This book presents a rough sketch of Dr Yat sen Sun s 1866 1925 requirements for modernizing China and elaborates on Sun

s desire for the then China to implement a sweeping wave of economic reconstruction and development reforms concerning its railroads and highways river conservancy and irrigation new ports and modern cities by absorbing international capital coming to China In the preface to this book first published in 1922 Yat sen Sun posits Unless the Chinese question can be settled peacefully another world war greater and more terrible than the one just past will be inevitable In order to solve the Chinese question he suggested that the country s vast resources be developed internationally under a socialistic scheme both for the good of the world in general and the Chinese people in particular It was his hope that such a scheme would abolish the prevalent spheres of influence of the time and that the class struggle between capital and labor could be avoided In this book Yat sen Sun presents his solutions for three great questions of global importance International War Commercial War and Class War

**The International Development of China (Classic Reprint)** Yat-Sen Sun, 2017-11-19 Excerpt from The International Development of China It \_is estimated that during the last year of the World War the daily expenses of the various fighting nations amounted to two hundred and forty millions of dollars gold Take it for granted in a most conservative way that only one half of this sum was spent on munitions and other direct war supplies that is one hundred and twenty millions of dollars gold Let us consider these war supplies from a commercial point of view The battle field is the market for these new industries the consumers of which are the soldiers Various industries had to be enlisted and many new ones created for the supplies In order to increase the production of these war commodities day by day people of the warring countries and even those of the neutral states had to be content with the barest necessities of life and had to give Up all former comforts and luxuries Now the war is ended and the sole market of these war supplies has closed let us hope forever for the good of Humanity So henceforth we are concerned with the problem as to how a readjustment might be brought about What is to be considered first is the reconstruction of the various countries and next the supply of comforts and luxuries that will have to be resumed We remember that one hundred and twenty million dollars were spent every day on direct war supplies Let us then suppose that the two items mentioned will take up one half of this sum that is sixty millions of dollars a day which will still leave us a balance of sixty million dollars a day to be utilized Besides the many millions of soldiers who were once consumers will from now on become producers again Further more the unification and nationalization of all the industries About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
