Goodman, 1988 First Published in 1988 Routledge is an imprint of Taylor Francis an informa company **Everyday Life in the North Korean Revolution, 1945-1950** Suzy Kim, 2013-08-07 During the founding of North Korea competing visions of an ideal modern state proliferated Independence and democracy were touted by all but plans for the future of North Korea differed in their ideas about how everyday life should be organized Daily life came under scrutiny as the primary arena for social change in public and private life In *Everyday Life in the North Korean Revolution 1945 1950* Kim examines the revolutionary events that shaped people's lives in the development of the Democratic People's Republic of Korea By shifting the historical focus from the state and the Great Leader to how villagers experienced social revolution Kim offers new insights into why North Korea insists on setting its own course Kim's innovative use of documents seized by U S military forces during the Korean War and now stored in the National Archives personnel files autobiographies minutes of organizational meetings educational materials women's magazines and court documents together with oral histories allows her to present the first social history of North Korea during its formative years In an account that makes clear the leading role of women in these efforts Kim examines how villagers experienced understood and later remembered such events as the first land reform and modern elections in Korea's history as well as practices in literacy schools communal halls mass organizations and study sessions that transformed daily routine **Kim Jong Il and North Korea: The Leader and the System**, **Kim Jong Il and North Korea** Andrew Scobell, 2006 **Routledge Handbook of Modern Korean History** Michael Seth, 2016-01-29 Beginning in the mid nineteenth century when Korea became entangled in the world of modern imperialism and the old social economic and political order began to change this handbook brings together cutting edge scholarship on major themes in Korean History Contributions by experts in the field cover the Late Choson and Colonial periods Korea's partition and the diverging paths of North and South Korea Topics covered include The division of Korea Religion Competing imperialisms Economic change War and rebellions Nationalism Gender North Korea Under Kim Jong Il Global Korea The Handbook provides a stimulating introduction to the most important themes within the subject area and is an invaluable reference work for any student and researcher of Korean History **North Korea** Hazel Smith, 2015-04-09 This is a historically founded empirical study of social and economic transformation wrought by marketisation from below in North Korea **Crisis in North Korea** Andrei Lankov, 2007-05-31 North Korea remains the most mysterious of all Communist countries The acute shortage of available sources has made it a difficult subject of scholarship Through his access to Soviet archival material made available only a decade ago contemporary North Korean press accounts and personal interviews Andrei Lankov presents for the first time a detailed look at one of the turning points in North Korean history the country's unsuccessful attempts to de Stalinize in the mid 1950s He demonstrates that contrary to common perception North Korea was not a realm of undisturbed Stalinism Kim Il Sung had to deal with a reformist opposition that was weak but present nevertheless Lankov traces the impact of Soviet reforms on North Korea placing them in the context of

contemporaneous political crises in Poland and Hungary He documents the dissent among various social groups intellectuals students party cadres and their attempts to oust Kim in the unsuccessful August plot of 1956 His reconstruction of the Peng Mikoyan visit of that year the most dramatic Sino Soviet intervention into Pyongyang politics shows how it helped bring an end to purges of the opposition The purges however resumed in less than a year as Kim skillfully began to distance himself from both Moscow and Beijing The final chapters of this fascinating and revealing study deal with events of the late 1950s that eventually led to Kim s version of national Stalinism Lankov unearths data that for the first time allows us to estimate the scale and character of North Korea s Great Purge Meticulously researched and cogently argued *Crisis in North Korea* is a must read for students and scholars of Korea and anyone interested in political leadership and personality cults regime transition and communist politics

The Korean War and The Vietnam War Britannica Educational Publishing,2009-10-01 In the 1950s and 1960s and on into the 1970s the United States was involved in two wars fought far from home one in aid of South Korea against the neighboring Communist North Korea and a second waged through the jungles of Vietnam Cambodia and Laos Both of these military engagements were a reaction to what the United States feared as being Communist takeovers and were surrounded by a strong degree of political controversy This book explores both wars in detail to help readers understand why the conflicts occurred and what their lasting effects have been

Conflict Prevention and Management in Northeast Asia Alec Forss,Sofia Ledberg,Niklas Swanström,2010-03-08 Two of the world s most dangerous flashpoints this edited volume with contributions by leading scholars offers a comprehensive evaluation and comparison of approaches to conflict management and prevention on the Korean Peninsula and in the Taiwan Strait The consequences of any escalation of these two conflicts and the difficulties in resolving them necessitate a fresh look at designing new strategies to prevent and contain conflict as well as highlighting the limitations of existing measures Presenting both a theoretical and practical examination of conflict prevention and management the volume provides a comparative analysis of the Korean Peninsula and the Taiwan Strait identifying lessons that could be transferred between the two cases but also the obstacles to this The experiences of other regions and the role of third parties are also examined This is a valuable addition to the literature for students of peace and conflict studies as well as policy makers with an interest in Northeast Asia

A Short History of Sino-Soviet Relations, 1917-1991 Zhihua Shen,2019-10-31 Drawing on the rich trove of recently declassified Russian and Chinese archival materials this history of Sino Soviet relations in the 20th century sheds new light on key events during this period It offers fresh insights into the role of ideology and national interests in the evolution of the complex and turbulent relationship between not just the two

countries but also their respective Communist Parties The chapters on the normalization of bilateral ties provide an in depth analysis of divisions in the socialist camp that culminated in both its collapse and the disintegration of the Soviet Union The book argues that 20th century Sino Soviet relations reflected both long standing and emerging political and geopolitical challenges facing members of the Cold War socialist camp in particular tensions between the ideal of internationalism and national aspirations between commitment to the principle of sovereignty and commitment to that of equality in international relations and between inter party relations and inter state relations This makes for a valuable addition to the reading lists of all those interested in the development of the relationship between two of the world s most important countries *China's Korean Minority* Chae-jin Lee, 2021-11-28 The educational system in China s Yanbian Prefecture presents a relatively successful model for Korean ethnic education Koreans in China have a much higher percentage of literacy and middle school and college graduation than the national average or any other minority nationality Despite the integrationist impulses of the Chinese nationality policy during the Rectification Movement and the Cultural Revolution the Korean minority has successfully sustained its ethnic identity Central to the well being of the Korean minority in China is its continuing achievement of the highest level of educational attainment Within the moderate nationality policy currently enunciated by Beijing the ethnically based education system of the Korean minority in Northeast China presents a program to be studied and emulated by other minority nationalities
