Thomas N. Finger

The Idea Of Revelation In Recent Thought:

The Idea of Revelation in Recent Thought John Baillie, 1956 Nothing is more central to Christian thought or has been from the beginning than the belief that God has revealed Himself His mind and His will to man The ideal of revelation continues to present its challenge in men s lives and the great philosophers no less than the community of believers have wrestled with it Dr John Baillie reminds us that the question has not always been thought difficult that throughout the greater part of Christian history any intelligent schoolboy could have stated the meaning of revelation in terms not contradictory to the formulation of it by St Thomas Aquinas The value of this small book can hardly be exaggerated While Dr Baillie carefully compares and summarizes the positions of modern theologians his main concern is with the impact of revelation in men s lives The wisdom the sincerity and objectivity with which he approaches his subject make this a truly distinguished contribution to the theological literature addressed to a general reader

Systematic Theology, Volume 1, Fourth Edition James Leo Garrett, 2014-09-14 Rivals the major systematic theologies of this century Baptist History and Heritage Journal July 1996 One of the characteristics of Garrett s system that needs especially to be noted is its balanced judicious and nearly invariably objective presentation of materials While holding true to the teachings of his own Baptist faith Garrett so carefully and judiciously presents alternatives that teachers and students from other confessional and denominational positions will find his work instructive Consensus 1997 If one is searching for an extensive exposition of the biblical foundations and historical developments of the various loci of systematic theology there is no more complete presentation in a relatively short work than this Pastors will especially find this feature to be a real help in teaching theology It is an indispensable contribution to the task of systematic theology Journal of the Evangelical Theological Society September 1999 Many students and pastors will find all they need here and will in addition be helped to relate their knowledge to recent developments in the theological world The Churchman A Journal of Anglican Theology 1991 A gold mine of helpful material The Christian Century May 29 June 5 1991 No book that I know is more loaded with biblical and theological facts than this one The prodigious research that must have gone into the preparation of this volume is truly mind boggling Faith and Mission Fall 1991 Garrett has provided a massive and scholarly systematic theology from a thoroughly conservative and comprehensive viewpoint The work is well documented in both biblical and historical scholarship and will prove to be a classic William Hendrickson Southern Baptist Theological Seminary One of the most comprehensive concise books of its type available it should receive wide use in the classroom and in the study Robert H Culpepper Southern Baptist Theological Seminary

A Critical Study on T. F. Torrance's Theology of Incarnation Man Kei Ho, 2008 This book analyses T F Torrance s theology of incarnation His theology is built upon several crucial presuppositions This book examines these presuppositions and their role within the framework of Torrance s theology It explores its unitary structure by analyzing his fundamental methods in hermeneutics dialectics natural theology and natural science In particular the study

addresses the internal incoherence inconsistency and seemingly paradoxical nature of his writings such as the integration of dualistic ideas into a unitary theological structure and highlights the impact of Barthian theology on his theological formulation

Christian Theology, Volume One Thomas N. Finger, 2020-03-09 Thomas N Finger has chosen an approach to the systematic presentation of Christian Theology which I also have taken since the publication of my *Theology of Hope* in 1964 He begins with the goal with eschatology With that goal in mind a new light is cast on every single doctrine of Christian theology the light of redemption and the work of the theologian becomes a labor of hope This is a theology of the way With the kingdom of God kept steadily in view it becomes an invitation to walk the way of Jesus Tom Finger s theological prospectus makes a brilliant contribution to ecumenical theological dialogue from the Anabaptist tradition He offers an eschatologically oriented theology for which I can only congratulate him Jurgen Moltmann Professor of Theology University of Tübingen While many systematic theological texts are shaped by academic discussion of ancient thought and or modern philosophies Finger centers on the kerygma of the biblical text that the last things or eschatological events expected at history s climax had already occurred through Jesus life death and resurrection though they were not yet fully realized To present eschatology as a living hope that always has motivated and still motivates Christians and Christian communities in all things Finger does not follow the discipline s traditional order where eschatology appears last but places it first Volume II will culminate with the doctrine of God which usually comes first This is hardly to minimize God s importance but to maximize it as the Christian faith s most profound mystery Volume I begins with eschatology to present it as a dynamic boundless atmosphere in which theological reflection unfolds While this dynamism envelops Christian life and mission it is not merely subjective It is hope for the transformation of all creation It is not only celebrative for it also struggles against the gruesome evils that seek to dominate all things From this vantage point eschatology in Volume I seeks to articulate the significance of the resurrection the last judgment heaven and hell the return of Christ and the millenium s coming These reflections lead to revelation beginning from the final revelation of Jesus Christ 1 Peter 1 3 13 Revelation s dimensions are treated as personal as historical extending forwards from Genesis and as propositional or its way of conveying its contents These point theological reflection to revelation s center Jesus Christ chiefly to his saving work in his life death and resurrection Here the strengths and weaknesses of the traditional substitutionary and moral influence theories are examined But when placed within their revelational or historical sequence Jesus conflict with the powers of evil stands out These prove to be gigantic systemic forces which have always ordered but also imprisoned humankind such as the Roman Empire Yet their horror and power stretch beyond any social or psychological explanation In Jesus life and death these powers appear to conquer him But through his resurrection Jesus conquers them This drama is best articulated by the Christus Victor approach in which Jesus with his Father and Spirit defeats these powers but does not totally destroy them This is why their eschatological reign is already present but evil is not yet destroyed until the end

