**The Lie of the Land** Ross Hunter, 2023-10-02 Maps are great if shy historians their borders tell stories Tales about the land tales about people who drew them They have lasting consequences This book explores some of those borders with the most to tell us History biography and politics all play a part Some of the oddest frontiers and some of the most painful consequences are examined from Palestine to The Punjab by way of Ireland The Caucasus The Balkans and Africa Not all stories are peaceful and the too forgotten fights of the Opium Wars and Kurdistan are examined along with the people who made the decisions This book is for anyone who has spent a happy hour reading a map and wondering just how and why some of those lines got to be where they are mostly boundaries but also other oddities and curiosities and for anyone perplexed by a news story from an exotic land far away in place or time Copiously illustrated with maps and pictures it is illuminating enjoyable and hopefully disturbing

*The Laissez-Faire Peasant* Jovana Diković, 2025-01-14 In rural development studies there are two mainstream assumptions One holds that peasants are the victims of state rural development schemes the other that only planning can ensure change and prosperity in rural regions It is rarely considered that peasants are architects of their own and local wellbeing notions which are often in opposition to state plans for agriculture The Laissez Faire Peasant explores how rural development emerges on the ground The concept involves the manifestation of peasant worldviews in which autonomy in decision making freedom of action spontaneity and flexibility in everyday cooperation play a dominant role A role in which individual and local values generate a self regulating system that manages a range of economic social and political relationships The book examines manifestations of peasant autonomy both in response to and independent of state rural development policies through a multi sited ethnography of three Serbian villages It is shown how these factors impede state programs for rural development while enabling the spontaneous flourishing of local communities By focusing on the agency of rural residents the book finds that peasants are resilient and competent agents who do not need government plans to thrive Praise for The Laissez Faire Peasant Anthropologists and missionaries claim to love their peasants Economists and planners claim to help them Both look down Dikovi brilliantly proposes a new approach which might be called humanomics It gives respect looking up from where people actually live Deirdre Nansen McCloskey University of Illinois at Chicago This is an ethnographically rich and conceptually original study of post socialist peasantry and rural development in Serbia Jovana Dikovi draws a complex picture of the post socialist peasants as autonomous and resilient subjects motivated by the visions of rural development

anchored in their local lifeworlds Agnieszka Joniak L thi University of Fribourg In her excellent study Jovana Dikovi  
challenges the narrative about Serbian peasants usually viewed as downtrodden and exploited underdogs in need of  
governmental help In this careful case study these peasants represent an entrepreneurial self reliant and individualistic  
social group that can survive and thrive even in the conditions of modern and technologically advanced capitalism Ivan
