The Intelligent Donors Guide To College Giving:

The Intelligent Donor's Guide to College Giving Anne D. Neal, Michael B. Poliakoff, 2011-09 American philanthropists long have been generous in their support of colleges and universities But donors do not always find the results they envisioned for their generosity and good intentions The American Council of Trustees and Alumni ACTA has responded by publishing *The Intelligent Donor's Guide to College Giving* The guide provides step by step instructions for donors on how to target their giving with profiles of successful gifts Find out how to ensure in the words of investor and philanthropist Stephen Friess that philanthropic dollars are investments in the values of American and its future **Intelligent Giving** Jonathan P. Caulkins, Jay Cole, Melissa Hardoby, Donna J. Keyser, 2002-06-20 Provides an intellectual framework for guiding prospective major donors in giving more effectively to higher education Although most major gifts are profoundly motivated by charitable intentions the noble impulse to give to higher education can quickly generate complicated choices Which school Which program Under what terms or conditions Even very talented people who have enjoyed exceptionally successful careers in business and other fields can become disoriented by academe's idiosyncrasies This book provides an intellectual framework for guiding prospective major donors in giving more effectively to higher education It supplies some insight into the higher education sector donor opportunities the development process and how to think about and get the most from a negotiation with the institution of the donor's choice The insights and strategies are culled by a RAND research team mainly from interviews with development officers institutional leaders and donors themselves Ultimately the giving process that works best for any donor will depend on his or her individual interests and needs The best advice is to be clear on what effect the donor wants his or her gift to have to seek as much information on the school situation as possible and to consult with an attorney and a good financial advisor at all stages of the giving process **The Guide to Intelligent Giving** Joanna L. Krotz, 2009 We all want to make a difference and Town Country shows that philanthropy is not just for the wealthy This inspirational book explains how to donate money and time for optimum impact no matter what your level of income It features the personal stories of a range of contributors from celebrities like Gary Sinise who cofounded an organization to donate school supplies to Iraqi children and Osceola McCarty a laundress who at 85 donated 150 000 the bulk of her life savings to a scholarship fund for black students at the University of Mississippi If you have an impulse to donate your time or money these inspiring stories along with concrete advice about how to select the right cause for you will help make your generosity really count *The UnCivil University* Gary A. Tobin, Aryeh Kaufmann Weinberg, Jenna Ferer, 2009-05-16 In the name of academic freedom the core values of higher education honest scholarship unbiased research and diversity of thought and person have been corrupted by an academy more interested in preserving its privileges than in protecting its own integrity The American university has lost its civility Nowhere is this loss more apparent than in the rise of anti-Semitism and anti-Israelism on college campuses This book documents the alarming rise in bigotry and bullying in the academy using a

range of evidence from first hand accounts of intimidation of students by anti Israel professors to anti Semitic articles in student newspapers and marginalization of pro Israel scholars The UnCivil University exposes the unspoken world of double standards bureaucratic paralysis and abdication of leadership that not only allows but often supports a vocal minority of extremists on campus

Overcoming Matthew Arnold James Walter Caufield,2016-05-13 Opening the way for a reexamination of Matthew Arnold s unique contributions to ethical criticism James Walter Caufield emphasizes the central role of philosophical pessimism in Arnold s master tropes of culture and conduct Caufield uses Arnold s ethics as a lens through which to view key literary and cultural movements of the past 150 years demonstrating that Arnoldian conduct is grounded in a Victorian ethic of renouncement a form of altruism that wholly informs both Arnold s poetry and prose and sets him apart from the many nineteenth century public moralists Arnold s thought is situated within a cultural and philosophical context that shows the continuing relevance of renouncement to much contemporary ethical reflection from the political kenosis of Giorgio Agamben and the pensiero debole of Gianni Vattimo to the ethical criticism of Wayne C Booth and Martha Nussbaum In refocusing attention on Arnold s place within the broad history of critical and social thought Caufield returns the poet and critic to his proper place as a founding father of modern cultural criticism
