The Anthropology of Globalization Ted C. Lewellen, 2002-06-30 Lewellen gives us the first analytic overview of an important new subject area in a field that has long been identified with the study of relatively bounded communities Globalization refers to the increasing flows of trade finance culture ideas and people brought about by the sophisticated technology of communications and travel and by the worldwide spread of neoliberal capitalism Unlike dependency theory and world systems analysis which tended to assume a bird s eye perspective globalization offers a down and dirty ground up approach in which ethnographic research is not marginal but essential Through multiple examples selected from the latest ethnographic research from all over the world Lewellen examines the ways that globalization impacts migrants and stay at homes peasants and tribal peoples men and women A crucial theme is that the global local nexus is one of unpredictable interaction and creative adaptation not of top down determinism Theoretically globalization studies have become the focal point for the convergence of interpretive anthropology critical anthropology postmodernism and poststructuralism which are combined with a tough empiricism For the casual reader or the classroom this work draws together the ethnographic studies and cutting edge theories that comprise the anthropology of globalization *Chicana*

the gossip seen by Oscar Lewis as undermining community coherence is really a form of political practice During more than fifteen years of research she observed the metamorphosis of a movement founded as a revolutionary popular struggle into what she terms a politics of loose connections in which temporary alliances flexible identities and shifting rhetoric are adapted to the demands of the moment Martin examines contemporary land struggles with an emphasis on the Comit para la Defensa de Tierra and its attempts to weave together strands of an invented tradition contemporary agrarian reform law and revolutionary ideology She shows how Tepoztecan politics borrows discourses from the Mexican state she then tells how this process shaped local politics in the midst of the contested 1988 national presidential election when local actors elaborated a discourse of democracy as a technique for disciplining gossip and in 1991 when Tepoztecan began to draw on the support of international environmental NGOs Throughout her analysis Martin explores how Tepoztecan politics unfolds in the climate of mistrust first nurtured by the role of the state in local politics and later by the demands of working with U S and Western European environmentalists Martin shows that the politics of loose connections is above all else a style of political participation that has proved adaptive in the contemporary political landscape and that understandings of politics have been dogged by a conception of connections that may well be obsolete in the contemporary world Her study is a balanced re evaluation of Tepoztl n that reveals how politics succeeds through loose connections a strategy that may be instructive for others seeking to survive in either local or global coalitions

Angels in Mourning Roger Bartra, 2018-08-15 Sublime madness ennui and melancholy a condition of imbalance chaotic and desolate and a keystone of modern Western thought Why did this threatening expression of languor and disorder gain such traction at the heart of a European culture supposedly guided by the light of rationalism In *Angels in Mourning* Roger Bartra investigates how three seemingly lucid European thinkers Immanuel Kant Max Weber and Walter Benjamin addressed the irrational and the dolorous in their work Drawing attention to marginal and under explored aspects of their thought Bartra illuminates the disparate ways in which these foundational philosophers gazed into the darkness His surprising and insightful study suggests one explanation for how melancholy found such a prominent space in Western society the blossoming of Romanticism that deep seated protest against the Enlightenment and the capitalist order

Latin American Science Fiction M. Ginway, J. Brown, 2012-12-05 Combining work by critics from Latin America the USA and Europe *Latin American Science Fiction Theory and Practice* is the first anthology of articles in English to examine science fiction in all of Latin America from Mexico and the Caribbean to Brazil and the Southern Cone Using a variety of sophisticated theoretical approaches the book explores not merely the development of a science fiction tradition in the region but more importantly the intricate ways in which this tradition has engaged with the most important cultural and literary debates of recent year

Political Modernity and Social Theory Jose Mauricio Domingues, 2024-05-28 Modern liberal democracy and authoritarian collectivism have known diverse political regimes autocratic oligarchic or democratic they each consist of a mixed partly oligarchic regime in which plebeian politics are

subordinated With authoritarian collectivism's defeat a return to modernity has produced one more hybrid configuration An in depth investigation of political modernity and how it is differentiated from other forms of society this book researches its origins and trajectory as a specific dimension of modern civilisation articulating a renewed critical theory through an analysis of rights and law politics state and autonomy social reproduction crisis and political change Examining these diverse aspects Political Modernity and Social Theory proposes an encompassing and far reaching approach spanning past and present stressing radical plebeian democracy and maintaining a strong opening to the future and to possible alternatives to modernity The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution CC BY 4.0 license *The Other Side of the Popular* Gareth Williams, 2002-05-22 Addresses the structural and historical transformations leading to the neoliberal order in Latin America
