Klinke, 2023-08-23 *Life Earth Colony* explores the ideas life and historical significance of German zoologist turned geographer Friedrich Ratzel 1844 1904 famous for developing the foundations of geopolitical thought Ratzel produced a remarkable body of work that revolutionized the study of space movement colonization and war He also served as a source of intellectual inspiration for national socialism particularly through his *Lebensraum* living space concept which understood all life as being caught in an eternal struggle for space This book closely analyzes this radical conservative intellectual focusing on his often overlooked ethnography biogeography travel and creative writing and colonial activism as well as his more widely known political geography *Life Earth Colony* finds that there is an as yet unexplored necropolitical impulse at the heart of Ratzel's entire oeuvre a preoccupation with death and dying which had a profound impact on twentieth century history **The Asian Mediterranean** François Gipouloux, 2011-01-01 This intensive monograph *The Asian Mediterranean* is a great synthesis of east west maritime worlds under an emerging global world Professor Gipouloux has combined historical studies on global maritime seas with regional economic studies on Asia He also integrates historical interaction between maritime seas and coastal port cities by creating the imaginative geo economic concept of the East Asian economic corridor running between Vladivostok and Singapore and locating China Japan and Southeast Asia into this maritime area To attain this goal Professor Gipouloux globalises China through north south east west and past present combinations using cross disciplinary approaches political economy geography and international relations under wide historical perspectives *The Asian Mediterranean* opens a new horizon to look into Asia from a global perspective and at the same time reminds us of the connection beyond contrast between East and West Takeshi Hamashita Tokyo University Japan and Sun Yat sen University Guangzhou China A fascinating analysis of the proposition that the start of the 21st century is witnessing the rapid rise in South East Asia of a new and powerful transnational economic zone the Asian Mediterranean It uses a wide range of historical and contemporary multidisciplinary sources to systematically explore how why and in what ways we can better interpret and understand this contemporary version of economic globalisation by looking back to the equivalent processes centred on the ports around the Mediterranean and the Baltic seas during the late 16th century Peter Daniels University of Birmingham UK François Gipouloux has written a vast and comprehensive history of the Asian economic system In the tradition of Braudel he paints a picture that is detailed full of insight and essentially very long term On the basis of an analysis of the old Mediterranean and Hanseatic economic networks he surveys the pre modern Asian system bringing it up to date with studies of Yokohama Hong Kong Singapore and other Asian hubs The culmination of many years work Gipouloux throws light on a new China a China no longer land based and inward looking but dependent on and a power in a maritime world Christopher Howe University of London UK Gipouloux's ground breaking study based on a long career as a scholar of Asia's past is a most original contribution to the study of globalization Connecting past and present the author has further developed the somewhat vague metaphor of an Asian Mediterranean into a well defined concept that can also be applied to

analyzing contemporary affairs While in the past the traditional Chinese and Japanese state systems were failing to formulate adequate answers on a more informal level the port cities were able to meet with the maritime challenges of the emerging modern world system The author convincingly shows how also in the age of globalization a string of coastal metropolises continues to be instrumental in opening up the Far Eastern economy to the global economy Leonard Blussé Leiden University The Netherlands This insightful book draws upon a wide range of disciplines political economy geography and international relations to examine how Asia has returned to its central position in the world economy As in the case of the hosting of the Olympic games it is cities rather than states which compete whether as financial centres logistical hubs or platforms for coordinating international subcontracting Analysing the historical precedents of the Mediterranean maritime republics the Baltic Sea Hanseatic League and the South China Sea mercantile kingdoms the book delineates the way stable economic and legal institutions were developed largely beyond the purview of and at times in conflict with the State Discussing the strong link between history and contemporary economic situation The Asian Mediterranean will appeal to academics includin

