The Image Game

Eric Freeman, Elisabeth Robson

The Image Game:

The Image Factory Donald Richie, 2003 Just as a person contrives a style the purpose of which is integration and the effect of which is presentation so a nation collectively projects an appearance a national style Such styles are made of many layers The deepest layer is composed of the immutable and the traditional Nearer the surface floats fashion changeable but sometimes more abiding And frothing on the surface is fad By definition a fad is novel and appears from outside Fads must have instant appeal and do not have a long shelf life In Japan an assortment of islands the outside is often the quality that defines the inside Japan has a history of chasing fads and fashion Since the 19th century foreign products have been welcomed in from the cult for squeaky shoes in the mid 19th century to the current fad for virtual reality girlfriends Japan's mandate was that having been opened late it had to hurry to catch up Fads provide both a social distraction and a sense of cohesion indicating not only foreign importation but also native adaptation The Image Factory is both an investigation into fads fashions and style such as US Army surplus uniforms pachinko mutating hair colors and an appreciation of their inherent meanings The Japanese have seized upon fads and fashion as an arm of enterprise to a much greater extent than elsewhere in the world Ephemerality has been put to work the transient has become industrialized and the results are highly conspicuous
