This report provides Association of College and Research Libraries (ACRL) leaders and the academic community with a clear view of the current state of the literature on value of libraries within an institutional context, suggestions for immediate Next Steps in the demonstration of academic library value and a Research Agenda for articulating academic library value. The Law Librarian, 1998. Defending Professionalism Bill Crowley, 2012-05-15. This book provides overdue guidance for demonstrating and preserving library information knowledge and archival professionalism in American, British and Canadian communities and organizations. There is no longer any way to deny or to escape the responsibility of marketing services and being an advocate for one's profession. Practitioners also need effective arguments and approaches for combating library and information deprofessionalization. This book offers the antidote for ineptitude in the fight to preserve professionalism in all major library and information environments. Composed of 14 chapters written by contemporary practitioners and practitioners turned theorists, Defending Professionalism: A Resource for Librarians, Information Specialists, Knowledge Managers and Archivists clearly justifies the employment of the professional librarian, information specialist, knowledge manager and archivist. The contributors offer both short-term and long-term political, cultural and other approaches for the ongoing effort to retain and expand professionalism. The book provides managers, funding authorities, educators and practitioners with practical, political and theoretical reasons why it is in their self-interest to employ professionally educated personnel for positions within libraries, information or knowledge management centers and archives. Resources in Education, 1999. **Subject Guide to Books in Print**, 1997. **Resource Sharing Today** Corinne Nyquist, 2014-07-22. Budget constraints challenge collection development in unprecedented ways. Collection development has increasingly become a cooperative effort among libraries in geographic proximity. When their own library

doesn't have certain books or journals users turn to interlibrary loan to obtain the resources they need. However, many library science degree programs don't cover interlibrary loan. *Resource Sharing Today* is a practical guide to resource sharing starting with the library across town and ending with libraries on the other side of the globe. Chapters cover everything from the ALA's interlibrary loan form to successful innovations such as Virginia Tech's ILLiad to New York's IDS Information Delivery Service. Appendices include regional, state, national, and international ILL codes, ALA and IFLA forms, open access agreements, and purchase on demand plans. *Alchemical Libraries Almanack*, 1973 **The One-person Library**, 2005
