(Peet) Schutte,2013-07-17 Modern science or what I call Newtonian science is altogether wrong Nothing can stand still in the

Universe and remain a part of the Universe The Universe is the movement thereof Everything in the Universe has to move

should it wish to be and everything in the Universe moves and in circles but everything moves There is no mass but only

movement and movement is gravity and gravity is time forming space But how does this system work and how does this

system form an entire Universe as big as the one we have Read this and see how the Universe is truly stitched together by

nature and not by Newton s fantasy It works exactly as Kepler said it does in the tables Kepler left us to study Space by three

forms a circle by two that moves straight by one and that forms the six sided Universe we enjoy as a reality **Good words**
