The Language Of Education:

Language Policies in Education James W. Tollefson, 2002 How do language policies in education serve the interests of dominant groups within societies How do policies marginalize some students while granting privilege to others How do language policies in schools create inequalities among learners How can schools further the educational social and economic interests of linguistic minorities These questions the focus of the chapters in this book are at the heart of fundamental debates about the role of schools in society the links between language policies and inequalities of class region and ethnicity nationality and conflicts between linguistic minorities and mainstream populations The connections between language policies and inequality are examined as well as successful efforts to use language policies in education to assert the social and linguistic rights of language minorities All of the chapters are original and substantial contributions to the study of language policy and exemplify major theories and research methods in the field The case studies are international in scope including cutting edge analyses of important language policy debates in North America Australia Eastern Europe Africa East Asia South Asia and the Pacific The multiple meanings of critical language policy study are highlighted First the term refers to the field of critical linguistics Second the book seeks to develop readers ability to critically read language policies that is to understand the social and political implications of particular policies adopted in specific historical contexts Third it features chapters that are critical of traditional analyses that fail to capture the full social and political context of language policies and too often accept uncritically the claims of policy Sections are included on theoretical issues in language policies the use of language policy for governance the role of language policy in managing ethnic conflict the link between language and globalization and the impact of critical pedagogy on social change This volume is intended for scholars and other specialists in language policy education applied linguistics critical linguistics and language teaching It is designed for use as a textbook in graduate and advanced undergraduate courses on language policy and language education

Language Education in a Changing World Rod Bolitho, Richard Rossner, 2020-03-04 This book considers the importance of language education in a rapidly changing world The authors look at language education from different perspectives the teaching and learning of foreign or second languages the role of literacy oracy and language across the curriculum the part played by different stakeholders in educational policy and the current state of language teacher education and the ways in which language is addressed in the education of teachers of all subjects Drawing on their extensive experience of language education and on case studies and data from around the world the authors consider how a different approach to language in education might help students to develop the language awareness and linguistic and communicative competences they need in order to participate fully and confidently in our increasingly diverse societies Chapter 1 and Chapter 10 are free to download as open access publications under a CC BY NC ND licence You can access them here Chapter 1 The Crucial Role of Language in Education <https://zenodo.org/record/8282422> Chapter 10 Language in Education and in Teacher Education Towards New

Language and Education M.A.K. Halliday, 2007-03-29

The ninth volume in Professor M A K Halliday's collected works is dedicated to the subject of language and education. Professor Halliday sums up the scope of language education under the following five headings: mother tongue education, second language learning, multilingual societies, contexts of language education and educational linguistics. In addition to the previously unpublished *Applied Linguistics as an Evolving Theme* (2002, originally presented by Professor Halliday on the occasion of his being awarded the first Gold Medal by the International Association of Applied Linguistics AILA), this volume contains another nineteen papers covering a comprehensive breadth of topics in language and education addressed by Professor Halliday over the course of his career. The chapters cover language development, language teaching, multilingualism, functional variation in language and the place of linguistics in education.

Issues in English Language Education

Marianne Nikolov, 2002. This volume explores both theoretical and empirical questions related to second language acquisition and foreign language learning in general and English language education in Hungary in particular. The book overviews the relevance of the critical period hypothesis (CPH) to early foreign language programmes and contributes to a better understanding of the complexity of problems underlying discussions. It also challenges the CPH by giving an account of two studies on successful adult learners of English and Hungarian. Three different aspects of the same children's classroom experiences are explored over their eight years of study in primary school: the development of their attitudes and motivation, strategy use and negotiation. The book includes two classroom-based empirical studies. One on how children of 6-14 interact in a variety of foreign language classrooms, whereas the other one gives a detailed analysis of a classroom observation project of 118 disadvantaged secondary English classes.

Dual Language Education: Teaching and Learning in Two Languages

David E. DeMatthews, Elena Izquierdo, 2019-05-13. This book provides a comprehensive and interdisciplinary examination of dual language education for Latino or English language learners (ELLs) in the United States with a particular focus on the state of Texas and the U.S.-Mexico border. The book is broken into three parts. Part I examines how Latino or ELLs have been historically underserved in public schools and how this has contributed to numerous educational inequities. Part II examines bilingualism, biliteracy and dual language education as an effective model for addressing the inequities identified in Part I. Part III examines research on dual language education in a large urban school district, a high performing elementary school that serves a high proportion of ELLs along the Texas-Mexico border and best practices for principals and teachers. This volume explores the potential and realities of dual language education from a historical and social justice lens. Most importantly, the book shows how successful programs and schools need to address and align many related aspects in order to best serve emergent bilingual Latino as from preparing teachers and administrators to understanding assessment and the impacts of financial inequities on bilingual learners. Peter Sayer, The Ohio State University, USA.