Scripture, Metaphysics, and Poetry

Robert MacSwain, 2016-04-01 This book offers a critical edition of arguably the greatest work of English theology in the 20th century Austin Farrer's Bampton Lectures published as *The Glass of Vision* in 1948 Farrer was an interdisciplinary genius who made original contributions to philosophy theology and biblical studies as well as to our understanding of the role of imagination in human thought and Christian doctrine According to Farrer the three primary themes of these lectures are scripture metaphysics and poetry individually and in relation to each other The lectures defend his famous theory of divine revelation through images rather than propositions or events a provocative account of the place of metaphysical reasoning in theology and a literary approach to the Biblical text that was decades ahead of its time and is still controversial *The Glass of Vision* has generated a rich and interesting interdisciplinary conversation that has lasted for decades starting with commentators such as Helen Gardner and Frank Kermode In addition to Farrer's full text this critical edition also contains an introduction to the significance and context of Farrer's thought and a selection of thirty years worth of commentary by leading British and European theologians and literary scholars David Brown Ingolf Dalferth Hans Haug Douglas Hedley David Jasper and Gerard Loughlin Of interest to literary and biblical scholars theologians and philosophers this book holds particular value for those exploring the nature of imagination in contemporary thought and scholarship *The Faith of the Christian Church* Tyron Inbody, 2005-04-14 Tyron Inbody has taught the basics of Christian theology for more than twenty five years Having seen over the years what issues and questions his students bring to class he now offers this engaging accessible introduction to all the major beliefs of the Christian faith Meant especially but not exclusively for readers new to theology Inbody's *Faith of the Christian Church* covers twelve traditional areas of Christian teaching theology revelation faith God creation suffering and evil humankind Jesus Christ salvation church sacraments and the end times Inbody also dives into provocative topics not usually treated in introductory texts creationism the devil miracles the virgin birth and more The book's broad ranging perspective which intentionally defies labels commends it to individuals and small groups from many church traditions Quote boxes and illustrations drawn from popular culture make the text visually interesting and enjoyable to read Inbody does not hide his own stance on issues but presents a full range of interpretations and openly points readers to other possibilities they can pursue *The Faith of the Christian Church* offers just enough questions to provoke reflection and just enough answers to encourage readers to form their own grasp on the Christian faith *The Christian Story* Gabriel Fackre, 1987 This is a print on demand book and is therefore non returnable As a pastoral systematic *The Christian Story* rises from and strives to be a resource to the life and witness of the church and its leadership The first volume revised edition 1984 offered an introductory overview of the basic Christian doctrine Now turning his attention to the individual doctrines Gabriel Fackre here surveys a spectrum of views on authority from inerrantist to experientialist and sets forth an alternative perspective along ecumenical and narrative lines The author's search for a full orb'd position affirms Scripture as the source the church and its traditions as resource the world of human experience as setting the Gospel as substance and Christ as the

