Kingdoms of the Savanna Jan Vansina, 1966      **Kingdoms of the Savanna** Jan Vansina, 1966      Great Kingdoms of Africa John Parker, 2023-03-21 A groundbreaking sweeping overview of the great kingdoms in African history and their legacies written by world leading experts This is the first book for nonspecialists to explore the great precolonial kingdoms of Africa that have been marginalized throughout history Great Kingdoms of Africa aims to decenter European colonialism and slavery as the major themes of African history and instead explore the kingdoms dynasties and city states that have shaped cultures across the African continent This groundbreaking book offers an innovative and thought provoking overview that takes us from ancient Egypt and Nubia to the Zulu Kingdom almost two thousand years later Each chapter is written by a leading historian interweaving political and social history and drawing on a rich array of sources including oral histories and recent archaeological findings Great Kingdoms of Africa is a timely and vital book for anyone who wants to expand their knowledge of Africa s rich history      *The Lunda-Ndembu* James Anthony Pritchett, 2001 Pritchett anthropology African studies Boston U presents an account of the Lunda Ndembu people of northwestern Zambia The text is based upon archaeological data travel accounts colonial field reports and the scholarly studies of others as well as his own field research conducted intermittently over the course of 14 years He contends that despite much cultural borrowing in recent decades the Lunda people have an image of themselves that is essentially unchanged He also reflects on continuity and change in Africa c Book News Inc      *The Kingdoms of Africa* Peter S. Garlake, 1978      Living with Africa Jan Vansina, 1994 In 1952 a young Belgian scholar of European medieval history traveled to the Belgian Congo now Zaire to live in a remote Kuba village Armed with a smattering of training in African cultures and language Jan Vansina was sent to do fieldwork for a Belgian cultural agency As it turned out he would help found the field of African history with a handful of other European and African scholars I m not an ethnologist I m a historian Vansina was to repeat again and again to those who assumed that people without written texts have no history His discovery that he could analyze Kuba oral tradition using the same methods he had learned for interpreting medieval dirges was a historiographical breakthrough and his first book Oral Tradition as History is considered the seminal work that gave the study of precolonial African history both the scholarly justification and the self confidence it had been lacking Living with Africa is a compelling memoir of Vansina s life and career on three continents interwoven with the story of African history as a scholarly specialty In the background of his narrative are the collapse of colonialism in Africa and the emergence of newly independent nations in the foreground are the first conferences on African history the founding of journals and departments and the efforts of Africans to establish a history curriculum for the schools in their new nations      *Slavery and African Ethnicities in the Americas* Gwendolyn Midlo Hall, 2009-11-05 Enslaved peoples were brought to the Americas from many places in Africa but a large majority came from relatively few ethnic groups Drawing on a wide range of materials in four languages as well as on her lifetime study of slave groups in the New World

Gwendolyn Midlo Hall explores the persistence of African ethnic identities among the enslaved over four hundred years of the Atlantic slave trade Hall traces the linguistic economic and cultural ties shared by large numbers of enslaved Africans showing that despite the fragmentation of the diaspora many ethnic groups retained enough cohesion to communicate and to transmit elements of their shared culture Hall concludes that recognition of the survival and persistence of African ethnic identities can fundamentally reshape how people think about the emergence of identities among enslaved Africans and their descendants in the Americas about the ways shared identity gave rise to resistance movements and about the elements of common African ethnic traditions that influenced regional creole cultures throughout the Americas

**Honour in African History** John Iliffe, 2005 This is the first published account of the role played by ideas of honour in African history from the fourteenth century to the present day It argues that appreciation of these ideas is essential to an understanding of past and present African behaviour Before European conquest many African men cultivated heroic honour others admired the civic virtues of the patriarchal householder and women honoured one another for industry endurance and devotion to their families These values both conflicted and blended with Islamic and Christian teachings Colonial conquest fragmented heroic cultures but inherited ideas of honour found new expression in regimental loyalty respectability professionalism working class masculinity the changing gender relationships of the colonial order and the nationalist movements which overthrew that order Today the same inherited notions obstruct democracy inspire resistance to tyranny and motivate the defence of dignity in the face of AIDS

**A History of African Societies to 1870** Elizabeth Isichei, 1997-04-13 This comprehensive and detailed exploration of the African past from prehistory to approximately 1870 is intended to provide a fully up to date complement to the Cambridge History of Africa Reflecting several emphases in recent scholarship it focusses on the changing modes of production on gender relations and on ecology laying particular stress on viewing history from below A distinctive theme is to be found in its analyses of cognitive history The work falls into three sections The first comprises a historiographic analysis and covers the period from the dawn of prehistory to the end of the Early Iron Age The second and third sections are for the most part organised on regional lines the second section ends in the sixteenth century the third carries the story on to 1870 A second volume now in preparation will cover the period from 1870 to 1995 This book attempts a more rounded view of African history than most of the other textbooks on the subject addressed to a largely undergraduate level student Earlier histories have tended to ignore some of the current foci in the scholarly literature on Africa generally not reflected in the textbooks these include discussions of topical issues like ecology and gender Isichei's book is also more radical
