**The Impact of Personality Cult in North Korea** Chae-jin Sö, 2004      *Leader Symbols and Personality Cult in North Korea* Jae-Cheon Lim, 2015-03-24

The legitimacy of the North Korean state is based solely on the leaders personal legitimacy and is maintained by the indoctrination of people with leader symbols and the enactment of leadership cults in daily life. It can thus be dubbed a leader state. The frequency of leader symbols and the richness and scale of leader symbol making in North Korea are simply unrivalled. Furthermore, the personality cults of North Korean leaders are central to people's daily activity, critically affecting their minds and emotions. Both leader symbols and cult activities are profoundly entrenched in the institutions and daily life, and if separated and cancelled, the North Korean state would be transformed. This book analyses North Korea as a leader state, focusing on two elements: leader symbols and cult activities. It argues that these elements have been and continue to be the backbone of North Korea, shaping North Korean culture. To reveal the leader state character, the book specifically examines North Korea's leadership cults, its use of leader symbols in these cults, and the nature of the symbolism involved. How has the North Korean state developed the cult of the Kim Il Sung family? How does the state use leader symbols to perpetuate this cult? How has the state developed myths and rituals that sustain the cult in daily life? What leader images has state propaganda manufactured? How does the state's manipulation of leader symbols affect the symbolism that is assigned to the leader's actions? In answering these questions, this book sheds new light on the strength and resilience of the North Korean state and shows how it has been able to survive even the most difficult economic period of the mid 1990s. *Leader Symbols and Personality Cult in North Korea* will be essential reading for students and scholars of North Korea, Korean politics, Asian politics, political sociology, and visual politics.

*The Cleanest Race* B.R. Myers, 2011-02-01

Understanding North Korea through its propaganda: What do the North Koreans really believe? How do they see themselves and the world around them? Here B.R. Myers, a North Korea analyst and a contributing editor of *The Atlantic*, presents the first full-length study of the North Korean worldview. Drawing on extensive research into the regime's domestic propaganda, including films, romance novels, and other artifacts of the personality cult, Myers analyzes each of the country's official myths in turn, from the notion of Koreans' unique moral purity to the myth of an America quaking in terror of the Iron General. In a concise but groundbreaking historical section, Myers also traces the origins of this official culture back to the Japanese fascist thought in which North Korea's first ideologues were schooled. What emerges is a regime completely unlike the West's perception of it. This is neither a bastion of Stalinism nor a Confucian patriarchy, but a paranoid nationalist military first state on the far right of the ideological spectrum. Since popular support for the North Korean regime now derives almost exclusively from pride in North Korean military might, Pyongyang can neither be cajoled nor bullied into giving up its nuclear program. The implications for US foreign policy, which has hitherto treated North Korea as the last outpost of the Cold War, are as obvious as they are troubling. With North Korea now calling for a blood reckoning with the Yankee jackals, Myers's

unprecedented analysis could not be more timely      **"A Nation's Vibrant and Triumphant Incarnation in a Man"**
