**Judaism as Creed and Life** Morris Joseph, 1910 *The Language of the Kingdom and Jesus* Jacobus Liebenberg, 2011-05-02 This study interprets Jesus parables and the sayings tradition regarding the Kingdom of God from a cognitive linguistic understanding of metaphor It also shows what contribution the theory of metaphor can make when the parables and aphorisms are studied in research on the historical Jesus The metaphoric nature

and polyvalency of the parables and aphorisms of the Jesus tradition undermine their value for research on the historical Jesus The author doubts whether the parables and sayings of the Jesus tradition can be employed to reconstruct the historical Jesus

**The Language of Belonging** Mary Katherine Birge,2002 By employing a rigorous historio rhetorical exegesis of each unit in chaps 3 6 and 14 Birge explores how Paul in his First Letter to the Corinthians used the same kinship images and language in different pastoral situations to address the situation of disharmony and division among the Corinthians 1 10 She investigates the possible sources for Paul s ideas about kinship images and language by examining likely influences on him from his social and historical matrix Jewish literature and the practice of Hellenistic rhetoric After concluding that Paul drew on these two cultural and religious resources to craft his argument for unity she asserts that what was new for him was finding the genetic material of kinship in Christ rather than in fidelity to God and the Torah She also claims that what was new for Early Christianity was the notion that the state of being in Christ dissolved all boundaries of status and privilege that Greco Roman society had established among people who were not kin

*The Language of Heresy in Late Medieval English Literature* Erin K. Wagner,2024-04-22 Vernacular writers of late medieval England were engaged in global conversations about orthodoxy and heresy Entering these conversations with a developing vernacular required lexical innovation The Language of Heresy in Late Medieval English Literature examines the way in which these writers complemented seemingly straightforward terms like heretic with a range of synonyms that complicated the definitions of both those words and orthodoxy itself This text proposes four specific terms that become collated with heretic in the parlance of medieval English writers of the 14th and 15th centuries jangler Jew Saracen and witch These four labels are especially important insofar as they represent the way in which medieval Christianity appropriated and subverted marginalized or vulnerable identities to promote a false image of unassailable authority

**The Language Environment of First Century Judaea** Randall Buth,R.Steven Notley,2014-03-06 The articles in this collection demonstrate that a change is taking place in New Testament studies Throughout the twentieth century New Testament scholarship primarily worked under the assumption that only two languages Aramaic and Greek were in common use in the land of Israel in the first century The current contributors investigate various areas where increasing linguistic data and changing perspectives have moved Hebrew out of a restricted marginal status within first century language use and the impact on New Testament studies Five articles relate to the general sociolinguistic situation in the land of Israel during the first century while three articles present literary studies that interact with the language background The final three contributions demonstrate the impact this new understanding has on the reading of Gospel texts

**The Beginning of the World in Renaissance Jewish Thought** Brian Ogren,2016-08-22 In The Beginning of the World in

Renaissance Jewish Thought Brian Ogren offers a deep analysis of late fifteenth century Italian Jewish thought concerning the creation of the world and the beginning of time Ogren's book is the very first to seriously juxtapose the thought of the great Jewish thinker Yohanan Alemanno Alemanno's famed Christian interlocutor Giovanni Pico della Mirandola the important Iberian exegete active in Italy Isaac Abravanel and Abravanel's renowned philosopher son Judah known as Leone Ebreo By bringing these thinkers together this book presents a new understanding of early modern uses of Jewish texts and hermeneutics Ogren successfully demonstrates that the syntheses of philosophy and Kabbalah carried out by these four intellectuals in their quests to understand the beginning itself marked a new beginning in Western thought characterized by simultaneous continuity and rupture
