THE TWO FACTORS OF A COMMODITY USE VALUE AND VALUE THE SUBSTANCE OF VALUE AND THE MAGNITUDE OF VALUE THE wealth of those societies in which the capitalist mode of production prevails presents itself as an immense accumulation of commodities 10 its unit being a single commodity Our investigation must therefore begin with the analysis of a commodity A commodity is in the first place an object outside us a thing that by its properties satisfies human wants of some sort or another The nature of such wants whether for instance they spring from the stomach or from fancy makes no difference 11 Neither are we here concerned to know how the object satisfies these wants whether directly as means of subsistence or indirectly as means of production Every useful thing as iron paper 8c may be looked at from the two points of view of quality and quantity It is an assemblage of many properties and may therefore be of use in various ways To discover the various use of things is the work of history 12 So also is the establishment of socially recognised standards of measure for the quantities of these useful objects The diversity of these measures has its origin partly in the diverse nature of the objects to be measured partly in convention The utility of a thing makes it a use value 13 But this utility is not a thing of air Being limited by the physical properties of the commodity it has no existence apart from that commodity A commodity such as iron corn or a diamond is therefore so far as it is a material thing a use value something useful This property of a commodity is independent of the amount of labour required to appropriate its useful qualities When treating of use value we always assume to be dealing with definite quantities such as dozens of watches yards of linen or tons of iron The use values of commodities furnish the material for a special study that of the commercial knowledge of commodities 14 Use values become a reality only by use or consumption they also constitute the substance of all wealth whatever may be the social form of that wealth In the form of society we are about to consider they are in addition the material depositories of exchange value *Proceedings of the Society of Antiquaries of Scotland* Society of Antiquaries of Scotland, 1904 Includes List of members **Annual Report of the Superintendent of Public Instruction for the State of Minnesota for the Year Ending Sept. 30 ...** Minnesota. Department of Public Instruction, 1910 *The Working Children of Boston* Helen Laura Sumner, 1921
