**Neopoetics** Christopher Collins, 2016-11-29 The quest to understand the evolution of the literary mind has become a fertile field of inquiry and speculation for scholars across literary studies and cognitive science In Paleopoetics Christopher Collins's acclaimed earlier title he described how language emerged both as a communicative tool and as a means of fashioning other communicative tools stories songs and rituals In Neopoetics Collins turns his attention to the cognitive evolution of the writing ready brain Further integrating neuroscience into the popular field of cognitive poetics he adds empirical depth to our study of literary texts and verbal imagination and offers a whole new way to look at reading writing and creative expression Collins begins Neopoetics with the early use of visual signs first as reminders of narrative episodes and then as conventional symbols representing actual speech sounds Next he examines the implications of written texts for the play of the auditory and visual imagination To exemplify this long transition from oral to literate artistry Collins examines a wide array of classical texts from Homer and Hesiod to Plato and Aristotle and from the lyric innovations of Augustan Rome to the inner dialogues of St Augustine In this work of big history Collins demonstrates how biological and cultural evolution collaborated to shape both literature and the brain we use to read it

**Speak to Me Words** Dean Rader, Janice Gould, 2003 Although American Indian poetry is widely read and discussed few resources have been available that focus on it critically This book is the first collection of essays on the genre bringing poetry out from under the shadow of fiction in the study of Native American literature Highlighting various aspects of poetry written by American Indians since the 1960s it is a wide ranging collection that balances the insights of Natives and non Natives men and women old and new voices *From Madrigal to Opera* Mauro Calcagno, 2012-04-18 This pathbreaking study links two traditionally separate genres as their stars crossed to explore the emergence of multiple selves in early modern Italian culture and society Mauro Calcagno focuses on the works of Claudio Monteverdi a master of both genres to investigate how they reflect changing ideas about performance and role playing by singers Calcagno traces the roots of dialogic subjectivity to Petrarch s love poetry arguing that Petrarchism exerted a powerful influence not only on late Renaissance literature and art but also on music Covering more than a century of music and cultural history the book demonstrates that the birth of opera relied on an important feature of the madrigalian tradition the role of the composer as a narrative agent enabling performers to become characters and hold a specific point of view

**The Sunrise Remembers** Jackie K. Cooper, 2008 Every morning when the sun rises it brings back memories of your life and loans them to you for another day At least this is what Cooper believes and uses as the inspiration for this new book of stories As each new day dawns the sunrise provides us with memories of our past and in that way helps to shape our present and our future After all memories are golden drops of dew on the lawn of our lives They are there for us to discover and to savor Join Cooper as he remembers a life well lived and a present that is inspiring Cooper begins another homespun and genuine revelry through life s turns With an entertaining wit and easygoing style he once again reminds us of life s essentials and what it means to be part of a world that still has the power to leave us speechless As you open these pages the sunrise is breaking through the clouds and the memories wait Book jacket *Horace and the Rhetoric of Authority* Ellen Oliensis, 1998-05-28 This book explores how Horace s poems construct the literary and social authority of their author Bridging the traditional distinction between persona and author Ellen Oliensis considers Horace s poetry as one dimension of

his face the projected self image that is the basic currency of social interactions She reads Horace s poems not only as works of art but also as social acts of face saving face making and self effacement These acts are responsive she suggests to the pressure of several audiences Horace shapes his poetry to promote his authority and to pay deference to his patrons while taking account of the envy of contemporaries and the judgement of posterity Drawing on the insights of sociolinguistics deconstruction and new historicism Dr Oliensis charts the poet s shifting strategies of authority and deference across his entire literary career *Saint-John Perse and the Imaginary Reader* Steven Winspur,1988 **Toward a Theology of Eros** Virginia Burrus,Catherine Keller,2009-08-25 What does theology have to say about the place of eroticism in the salvific transformation of men and women even of the cosmos itself How in turn does eros infuse theological practice and transfigure doctrinal tropes Avoiding the well worn path of sexual moralizing while also departing decisively from Anders Nygren s influential insistence that Christian agape must have nothing to do with worldly eros this book explores what is still largely uncharted territory in the realm of theological erotics The ascetic the mystical the seductive the ecstatic these are the places where the divine and the erotic may be seen to converge and love and desire to commingle Inviting and performing a mutual seduction of disciplines the volume brings philosophers historians biblical scholars and theologians into a spirited conversation that traverses the limits of conventional orthodoxies whether doctrinal or disciplinary It seeks new openings for the emergence of desire love and pleasure while challenging common understandings of these terms It engages risk at the point where the hope for salvation paradoxically endangers the safety of subjects in particular of theological subjects by opening them to those transgressions of eros in which boundaries once exceeded become places of emerging possibility The eighteen chapters arranged in thematic clusters move fluidly among and between premodern and postmodern textual traditions from Plato to Emerson Augustine to Kristeva Mechthild to Mattoso the Shulammite to Molly Bloom the Zohar to the Da Vinci Code In so doing they link the sublime reaches of theory with the gritty realities of politics the boundless transcendence of God with the poignant transience of materiality
