Rene Guenon John Herlihy, 2009-10-15 A prolific writer and author of over 24 books Rene Guenon was the founder of the Perennialist Traditionalist school of comparative religious thought Known for his discourses on the intellectual and spiritual bankruptcy of the modern world symbolism tradition and the inner or spiritual dimension of religion this book is a compilation of his most important writings A key component of his thought was the assertion that universal truths manifest themselves in various forms in the world's religions and his writings on Hinduism Taoism and Sufism are particularly illuminating in this regard *Cosmic Music* Joscelyn Godwin, 1989-12-01 The idea that the universe is created out of sound or music and therefore is music is a very ancient one In this book Joscelyn Godwin brings together three contemporary

German thinkers who exemplify this tradition in its modern variants Marius Schneider Rudolf Haase and Hans Erhard Lauer The selections draw on ancient Indian sources and mythology Kepler's Platonic vision of a musical geometric universe and the evolution of the tone systems of music While every music lover senses the power and truth that reside in music very few actually approach music as a path to cosmic knowledge Godwin takes literally Beethoven's assertion that Music is a higher revelation than all wisdom or philosophy Godwin writes to penetrate the mysteries of music is to prepare for initiation into those fathomless mysteries of man and cosmos **The Sacred Science of Ancient Japan** Avery Morrow, 2014-01-24 The

first English translation and examination of secret Japanese writings dating from the paleolithic to classical eras Examines four suppressed and secret texts to discover the deeper truths beneath Japanese mythology Introduces evidence of ancient civilizations in Japan the sacred geometry of primitive times and claims of a non Earthly origin of the Emperors Explores how these texts convey the sacred spiritual science of Japan's Golden Age with parallels in ancient India Europe and Egypt In Japan there are roughly two dozen secret manuscripts originally dating back to the paleolithic era the age of heroes and gods that have been handed down by the ruling families for centuries Rejected by orthodox Japanese scholars and never before translated into English these documents speak of primeval alphabets lost languages forgotten technologies and the sacred spiritual science Some even refer to UFOs Atlantis and Jesus coming to Japan Translating directly from the original Japanese

Avery Morrow explores four of these manuscripts in full as well as reviewing the key stories of the other Golden Age chronicles In the Kujiki manuscript Morrow uncovers the secret symbolism of a Buddhist saint and the origin of a modern prophecy of apocalypse In the Hotsuma Tsutaye manuscript he reveals the exploits of a noble tribe who defeated a million strong army without violence In the Takenouchi Documents he shows us how the first Japanese emperor came from another world and ruled at a time when Atlantis and Mu still existed And in the Katakamuna Documents the author unveils the sacred geometries of the universe from the symbolic songs of the 10 000 year old Ashiya tribe He also discusses the lost scripts known as the Kamiyo Moji and the magic spiritual science that underlies all of these texts which enabled initiates to ascend to higher emotional states and increase their life force Taking a spiritual approach la Julius Evola to these parahistorical chronicles Morrow shows how they access a higher order of knowledge and demonstrate direct parallels to many ancient texts of India Europe and Egypt

The Serpent Symbol in Tradition Charles Dailey,2022-01-24 Serpent and dragon symbolism is ubiquitous in the art and mythology of premodern cultures around the world Over the centuries conflicting hypotheses have been proposed to interpret this symbolism which while illuminating have proved insufficient to the task of revealing a singular meaning for the vast majority of examples In *The Serpent Symbol in Tradition* Dr Dailey argues that in what the symbolist Rene Guenon and the historian of religions Mircea Eliade have called traditional or archaic societies the serpent dragon transculturally symbolizes matter a state of being that is constituted by the perception of the physical world as chaotic in comparison to what traditional peoples believed to be the higher meta physical source of the physical world or nature In the course of Dr Dailey s investigations into the meaning of traditional serpent dragon symbolism the following contributions have proved invaluable 1 Gu non s interpretation of the language of traditional symbolism and the metaphysics that underlies it as well as his interpretation of the terminology of the Hindu Doctrines 2 Eliade s interpretation of traditional archaic societies by means of his concepts of chaos creation Axis Mundi World Axis and Sacred and Profane and 3 the insights of various other researchers of serpent dragon symbolism Beyond purporting to resolve some of the mystery of the ancient and varied symbolism of the serpent dragon *The Serpent Symbol in Tradition* strives to serve the related functions of interpreting the symbolic meanings of a wide variety of premodern artifacts and narratives as well as providing a study of the origination and ancient human awareness of the mentioned state of matter