Indigenous Culture, Education and Globalization Jun Xing, Pak-sheung Ng, 2015-10-23 The book explores the growing tension between indigenous education the teaching and learning of native knowledge cultural heritage and traditions and the dynamics of globalization from the Asian perspective It brings together a distinguished and multidisciplinary group of Asian scholars and practitioners from Nepal Korea India Japan Thailand Indonesia the Philippines Hong Kong Taiwan mainland China and the United States After showcasing six in depth case studies of local cultural traditions from East South and Southeast Asia the book examines a variety of pedagogical strategies in the teaching and learning of indigenous knowledge and culture in the region reflecting both international trends and the distinctive local and regional characteristics resulting from the tremendous diversity within Asian societies Quarterly Review of Military Literature ,1981 **French Warships in the Age of Sail, 1626-1786** Rif Winfield, Stephen S Roberts, 2017-10-30 The first comprehensive listing of these ships in English Profusely illustrated and impressively informative Midwest Book Review The origins of a permanent French sailing navy can be traced to the work of Cardinal Richelieu in the 1620s but this naval force declined rapidly in the 1650s and a virtually new Marine Royale had to be re created by Colbert from 1661 Thereafter Louis XIV s navy grew rapidly to become the largest and most powerful in the world at the same time establishing a reputation for the quality of its ship design that lasted until the end of sail The eighteenth century was to see defeat and decline revival and victory but by 1786 the French Navy had emerged from its most successful naval war having frequently outfought or outmaneuvered the British Navy in battle and in the process making a major contribution to American independence This book provides significant technical and building data as well as highlights of the careers of each ship in every class For the first time it is possible to form a clear picture of the overall development of French warships throughout the whole of the sailing era A handy and quick reference to a variety of vessels A top notch reference book British Tars 1740 1790 **Professional Journal of the United States**

This book demonstrates the connection between economic and strategic developments in Asia with several interrelated arguments The author asserts that there is no single explanation for the 1997 financial crisis in the Pacific Rim states nor for the slow recovery afterwards The author also points out that China is not the only major power rising in Asia India is close behind and warns that while many observers are proceeding as if current U S treaties will continue indefinitely Asia is already preparing for changing patrons      Blue Water Patriots James M. Volo,2008-07 The purpose of this book is to

document the naval operations that took place during the American Revolution These can be divided into two parts those that took place before the French intervention of 1778 and those that took place thereafter Introduction      **Beyond Capitalism**

Giulio Sapelli,2019-10-29 This book offers a new perspective on the financialisation of the economy and its profound technological transformation in an increasingly interdependent and globalised world A deterioration of capitalist property has led to the reactivation of pre capitalist social phenomena such as slavery Meanwhile secular deflation and international destruction of the social state have wrought havoc with all familiar modern welfare infrastructure Yet Sapelli argues there is still hope in the form of the gradual evolution of a community based socialism based on diverse forms of ownership co operative living and working and sustainable capitalist property Sapelli presents a severe and dramatic look at the present world where there is still a light at the end of the tunnel      Open Secrets of American Foreign Policy Gordon Tullock,2007

On May 14 15 1905 in the Tsushima Straits near Japan an entire Russian fleet was annihilated its ships sunk scattered or captured by the Japanese In the deciding battle of the Russo Japanese War the Japanese lost only three destroyers but the Russians lost twenty two ships and thousands of sailors It was the first modern naval battle employing all the new technology of destruction The old imperial navy was woefully unprepared The defeat at Tsushima was the last and greatest of many indignities suffered by the Russian fleet which had traveled halfway around the world to reach the battle dogged every mile by bad luck and misadventure Their legendary admiral dubbed Mad Dog led them on an extraordinary eighteen thousand

mile journey from the Baltic Sea around Europe Africa and Asia to the Sea of Japan They were burdened by the Tsar s incompetent leadership and the old slow ships that he insisted be included to bulk up the fleet Moreover they were under constant fear of attack and there were no friendly ports to supply coal food and fresh water The level of self sufficiency attained by this navy was not seen again until the Second World War The battle of Tsushima is among the top five naval battles in history equal in scope and drama to those of Lepanto Trafalgar Jutland and Midway yet despite its importance it has been long neglected in the West With a novelist s eye and a historian s authority Constantine Pleshakov tells of the Russian squadron s long difficult journey and fast horrible defeat