center of authority A detailed analysis of hermeneutical issues is included in the book *The quest for evangelical catholicity* leads to a restatement of the fourfold method of scriptural interpretation common sense critical scholarship canonical perspective and the contextualization process personal and social An extensive exegesis of a key Christological text John 14 6 illustrates how this method works *Introduction to Christianity* Paul Hessel, 2020-12-17 Originally published in 1958 *Introduction to Christianity* considers the nature of Christianity as a life shared in an historical continuing community Divided into five parts the book is a comprehensive interpretation of Christianity as a people created by God's activity in history with a focus on the proclamation of the Gospel It highlights and examines the relevance of Christian doctrine to reflections on the meaning of life and considers the significance of this at a time in which attitudes towards religion are increasingly ambiguous *Introduction to Christianity* is ideal for those with an interest in the history of Christianity Christian theology and religious philosophy *What Is Truth?* James Emery White, 2006-09-01 SEARCHING FOR ABSOLUTES IN A POSTMODERN WORLD In this postmodern age truth especially religious or moral truth is widely criticized and constantly challenged yet perhaps more important than ever It was this realization that led James Emery White to examine the concepts of truth as held by five twentieth century theologians Cornelius Van Til Millard J Erickson Francis A Schaeffer Donald G Bloesch Carl F H Henry **The Oxford Handbook of Philosophical Theology** Thomas P. Flint, Michael Rea, 2011-03-17 Philosophical theology is aimed primarily at theoretical understanding of the nature and attributes of God and of God's relationship to the world and its inhabitants During the twentieth century much of the philosophical community both in the Anglo American analytic tradition and in Continental circles had grave doubts about our ability to attain any such understanding In recent years the analytic tradition in particular has moved beyond the biases that placed obstacles in the way of the pursuing questions located on the interface of philosophy and religion The result has been a rebirth of serious widely discussed work in philosophical theology The Oxford Handbook of Philosophical Theology attempts both to familiarize readers with the directions in which this scholarship has gone and to pursue the discussion into hitherto under examined areas Written by some of the leading scholars in the field the essays in the Handbook are grouped in five sections In the first Theological Prolegomena articles focus on the authority of scripture and tradition on the nature and mechanisms of divine revelation on the relation between religion and science and on theology and mystery The next section Divine Attributes focuses on philosophical problems connected with the central divine attributes aseity omnipotence omniscience and the like In Section Three God and Creation essays explore theories of divine action and divine providence questions about petitionary prayer problems about divine authority and God's relationship to morality and moral standards and various formulations of and responses to the problem of evil The fourth section Topics in Christian Philosophy examines philosophical problems that arise in connection with such central Christian doctrines as the trinity the incarnation the atonement original sin resurrection and the Eucharist Finally Section Five Non Christian Philosophical Theology introduces readers to work that is being done in

Jewish Islamic and Chinese philosophical theology *Engaging the Written Word of God* James Innell Packer, 2012 In this collection of articles written over forty years Packer sets out his beliefs about the authority of Scripture and the principles that should be applied when interpreting it Important topics such as the adequacy of human language upholding the unity of Scripture and challenges in Biblical interpretation are considered in the first two sections Gods Inerrant Word and Interpreting the Word In the final section Preaching the Word Packer turns his attention to pastoral leaders and the importance of correct and responsible expository preaching

Fichte, German Idealism, and Early Romanticism Daniel Breazeale, Tom Rockmore, 2010 This volume of 23 previously unpublished essays explores the relationship between the philosophy of J G Fichte and that of other leading thinkers associated with German Idealism and the early Romantic movement Several papers explore the broader question of Fichte s relationship and contribution to German idealism and German romanticism in general while others offer comparative studies of the relationship between Fichte s writings and those of Leibniz Kant Schelling Hegel Friedrich Schlegel Novalis Schleiermacher and Wilhelm von Humboldt Taken collectively this set of essays provides anglophone readers with a new and historically accurate understanding of the origin development and reception of Fichte s philosophy in the context of its own era and in relationship to the most important intellectual movements of the time The authors include both well established and internationally recognized experts in their fields as well as younger scholars with fresh and challenging perspectives to offer This volume proposes a new interpretation of the history of German idealism in general and of the place therein of Fichte s Wissenschaftslehre It emphasizes the intimate connection between transcendental idealism and German romanticism and shows how developments within each of these intellectual movements reflected and in turn influenced developments within the other Finally it sheds new light on Fichte s own philosophical development and does so by relating the various stages of his writings to other contemporary movements and authors

