The Last Cannibals:

The Last Cannibals Ellen B. Basso, 2010-07-22 An especially comprehensive study of Brazilian Amazonian Indian history The Last Cannibals is the first attempt to understand through indigenous discourse the emergence of Upper Xing society Drawing on oral documents recorded directly from the native language Ellen Basso transcribes and analyzes nine traditional Kalapalo stories to offer important insights into Kalapalo historical knowledge and the performance of historical narratives within their nonliterate society This engaging book challenges the familiar view of biography as a strictly Western literary form Of special interest are biographies of powerful warriors whose actions led to the emergence of a more recent social order based on restrained behaviors from an earlier time when people were said to be fierce and violent From these stories Basso explores how the Kalapalo remember and understand their past and what specific linguistic psychological and ideological materials they employ to construct their historical consciousness Her book will be important reading in anthropology folklore linguistics and South American studies

The Last Cannibals Jens Bjerre, 1974-01-01 **Cannibal Holocaust** Calum Waddell, 2016-12-27 Cannibal Holocaust is one of the most controversial horror films ever made Despite not achieving huge success when it was first released the Italian production found an audience on home video in the 1980s and became a must see for connoisseurs of extreme cinema Indeed Cannibal Holocaust's foremost legacy is in the United Kingdom where it obtained its reputation as one of the most harrowing and offensive video nasties a term used to refer to a group of films deemed to be obscene by the Department of Public Prosecutions However as the years have progressed Cannibal Holocaust has been re evaluated mainly as the forefather of the found footage film and recent home video re releases have added some valuable perspective to the onscreen violence with extensive cast and crew interviews What is missing from this contemporary activity is contextualization of Cannibal Holocaust's style affirmation and discussion of its locations and any extensive discourse about its representation of third world inhabitants i e as primitives In addition and also amiss from previous dialogue on the production is that Cannibal Holocaust can be seen as one of the key post Vietnam films It is the spectre of war and an explicit warning about Western involvement in civil conflict which progresses Deodato's story of jungle adventurers in peril By approaching the film from a more formalist position this Devil's Advocate provides an insightful discussion of this groundbreaking film

Social Violence in the Prehispanic American Southwest Deborah L. Nichols, Patricia L. Crown, 2022-08-23 Spontaneous acts of violence born of human emotions like anger or greed are probably universal, but social violence—violence resulting from social relationships within and between groups of people—is a much more complex issue with implications beyond archaeology. Recent research has generated multiple interpretations about the forms, intensity, and underlying causes of social violence in the ancient Southwest. Deborah L. Nichols and Patricia L. Crown have gathered nine contributions from a variety of disciplines to examine social violence in the prehispanic American Southwest. Not only offering specific case studies but also delving into theoretical aspects, this volume looks at archaeological interpretations, multidisciplinary approaches, and the implications of archaeological research for Native peoples and how they are impacted by what archaeologists say about their past. Specific chapters address the impacts of raiding and warfare, the possible origins of ritual violence, the evidence for social violence manifested in human skeletal remains, the implications of witchcraft persecution, and an examination of the reasons behind apparent anthropophagy. There is little question that social violence occurred in the American Southwest. These contributions support the need for further discussion and investigation into its causes and the broader implications for archaeology and anthropology.

Cinema Inferno Robert G. Weiner, John Cline, 2010-07-17 *Cinema Inferno* Celluloid Explosions from the Cultural Margins addresses significant areas and eras of transgressive filmmaking including many subgenres and styles that have not yet received much critical attention This collection of essays covers both contemporary films and those produced in the last 50 years to provide a theoretical framework for looking at transgressive cinema and what that means This volume begins with a number of essays that examine the aesthetic of realism tracing it through the late Italian Neo Realism of Pasolini the early films of Melvin Van Peebles and Canadian filmmaker Guy Maddin Another section focuses on 70s Italian horror and thrillers including a substantially different examination of filmmaker Dario Argento as well as essays on critically underrepresented directors Lucio Fulci and Sergio Martino A section on New York looks at both radical independents like Troma and Andy Milligan as well as the social context from which a view of the metropolis in decay emerged Sections also cover the experimental work of the Vienna Action Group and controversial filmmaker Michael Haneke as well as films and genres too idiosyncratic and disturbing to fit anywhere else including analyses of Nazi propaganda films fundamentalist Christian scare movies and postwar Japanese youth films The final essays try to come to terms with a mainstream flirtation with transgressive film and Grindhouse aesthetics
