The Language and the Law of God Francesca Calabi, 1998 Calabi analyzes Philo's exegetical work related to interpreting and explaining the revelation given by God to Moses on Mount Sinai. Given that in the Hebrew Bible every single letter is basic to the expression of reality and cannot be modified, what is the relation between the Hebrew text, the Greek text utilized by Philo, and reality? Has the translation the same sacred character and authority as the original? Can both texts equally constitute a valid basis for every interpretation? The first two chapters of the book examine the relation between interpretation of the Law and its application, while the third focuses on the type of exegesis conducted by Philo on its hermeneutic principles and on the interpretative modes which are also found in the Greek commentaries and/or in rabbinical literature

It is the same light Daljit Singh Jawa, 2014-02-07

Sri Guru Granth Sahib is generally known as the holy scripture of Sikhism, the world's fifth largest religion. But this holy scripture is neither a storybook nor just the philosophy of the Sikh saints or prophets. It is more like a collection of divine revelations and hymns expressing the feelings of love and devotion of the Sikh Gurus for the Supreme Being, along with the similar yearnings and longings of the devotees and saints from all faiths prevalent in Indian subcontinent during those times. The beauty of this 1430-page hymnal, written in 22 different languages, lies in the fact that while it spiritually connects the human mind to the original source of eternal bliss, it provides a very practical and effective way to live in love and harmony with other fellow human beings, irrespective of their faith, color, caste, creed, or race. The following are a few examples of the views of eminent writers and scholars regarding Sri Guru Granth Sahib. Mankind's religious future may be obscure, yet one thing can be foreseen: The living, higher religions are going to influence each other more than ever before in the days of increasing communications between all parts of the world and branches of the human race. In this coming religious debate, the Sikh religion and its scriptures, the Sri Guru Granth Sahib, will have something of special value to say to the rest of the world.

Arnold Toynbee, Historian: I have studied the scripture of great religions, but I do not find elsewhere the same power of appeal to the heart and mind as I find here in these volumes of Sri Guru Granth Sahib. There is something strangely modern about these scriptures. They speak to the people of any religion or of none. They speak for the human heart and the searching mind.

Mrs. Pearl S. Buck, Nobel Laureate: In Volume two of the *It Is The Same Light* series, SGGS, pages 201-400, author Daljit Singh Jawa continues his humble effort to share the beauty of the SGGS with those who have limited familiarity with the language, Gurumukhi, history, or context. The following are some of the comments received on the volume 1, pages 1-200 of SGGS. This translation of Sri Guru Granth Sahib is one of the best English translations in my view, as it is in simple, understandable English. Each shabad's summary message is given; there is connection between the shabads to reveal continuity of thought process in Guru Ji's message. Thanks to S. Daljit Singh Ji for the great work which will benefit future

generations understand Guru Ji's message easily Amarjit Singh M D University at Buffalo Buffalo NY A monumental undertaking reflecting a lifetime of devotion to the Sri Guru Granth Sahib and to the scholarly study of its voluminous texts Both its rendition of the original Gurmukhi script with accompanying English transliteration and its erudite commentary on each of the Granth's many hymns mark this work as a stunning achievement which will benefit all serious students of the Sikh religion and of world religions in general Barry Crawford Ph D Washburn University Topeka Kansas [Books in Print](#),1991

An Unexpected Light David C. Mahan,2009-01-01 Can poetry matter to Christian theology David Mahan asks in the introduction to this interdisciplinary work Does the study of poetry represent a serious theological project What does poetry have to contribute to the public tasks of theology and the Church How can theologians clergy and other ministry professionals and Christian laypeople benefit from an earnest study of poetry A growing number of professional theologians today seek to push theological inquiry beyond the relative seclusion of academic specialization into a broader marketplace of public ideas and to recast the theological task as an integrative discipline wholly engaged with the issues and sensibilities of the age Accordingly such scholars seek to draw upon and engage the insights and practices of a variety of cultural resources including those of the arts in their theological projects Arguing that poetry can be a form of theological discourse Mahan shows how poetry offers rich theological resources and instruction for the Christian church In drawing attention to the peculiar advantages it affords this book addresses one of the greatest challenges facing the church today the difficulty of effectively communicating the Christian gospel with increasingly disaffected late modern people

How the Light Gets In Graham Ward,2016-02-26 How the Light Gets In Ethical Life I presents a systematic account of the teachings of the Christian faith to offer a vision from a human created and limited perspective of the ways all things might be understood from the divine perspective It explores how Christian doctrine is lived and the way in which beliefs are not simply cognitive sets of ideas but embodied cultural practices Christians learn how to understand the contents of their faith learn the language of the faith through engagements that are simultaneously somatic affective imaginative and intellectual In the first of four volumes Graham Ward examines the complex levels of these engagements through three historical developments in the systematic organization of doctrine the Creeds the Summa and Protestant dogmatics He outlines a methodology for exploring and practicing systematic theology that captures how the faith is lived in cultural social and embodied engagements Ward then unpicks several fundamental theological concepts and how they are to be understood from the point

of view of an engaged systematics truth revelation judgement discernment proclamation faith seeking understanding and believing as it relates to and grounds the possibilities for faith This groundbreaking work offers an interdisciplinary investigation through poetry art film the Bible and theological discourse analysing the human condition and theology as the deep dream for salvation The final part relates theology as a lived and ongoing pedagogy concerned with individual and corporate formation to biological life social life and life in Christ Here an approach to living theologically is sketched that is the primary focus for all four volumes ethical life **Haney v.