The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries

Approaching the World's Religions, Volume 1 Robert Boyd, 2017-05-04 Philosophically Thinking about World Religions is different from other works in the discipline today It deviates from the typical approaches used for the study of world religions Its goal is to engage readers in thinking hard about world religions not about the data surrounding those traditions By focusing on philosophical questions each reader should be challenged to do their own investigations that may reveal the heart of these traditions

Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions Pluralism which is the predominate assumption today ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory By taking an open inclusivist approach all religious traditions may engage at the table of dialogue The final essay is about justice and social affairs While that discussion is couched within the context of a particular tradition each religious tradition must have the discussion But it must be more than an intrareligious dialogue it must become an interreligious dialogue *The Mosaic of Christian Belief* Roger E. Olson, 2016-04-01 In this second edition of Roger E Olson s classic work he thematically traces the contours of Christian belief down through the ages revealing a pattern of both unity and diversity He finds a consensus of teaching that is both unitive and able to incorporate a faithful diversity when not forced into the molds of false either or alternatives Introduction to Theology Owen C. Thomas, Ellen K. Wondra, 2002-07-01 An accessible primer to theology through the prospective of Anglicanism Organized around the topics of systematic theology Introduction to Theology begins with an exploration of Scripture then moves through history and tradition to contemporary debates and reconstructions As a textbook for introductory courses in seminaries of the Episcopal Church this book also includes references to The Book of Common Prayer which Anglicans consider a primary source for theology This edition pays detailed attention to the many developments in theology since its last revision the emergence of new perspectives such as womanist mujerista narrative and post modern theology the shift in theological methods to incorporate the human sciences recent critical philosophies and recent developments in the physical sciences the ongoing revisions of The Book of Common Prayer and resultant shifts in Anglican identity and the globalization of theological education specifically the focus on the Episcopal Church as part of the worldwide Anglican Communion

God Has Spoken J.I. Packer, 2016-06-16 J I Packer maintains that anyone who wants to know God will want to know as much as they can of what is in the Bible For through it God reveals himself and his purpose to us and in it we discover his fellowship and grace Packer presents the case for reliability of the Bible and urges us to return with open hearts to reading God s word and to discovering its overwhelming power in our lives This challenging sequel to *Knowing God* is a great resource for the Christian journey **Trinitarian Theology, West and East** Paul M. Collins, 2001 CURRENTLY BEING REWORKED BY AUTHOR This book represents a unique contribution to the dialogue between the traditions of Eastern and Western Christian thought Through the writings of Karl Barth and John Zizioulas Dr Collins seeks to set up an ecumenical dialogue concerning Trinitarian thought During the last decade the doctrine of the Trinity and the concept of koinonia have been much in evidence in ecumenical contexts In this volume Dr Collins sets out to look behind the growing ecumenical consensus to examine where the basis for the consensus has emerged from and suggests that it is possible to root it in Western thought as well as in Eastern Orthodoxy **Revisioning Evangelical Theology** Stanley J. Grenz, 1993-03-02

Stanley J Grenz evaluates the course of evangelical theology and sets out a bold agenda for a new century. He proposes that evangelical theology to remain vibrant and vital in the postmodern era should find its central integrative motifs in the reign of God and the community of Christ.

Christian Faith B. A. Gerrish, 2015-08-24

At the beginning of *Christian Faith*, B. A. Gerrish reminds us that dogmatics involves critical transmission of the Christian heritage. The dogmatic theologian must interpret and assess the traditional beliefs of the church while also considering the new and changing conditions in which that tradition is being embodied. With that, Gerrish goes on to outline the various presuppositions and affirmations of the Christian faith before ultimately offering a powerful and compelling restatement of Christian faith for the twenty-first century. As part of his framework, Gerrish includes a critical comparison of Calvin's *Institutes of the Christian Religion* and Schleiermacher's *Christian Faith* while still paying close attention to the great cloud of theological witnesses from across the spectrum of Christian traditions. Gerrish's book provides a robust and penetrating revisioning of Christian theology, one that is thoroughly grounded in the classical traditions of the church.