Symbols of Sacred Science René Guénon,2004 In *Symbols of Sacred Science* Gu non a master of precise even mathematical metaphysical exposition reveals himself as a consummate exegete of myth and symbolism as well superior in many ways to Mircea Eliade and comparable perhaps only to

his respected friend Ananda K Coomaraswamy This extraordinary text unveils the cosmological meanings of root symbols organized under such general headings as The Center of the World Cyclic Manifestation Symbolic Weapons Axial Symbolism and the Symbolism of Passage The Symbolism of Building and The Symbolism of the Heart Far more than a simple catalogue of myths and symbols from many traditions Symbols of the Sacred Science lays the foundation for a universal esoteric symbology In this work Gu non demonstrates the fundamental unity across all cultures and ages of the images with which the Absolute clothes itself in its cosmic self revelation

Modern Architecture and the Sacred Ross Anderson, Maximilian Sternberg, 2020-11-26 This edited volume Modern Architecture and the Sacred presents a timely reappraisal of the manifold engagements that modern architecture has had with the sacred It comprises fourteen individual chapters arranged in three thematic sections Beginnings and Transformations of the Modern Sacred Buildings for Modern Worship and Semi Sacred Settings in the Cultural Topography of Modernity The first interprets the intellectual and artistic roots of modern ideas of the sacred in the post Enlightenment period and tracks the transformation of these in architecture over time The second studies the ways in which organized religion responded to the challenges of the new modern self understanding and then the third investigates the ways that abstract modern notions of the sacred have been embodied in the ersatz sacred contexts of theatres galleries memorials and museums While centring on Western architecture during the decisive period of the first half of the 20th century a time that takes in the early musings on spirituality by some of the avant garde in defiance of Sachlichkeit and the machine aesthetic the volume also considers the many varied appropriations of sacrality that architects have made up to the present day and also in social and cultural contexts beyond the West

Studies in Freemasonry and the Compagnonnage René Guénon, 2004 René Guénon 1886-1951 was one of the great luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of intellectual fashion His extensive writings now finally available in English are a providential treasure trove for the modern seeker while pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents they direct the reader also to the deepest level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization Studies in Freemasonry and the Compagnonnage is both an attempt to rediscover the lost roots of Masonry and a fascinating look into the many controversies swirling around the subject of Masonry in serious intellectual circles during the first half of the twentieth century It must also be classed along with Symbols of Sacred Science Spiritual Authority and Temporal Power Traditional Forms and Cosmic Cycles The Esoterism of Dante Insights into Christian Esoterism and Insights into Islamic Esoterism and Taoism not to mention related sections in many of his other books as one of René Guénon's masterful excursions into esoteric myth symbolism and secret history Freemasonry may indeed be as Guénon ultimately concluded a largely degenerated and thus no longer strictly operative offshoot of a true initiatory lineage yet its symbolism like that of the original Rosicrucians remains profound traditional and therefore ultimately legitimate And given that the Spirit bloweth where it listeth it is always possible that symbolism of this order may awaken in a receptive soul intimations of the Truth and the Way which can be of inestimable of value in the path to the Path the quest for a living initiatory spirituality

King of the Castle Gai Eaton, 1977 **Esoteric themes in theology** Róbert Sarka, 2015-05-31 During the Second Vatican Council the Catholic Church opened itself to a dialogue which became its communication tool with the world with other Christian denominations and religions At the end of the 19th century so called new religious movements and new

magical movements started to appear which are still currently expanding Is it possible to lead a dialogue with new religious movements NRM 1 A dialogue is an inseparable part of the Church s mission therefore neither can the NRM be excluded However to have a dialogue with them the correct preparation is needed because a great variability exists amongst the NRM In this dialogue it is also necessary to take into account the risks from the side of the NRM s participants who may try to abuse it for their own promotion e g as happened when some of the NRM s participants showed photographs from a general audience with the pope or photographs with Mother Theresa as proof of a support of their activities Another form of abuse can be the publishing of their own doctrines in the Catholic Publishing Houses The statements of some forms of NRM concerning the possibility of double memberships thus actually remaining as a member of the Catholic Church but at the same time being a disciple of some occult community are also of a great danger² It is necessary to think about these pitfalls during the dialogue The dialogue should also not be detached from the proclamation in this case it is about keeping fidelity to the Catholic faith I would also like to stick to this criterion in the submitted monograph about esoteric themes in theology
