British Wild Flowers Brian Vesey-FitzGerald, 1957 **The Ladybird book of British wild flowers** Brian Seymour Vesey-FitzGerald, 1957 **RSPB Spotlight Ladybirds** Richard Comont, 2019-05-16 RSPB Spotlight Ladybirds is packed with eye catching informative colour photos and features succinct detailed text written by a knowledgeable naturalist. Brightly coloured and pleasingly patterned ladybirds are among some of our most beloved and familiar invertebrates. Their role in helping to protect our crops by devouring huge numbers of pests has firmly established these tiny flying beetles as the gardeners' friend. Spotlight Ladybird focuses on the 26 species that are resident in the UK from the widespread but unusual Orange Ladybird to the rare and aptly named Scarce 7 spot Ladybird. Ladybird expert Richard Comont considers the conservation challenges facing these iconic species whose populations are now at risk thanks to the threat posed by one of their own, the invasive alien Harlequin Ladybird. And he covers all aspects of ladybirds' biology from tiny larvae emerging from their oval eggs to large aggregations that converge at specific sites around the world. Richard also examines the natural history and cultural significance of this fascinating group of beetles from Ladybird Books to Thor. The Spotlight series introduces readers to the lives of our favourite animals with eye catching colour photos and informative expert text. **The Ladybird Book of British Wild Flowers ... Colour Illustrations by Rowland and Edith Hilder** Brian Seymour Vesey-FitzGerald, 1957 **Heaven in a Wildflower** Vera GLENN, 2000 Sharing reminiscences of how her garden has sustained her, Glenn reveals what the cycles of nature can teach us about our own nature. The book's title taken from William Blake, 'To see a world in a grain of sand, And Heaven in a Wild Flower' refers to the sacred peace, love and wisdom available to every spiritual seeker in tending a garden. **Stitched Memories** Tilly Rose, 2018-07-24 Exquisite content. This beautiful book will inspire anyone to venture into the world of creating your own pieces of textile artworks. Hot Brands Cool Places. Our homes are full of treasured items from the past. Hidden away from view but never thrown away, they are our links to the special people and events that tell our story. In this beautiful and inspiring book, Tilly Rose encourages you to seek out your precious stash of pre-loved items and transform them into beautiful and practical textile artworks that celebrate the lives of your loved ones and preserve your memories for generations to come. Tilly shows you how to make 15 gorgeous projects including cloth journals, lavender hearts, framed collages, wall hangings and miniature quilts. All of the designs have a story to tell and are made using a plethora of vintage fabrics, threads, lace, ribbon, buttons, beads, photographs and other found items. If you don't have a collection of suitable materials at home, you can have fun sourcing them from online marketplaces, thrift, charity stores and flea markets and try mixing them with modern fabrics and embellishments for a more contemporary look. The projects incorporate a range of exciting techniques, all explained through clear instructions and step-by-step photographs including layering and collage, hand embroidery, transferring your own designs to cloth, stamping, applique, embellishing, patchwork, free motion embroidery and photo transfer. A stunning book I love that if like me you enjoy other crafts such as

stamping mixed media and papercraft these can all be incorporated into your work and give you an individual look to any project

Postcard Reviews *The Inter-Galactic Playground* Farah Mendlesohn, 2009-07-15 Science fiction is often considered the genre of ideas and imagination which would seem to make it ideal for juveniles and young adults however the ideas are often dispensed by adults This book considers the development of science fiction for children and teens between 1950 and 2010 exploring why it differs from science fiction aimed at adults In a broader sense this critical examination of 400 texts sheds light on changing attitudes toward children and teenagers toward science education and toward the authors expectations and sociological views of their audience
