 1883 The Secret Doctrine Helena Petrovna Blavatsky, 1993-01-01 A fountain of esoteric knowledge for deep truth seekers this classic work examines the birth and structure of the universe and how everything has the Divine as its source It also traces the development of humanity drawing from sacred scriptures mythology and legends to give a spiritual view of human beings Volume III is an index to help readers find any topic easily Illustrations **From Modernity to Cosmodernity** Basarab Nicolescu, 2014-01-01 Offers a new paradigm of reality based on the interaction between science culture spirituality religion and society The quantum biological and information revolutions of the twentieth and twenty first centuries should have thoroughly changed our view of reality yet the old viewpoint based on classical science

remains dominant reinforcing a notion of a rational mechanistic world that allows for endless progress In practice this view has promoted much violence among humans Basarab Nicolescu heralds a new era cosmodernity founded on a contemporary vision of the interaction between science culture spirituality religion and society Here reality is plastic and its people are active participants in the cosmos and the world is simultaneously knowable and unknowable Ultimately every human recognizes his or her face in the face of every other human being independent of his or her particular religious or philosophical beliefs Nicolescu notes a new spirituality free of dogmas and looks at quantum physics literature theater and art to reveal the emergence of a newer cosmodern consciousness

The God Within Emil Fackenheim, 1996-12-15 For nineteenth century thinkers the central problem of religious consciousness in the modern West was the tension between prevailing concepts of individual autonomy and the traditional Judaeo Christian claim for divine revelation The God Within brings together ten of Professor Emil Fackenheim s essays on the German Idealists who struggled to resolve this tension This philosophic preoccupation found its most searching and comprehensive expression when the traditional notion of God as Transcendent was reconceptualized as the God within The internalization of God s otherness reached its climax with Hegel the subject of Fackenheim s earlier work The Religious Dimension in Hegel s Thought This long awaited companion to that volume examines the earlier stages of the process beginning with its initiator Kant then considering Schelling in both his earlier and later phases and finally looking once more at Hegel The investigation of this movement together with the related themes of history and the literary arts leads to reflection on the significance of taking historicity seriously Included is the classic much cited article Metaphysics and Historicity which connects the philosophy of German Idealists to twentieth century questions of historicity and existential thought in particular The previously unpublished essay Schelling in 1800 1801 Art as Revelation provides an overview of philosophical history from Kant through Fichte and Schleiermacher to the later Schelling All the essays gathered here are concerned with the radical singularity of history and existence on the one hand and the demands of philosophical truth on the other They are informed by Professor Fackenheim s engagement with the profound philosophical challenges of our day particularly his efforts as a Jewish theologian to confront the horrors of the Holocaust We see through Fackenheim s exposition how these thinkers sought to come to terms with the presence of radical evil a problem whose modern relevance is explored in this volume s epilogue the 1988 essay Holocaust and Weltanschauung Philosophical Reflections on Why They Did It
