## **The Innovators Situation Upper Middle Class Conservatism In Agricultural Communities:**

**Agricultural Economics Research**, 1980      The Innovator's Situation Frank Cancian, 1977      **The Innovator's Situation** Frank Cancian, 1979-01-01      *The Decline of Community in Zinacantan* Frank Cancian, 1994-10-01 This ambitious wide ranging work shows how national economic prosperity and government expansion in Mexico during the 1970 s transformed a relatively closed peasant community into a more outwardly connected socially differentiated society marked by dissension and overt conflict      **Farmers' Perspectives on Risks and Social Capital in the Mekong Delta** Ngo Thi Phuong Lan, 2022-07-21 This book analyses the risky behavior of farmers in the Mekong Delta Vietnam in their shift from rice to shrimp farming as well as the role of social capital in these farmers economic activities Emphasizing the rationality of the market does not fully explain the nature of farmers economic behavior Therefore this book explores farmers risk mitigation and dispersion so as to provide a systematic outlook on the issue It finds that food security and subsistence margin influence farmers behavior to some extent In the context of current social relations farmers do not completely avoid risks but they have different risk taking strategies As the book shows social reciprocity in terms of capital labor and land allows poor farmers to participate in shrimp farming in a risky manner      *The Journal of Agricultural Economics Research*, 1988      **The Origins of Peasant Servitude in Medieval Catalonia** Paul Freedman, 2004-01-22 This 1991 book is an examination of Catalonian peasants in the Middle Ages integrating archival evidence with medieval theories of society      **Diffusion of Innovations, 4th Edition** Everett M. Rogers, 2010-07-06 Since the first edition of this landmark book was published in 1962 Everett Rogers s name has become virtually synonymous with the study of diffusion of innovations according to Choice The second and third editions of Diffusion of Innovations became the standard textbook and reference on diffusion studies Now in the fourth edition Rogers presents the culmination of more than thirty years of research that will set a new standard for analysis and inquiry The fourth edition is 1 a revision of the theoretical framework and the research evidence supporting this model of diffusion and 2 a new intellectual venture in that new concepts and new theoretical viewpoints are introduced This edition differs from its predecessors in that it takes a much more critical stance in its review and synthesis of 5 000 diffusion publications During the past thirty years or so diffusion research has grown to be widely recognized applied and admired but it has also been subjected to both constructive and destructive criticism This criticism is due in large part to the stereotyped and limited ways in which many diffusion scholars have defined the scope and method of their field of study Rogers analyzes the limitations of previous diffusion studies showing for example that the convergence model by which participants create and share information to reach a mutual understanding more accurately describes diffusion in most cases than the linear model Rogers provides an entirely new set of case examples from the Balinese Water Temple to Nintendo videogames that beautifully illustrate his expansive research as well as a completely revised bibliography covering all relevant diffusion scholarship in the past decade Most important he discusses recent research and current topics including social marketing

forecasting the rate of adoption technology transfer and more This all inclusive work will be essential reading for scholars and students in the fields of communications marketing geography economic development political science sociology and other related fields for generations to come      **Proyecto Cooperativo de Investigacion Sobre Tecnologia Agropecuaria en America Latina "protaal" Technological Change and Peasant in Latin America** ,      *Tipologia de Pequenos Productores Campesinos* ,      Expert Systems In Developing Countries Charles K. Mann,2019-03-07 This book focuses on the pioneering applications of an expert system in development relate to agriculture in many of the developing countries introducing the reader to some of the key concepts underlying most expert systems      Agricultural Decision Making Peggy F. Barlett,2013-10-22 Agricultural Decision Making Anthropological Contributions to Rural Development presents the impact of farmers choices in agricultural production This book discusses how individual decisions determine household profits and well being capital requirements land use and the adoption of technology Organized into three parts encompassing 14 chapters this book begins with an overview of the theoretical and methodological questions concerning the use of formal models in evaluating the alternatives open to farmers This text then explores the patterns of agricultural choices within one rural community Other chapters consider the implications of decision making research for agricultural development policy and explore the decision making context of aid programs This book discusses as well the impacts of nonagricultural alternatives on agricultural decisions The final chapter deals with various policy and development programs for agricultural development This book is a valuable resource for economic anthropologists historians economists agricultural economists rural sociologists psychologists farmers and research workers      **Micro And Macro Levels Of Analysis In Anthropology** Pertti J Pelto,2019-04-05 Arguing that there are insufficient theoretical and methodological guidelines for articulating microlevel and macrolevel analyses of sociocultural phenomena contributors to this volume review the history of micro macro issues in anthropology and provide a framework for a more systematic examination of potential linkages among levels In addition      **Companion Encyclopedia of Archaeology** Graeme Barker,1999 This comprehensive fully illustrated Companion answers the need for an in depth archaeology reference that provides authoritative coverage of this complex and interdisciplinary field The work brings together the myriad strands and the great temporal and spatial breadth of the field into two thematically organized volumes In twenty six authoritative and clearly written essays this Companion explores the origins aims methods and problems of archaeology Each essay is written by a scholar of international standing and illustrations complement the text      Change and Peasants in Latin America ,      *Beyond Eurocentrism* Peter Gran,2021-02-01 Eurocentrism influences virtually all established historical writing With the rise of Prussia and by extension Europe eurocentrism became the dominant paradigm for world history Employing the approaches of Gramsci and Foucault Peter Gran proposes a reconceptualization of world history He challenges the traditional convention of relying on totalitarian or democratic functions of a particular state to explain and understand relationships of authority and resistance in a number

of national contexts Gran maintains that there is no single developmental model but diverse forms of hegemony that emerged out of the political crisis following the penetration of capitalism into each nation In making comparisons between seemingly disparate and distinctive nations and by questioning established canons of comparative inquiry Gran encourages people to recognize the similarities between the West and non West nations **Lives of Dust and Water** María Luz

