Debating European Citizenship Rainer Bauböck, 2018-09-12 This open access book raises crucial questions about the citizenship of the European Union Is it a new citizenship beyond the nation state although it is derived from Member State nationality Who should get it What rights and duties does it entail Should EU citizens living in other Member States be able to vote there in national elections If there are tensions between free movement and social rights which should take priority And should the European Court of Justice determine what European citizenship is about or the legislative institutions of the EU or national parliaments This book collects a wide range of answers to these questions from legal scholars political scientists and political practitioners It is structured as a series of three conversations in which authors respond to each other This exchange of arguments provides unique depth to the debate

**The Crisis of the European Union** Andreas Grimm, 2017-07-20 The European integration project currently faces profound political economic legal and societal challenges These challenges seem increasingly to overburden the European Union as well as the cohesion among the Member States and therefore pose a serious threat to the integration project The EU faces a major task in coping with this situation and it is one that calls for new approaches and ideas This book addresses the major challenges confronting the EU analyses the consequences for the integration project and

develops fresh perspectives on the EU's future prospects for coping with the most debated current and upcoming issues such as the rise of Euroscepticism or the contested idea of an ever closer union. Renowned experts in European Studies from the fields of political science, law, economics and sociology provide an interdisciplinary perspective on the different dimensions of the EU's crisis-laden situation and question whether the EU's existing problem-solving mechanisms and methods are sufficient to address the imminent tasks. This text will be of key interest to scholars and students of EU Politics, European Politics, European Governance and more broadly European law, history and the wider social sciences.

**Supranational citizenship** Lynn Dobson, 2013-01-18 Can we conceptualise a kind of citizenship that need not be of a nation state but might be of a variety of political frameworks? Bringing together political theory with debates about European integration, international relations and the changing nature of citizenship, this book available at last in paperback offers a coherent and innovative theorisation of a citizenship independent of any specific form of political organisation. It relates that conception of citizenship to topical issues of the European Union, democracy and legitimate authority, non-national political community and the nature of the supranational constitution. The author argues that citizenship should no longer be seen as a status of privileged membership but instead as an institutional role enabling individuals' capacities to shape the context of their lives and promote the freedom and well-being of others. In doing so, she draws on and develops ideas found in the work of the philosopher Alan Gewirth.

*Constitutional Paradigms and the Stability of States* Noel Cox, 2016-05-23 This book examines the influence of constitutional legal paradigms upon the political stability and viability of states. It contributes to the literature in the field by focussing on how constitutional flexibility may have led to the rise of successful states and to the decline of unsuccessful states by promoting stability. Divided into two parts, the book considers theories of the rise and fall of civilizations and individual states, explains the concept of hard and soft constitutions and applies this concept to different types of state models. A series of international case studies in the second part of the book identifies the key dynamics in legal, political and economic history and includes the UK, US, New Zealand and Eastern Europe.

**Building Regions** Luk Van Langenhove, 2016-04-08 Regions: How they emerge and how they are dramatically changing the appearance of the present world of states and its related forms of governance from local to global levels is analysed in this monograph. But what are regions? Regions can be small or huge. They can be part of a single state, be composed out of different states or stretched out across borders. They can be important, recognized economic, social or cultural entities or they can be largely ignored by the people who live on a region's territory. They can be well defined with clear-cut boundaries as is the case in so-called constitutional regions or they can be fuzzy as for instance in cross-border regions. In sum, they are not a natural kind and defining regions is not a simple task. Luk Van Langenhove advances the concept of region building as an alternative to the construction of regions, with three issues of region building being explored: Why are regions built in a world of states? How do region building processes take place? How are regions transforming the present world order? Crossing disciplinary boundaries

this book is an exercise in theorizing regions and brings together under one conceptual framework different processes and concepts such as regional integration devolution federalism and separatism and refines the social constructionist view on regions

**Rethinking Democracy and the European Union** Erik Oddvar Eriksen, John Erik Fossum, 2013-06-17 While the Lisbon treaty was meant to clarify the European Union's role and political identity it remains a challenge for politicians and decision makers to define Rethinking Democracy and the European Union looks at both the concept of the EU as a political system and analyses the meaning and status of democracy in Europe today This book draws upon leading scholars and practitioners from the RECON project Reconstituting Democracy in Europe to frame and analyse a range of institutional realms and policy fields including constitutionalisation representative developments gender politics civil society and public sphere identity and security and globalisation Drawing together these strands the book questions whether EU politics require a new theory of democracy and evaluates the relationship between union and state and the possible future of post national democracy Lucid and accessible this book is at the forefront of the intellectual debate over the character of the EU presenting research theory and analysis on a critical political issue of our time Rethinking Democracy and the European Union will be of interest to students and scholars of democracy European Union politics and international relations

**Strategy-Making in the EU** Pol Morillas, 2018-09-15 This book provides a detailed analysis of the policy making processes of EU strategies in foreign and security policy and external action It uses the European Security Strategy and the EU Global Strategy to assess their policy making dynamics both before and after the Lisbon Treaty Inter institutional relations in strategy making are put into the context of current debates in European integration questioning the assumption that the EU is a body increasingly ruled by intergovernmentalism as reflected by the new intergovernmentalism literature The book also provides a categorisation of EU strategies and considers them as policy inspiration documents acting as frameworks for policy making This reading of strategies lies behind the analysis of the policy making processes of the ESS and the EUGS unpacked into four phases agenda setting policy formulation policy output and implementation By looking at the shifting policy making dynamics from foreign and security policy to external action the author sheds light on the current shape of EU integration

