deals with film enactments and representations of the belief that human beings are essentially their brains a belief that embodies one of the most influential modern ways of understanding the human Films have performed brains in two chief ways by turning physical brains into protagonists as in the brain movies of the 1950s which show terrestrial or extra terrestrial disembodied brains carrying out their evil intentions or by giving brains that remain unseen inside someone s head an explicitly major role as in brain transplantation films or their successors since the 1980s in which brain contents are transferred and manipulated by means of information technology Through an analysis of filmic genres and particular movies *Performing Brains on Screen* documents this neglected filmic universe and demonstrates how the cinema has functioned as a cultural space where a core notion of the contemporary world has been rehearsed and problematized *The Philosophy of Utopia* Barbara Goodwin, 2012-12-06 This collection addresses the important function of utopianism in social and political

philosophy and includes debate on what its future role will be in a period dominated by dystopian nightmare scenarios

Searching for God on Earth and within the Cosmic Firmament Vincent L. Di Paolo,2025-07-09 Searching for myself during my life has been a series of great adventures which are forever imprinted on the walls of the canyons of my memory I did have some very bad experiences that brought me to the very threshold of death several times For some cosmic reason I escaped death on four occasions during my life and I recuperated my strength and my craving for adventure after each near death experience I guess that those four near death experiences were meant to remind me that I am human and vulnerable and that I should never take my life for granted Even though I did lose some physical strength on each occasion my body and mind grew stronger and stronger and now that I am in the winter of my life I m alive and I thank each day that is given to me as my mind gets closer and closer to finding that elusive me in this only life as me As I now understand the importance and sanctity of life and my love for wonderful people beautiful animals and plants I realize that the meaning of my very existence is to protect them while we live in this beautiful and wonderful planet Finally it took a lifetime for me to find God and I have accepted that after life on earth I will be once again part of the Cosmos which it will always belong to the Creator