Cruz-Torres,2022-03-29 Along the coast of northwestern Mexico pink gold may mean wealth for some but the new global economy has imposed terrible burdens on many sectors of the population State and regional economic development policies have supported the use of natural resources for commercial export resulting in the rapid growth of agriculture and shrimp aquaculture Environmental pressures have contributed to the degradation of marine ecosystems and once self reliant rural populations have been driven to wage and subsistence labor in order to survive This book eloquently explains how contemporary rural communities in southern Sinaloa have responded to economic and ecological changes affecting the entire nation A political ecology of human survival in one of the most important ecological regions of Mexico it describes how these communities contest environmental degradation and economic impoverishment arising from political and economic forces beyond their control Mar a Luz Cruz Torres evokes the rich and varied experiences of the people who live in the villages of Celaya and El Cerro showing how they invent and utilize their own social capital to emerge as whole persons in the face of globalization She traces the histories of the two villages to illustrate the complex variation involved in community formation and to show how people respond to and utilize Mexican law and reform Surrounded by limited resources poverty illness sudden death and daily oppression these men and women create innovative social and cultural forms that mitigate these impacts Cruz Torres reveals not only how they manage to survive in the midst of horrendous circumstances but also how they transcend those impediments with dignity She details the participation of household members in the subsistence formal and informal sectors of the economy and how women use a variety of resources to guarantee their families survival A sometimes tragic but ultimately vibrant story of human resistance *Lives of Dust and Water* offers an important look at a little studied but dynamically developing region of Mexico It contributes to a more precise understanding of how rural coastal communities in Mexico emerged and continue to develop and adjust to the uncertainties of the globalizing world *Chronicling Cultures*

Robert V. Kemper, Anya Peterson Royce, 2002-04-23 Some field sites have hosted anthropologists for as long as half a century *Chronicling Cultures* collects articles from principals of many of the longest and best known anthropology projects from four continents the Kung Harvard Chiapas Project Gwembe Valley Tzintzuntzan and Navajo among others These projects have brought a new understanding of change and persistence in communities over time They have forced researchers to develop methods of involving local communities in research of using data over generations of scholars and of resolving ethical issues of research versus advocacy The projects range from individual scholars who return home year after year to large scale institutionalized projects involving many researchers and numerous studies This volume will be an important addition to the

literature on fieldwork on the history of ethnology and on ethnographers role in their host cultures      *Political Ecology in a Yucatec Maya Community* E. N. Anderson, Aurora Dzib Zihum de Cen, Felix Medina Tzuc, Pastor Valdez Chale, 2005-10-01 In Chunhuhub the Conquest is not a done deal Unlike many small tropical towns Chunhuhub in rural Quintana Roo Mexico has not been a helpless victim of international forces Its people are descendants of heroic Mayans who stood off the Spanish invaders People in Chunhuhub continue to live largely through subsistence farming of maize and vegetables supplemented by commercial orchard livestock and field crop cultivation They are however also self consciously modernizing by seeking better educational and economic opportunities Political Ecology in a Yucatec Maya Community tells the story of Chunhuhub at the beginning of the twenty first century focusing on the resource management of plants and animals E N Anderson and his Maya co authors provide a detailed overview of Maya knowledge of and relationships with the environment describing how these relationships have been maintained over the centuries and are being transformed by modernization They show that the Quintana Roo Mayas have been working to find ways to continue ancient and sustainable methods of making a living while also introducing modern techniques that can improve that living For instance traditional subsistence agriculture is broadly sustainable at current population densities but hunting is not and modern mechanized agriculture has an uncertain future Bringing the voice of contemporary Mayas to every page the authors offer an encyclopedic overview of the region history environment agriculture medicine social relations and economy Whether discussing the fine points of beekeeping or addressing the problem of deforestation they provide a remarkably detailed account that immerses readers in the landscape Maya of the Yucat n Peninsula have had more than their share of successes and some failures as well and as a study in political and cultural ecology Political Ecology in a Yucatec Maya Community has much to tell us about tropical development and about the human condition Their experience tells us that if we wish to have not only farms but also mahogany wildlife and ecotourism then further efforts are needed As Anderson observes traditional Maya management with its immense knowledge base remains the best indeed the only effective system for making a living from the Yucat n s harsh landscape Political Ecology in a Yucatec Maya Community is a compelling testament to the daily life practices of modern peasant farmers that can provide us with clues about more efficient management techniques for the conservation of biodiversity worldwide      **Encyclopedia of Sociology** Edgar F.