Economic Governance in Europe Federico Fabbrini, 2016 Offering a comparative examination of the constitutional implications of the Euro crisis on vertical and horizontal relations of power in the EU this book proposes new ways in which to perfect the governance of Economic and Monetary Union

**EU Federalism and Constitutionalism** Andrew Glencross, Alexander H. Trechsel, 2010-10-21 EU Federalism and Constitutionalism The Legacy of Altiero Spinelli edited by Andrew Glencross and Alexander H Trechsel represents the first book length study of the travails of the

implementation of federalism at the European level from the perspective of Altiero Spinelli's ideas and his political life which were both devoted to a federally united Europe. It is also a timely publication given the protracted struggle to implement a new EU institutional architecture: the 2009 Lisbon Treaty that is already being tested by the fallout from the global financial crisis. This fallout has brought into stark relief the tensions within the EU over the question of enhancing solidarity and federal unity or remaining a looser association of sovereign states. Hence, by examining the successes and failures of federalism within the EU system, the book seeks to explain not only how the EU has reached its current impasse but also how it may fare in the future. To achieve this objective, the book takes an interdisciplinary approach that covers all three dimensions of the European project: historical, legal, and political. In this fashion, Andrew Glencross and Alexander H. Trechsel's **EU Federalism and Constitutionalism: The Legacy of Altiero Spinelli** offers a comprehensive and up-to-date analysis of the history, evolution, and future of federal principles and institutions in the European integration process. **Morgenthau**

William E. Scheuerman, 2013-04-30. The ideas of Hans Morgenthau dominated the study of international politics in the United States for many decades. He was the leading representative of Realist international relations theory in the last century, and his work remains hugely influential in the field. In this engaging and accessible new study of his work, William E. Scheuerman provides a comprehensive and illuminating introduction to Morgenthau's ideas and assesses their significance for political theory and international politics. Scheuerman shows Morgenthau to be an uneasy Realist, uncomfortable with conventional notions of Realism and sometimes unsure whether his reflections should be grouped under its rubric. He was a powerful critic of the existing state system and defended the idea of a world state. By highlighting Morgenthau's engagement with the leading lights of European political and legal theory, Scheuerman argues that he developed a morally demanding political ethics and an astute diagnosis of the unprecedented perils posed by nuclear weaponry. Believing that the irrationalities of US foreign policy were rooted partly in domestic factors, he sympathized with demands for radical political and social change. Scheuerman illustrates that Morgenthau's thinking has been widely misunderstood by both disciples and critics and that it offers many challenges to contemporary Realists who discount his normative aspirations. With the advent of the cosmopolitan goal of international reform, Morgenthau's work serves up an unsettling mix of sympathy and hard-headed skepticism, which remains crucially important in the development of the field. Lucidly and persuasively written, this book will be a valuable resource for students and scholars seeking to understand the continued importance of Morgenthau's thinking. **The**

**Struggle for EU Legitimacy** Claudia Sternberg, 2013-08-08. This award-winning book answers some of the big questions on the legitimacy of the European Union. Specifically, it looks at what it would mean for the EU to be considered a legitimate body and where our ideas on this question come from. *The Struggle for EU Legitimacy* traces the history of constructions and contestations of the EU's legitimacy in discourses of the European institutions and in public debate. Through an interpretive, non-quantitative textual analysis of an eclectic range of sources, it examines both long-term patterns in EU official discourses

and their reception in member state public spheres specifically in the German and French debates on the Maastricht and Constitutional Draft Treaties The story told portrays the history of legitimating the EU as a continuous contest over the ends and goals of integration as well as a balancing act which was inescapable given the nature of the integration project between bringing the people in and keeping them out In addition it was a balancing act between actively politicizing and deliberately de politicizing the stakes of EU politics

*Multilateralism in the 21st Century* Caroline Bouchard, John Peterson, Nathalie Tocci, 2013-08-15 This volume focuses on multilateralism in the 21st century and examines how and how effectively the EU delivers on its commitment to effective multilateralism Presenting results generated by MERCURY an EU research programme into multilateralism this book addresses a central research question does the EU deliver on its commitment to effective multilateralism Globalisation has created powerful new incentives for states to cooperate and has generated renewed interest in multilateralism While a large body of work exists on multilateralism as a concept it continues to be ill defined and poorly understood This book sheds new light on 21st century multilateralism by exploring conceptual approaches as well as generating innovative empirical knowledge on its practice Research on EU external relations has increasingly focused on the concept of effective multilateralism Yet the application of this concept as a guiding principle of EU foreign policy in non security policy areas has rarely been examined This book explores whether the EU is pursuing effective multilateralism in specific policy areas including trade climate change and conflict resolution and distinct geographical and institutional settings both internal to the EU and in specified regions international organisations IOs and bilateral partnerships This book offers evidence based actionable policy lessons from Europe s experience in promoting multilateralism The European Union and Multilateralism in the 21st Century will be of interest to students and scholars of international relations international organizations and European Union politics and foreign policy
