The Trial Edward Steers, 2003-07-31 Transcripts from the trial of John Wilkes Booth's co-conspirators plus commentary Unquestionably the world class expert on Lincoln's assassination Civil War News On the night of April 14 1865 John Wilkes Booth assassinated President Abraham Lincoln in what he envisioned part of a scheme to plunge the federal government into chaos and gain a reprieve for the struggling Confederacy The plan failed By April 26 Booth was killed resisting capture and eight of the nine conspirators eventually charged in Lincoln's murder were in custody Their trial would become one of the most famous and most controversial in US history New president Andrew Johnson's executive order on May 1 directed that persons charged with Lincoln's murder stand trial before a military tribunal The trial lasted more than fifty days and 366 witnesses gave testimony Benn Pitman an expert in phonography an early form of shorthand was awarded a government contract to produce a transcription of each day's testimony Pitman made these transcripts available to the prosecution and defense as well as select members of the press Although three versions of the testimony were published Pitman's edited collection was the most accessible He skillfully winnowed the 4 300 pages of transcription into one volume collated the testimony by defendant indexed it by name and date and added summaries In *The Trial* assassination scholars guide readers through all 421 pages of testimony illuminating Pitman's record By drawing together the evidence that resulted in the conspirators' convictions *The Trial* leaves no doubt as to the events surrounding the assassination of Abraham Lincoln making this book a fascinating account of the trial as well as an essential resource Steers's lineup is truly expert readers will be able to distinguish between fact and fancy and come away with a far better understanding of Lincoln's assassination William Hanchett author of *The Lincoln Murder Conspiracies* *The Bank War and the Partisan Press* Stephen W.

Campbell, 2022-11-15 President Andrew Jackson's conflict with the Second Bank of the United States was one of the most consequential political struggles in the early nineteenth century A fight over the bank's reauthorization the Bank War provoked fundamental disagreements over the role of money in politics competing constitutional interpretations equal opportunity in the face of a state sanctioned monopoly and the importance of financial regulation all of which cemented emerging differences between Jacksonian Democrats and Whigs As Stephen W Campbell argues here both sides in the Bank War engaged interregional communications networks funded by public and private money The first reappraisal of this political turning point in US history in almost fifty years *The Bank War and the Partisan Press* advances a new interpretation by focusing on the funding and dissemination of the party press Drawing on insights from the fields of political history the history of journalism and financial history *The Bank War and the Partisan Press* brings to light a revolving cast of newspaper editors financiers and postal workers who appropriated the financial resources of preexisting political institutions and even created new ones to enrich themselves and further their careers The bank propagated favorable media and tracked public opinion through its system of branch offices while the Jacksonians did the same by harnessing the patronage networks of the

Post Office Campbell's work contextualizes the Bank War within larger political and economic developments at the national and international levels. Its focus on the newspaper business documents the transition from a seemingly simple question of renewing the bank's charter to a multisided nationwide sensation that sorted the US public into ideologically polarized political parties. In doing so, *The Bank War and the Partisan Press* shows how the conflict played out on the ground level in various states in riots, duels, raucous public meetings, politically orchestrated bank runs, arson, and assassination attempts. The resulting narrative moves beyond the traditional boxing match between Jackson and bank president Nicholas Biddle, balancing political institutions with individual actors and business practices with party attitudes.

Paratextuality in Anglophone and Hispanophone Poems in the US Press, 1855-1901 Ayendy Bonifacio, 2024-04-30. Drawing examples from over 200 English language and Spanish language newspapers and periodicals published between January 1855 and October 1901, *Paratextuality in Anglophone and Hispanophone Poems in the US Press 1855-1901* argues that nineteenth-century newspaper poems are inherently paratextual. The paratextual situation of many newspaper poems, their links to surrounding textual items and discourses, their editorialisation through circulation, the way poems were altered from newspaper to newspaper, and their association and disassociation with certain celebrity bylines, editors, and newspaper titles, enabled contemporaneous poetic value and taste that in the mid to late nineteenth century were not only sentimental, Romantic, and/or genteel. In addition to these important categories for determining a good and bad poem, poetic taste and value were determined by Bonifacio via arbitrary consequences of circulation, paratextualisation, typesetter error, and editorial convenience.

Transatlantic Abolitionism in the Age of Revolution J. R. Oldfield, 2013-08-08. An in-depth comparative study of transatlantic abolitionism in the late eighteenth and early nineteenth centuries. *Extra Globe*, 1838. [Informing a Nation](#) Mel Laracey, 2021-02-25. During his presidency, Thomas Jefferson both sponsored and wrote for his own newspaper, the *National Intelligencer*, and *Washington Advertiser*. The newspaper spoke on behalf of his policies and those of his Republican anti-federalist party, the Democratic Republicans, the precursor to today's Democrats. Author Mel Laracey focuses on the newspaper's message during Jefferson's first term, showing how the third president used media to promote his administration and its goals against their political rivals, the Federalists. *Informing a Nation* shows how Jefferson and his allies dealt with political challenges, revealing hitherto unexamined aspects of the early presidency and raising broad questions of the relationship between the presidency and media today.

Many of the problems encountered in reporting later wars were present in the Civil War, but they were new problems: then, communications, transportation, Federal confiscation of printing presses.
