

THE NEW ENLIGHTENMENT TO BUILD A WORLD OF PEACE, PROGRESS AND HAPPINESS FOR ALL HUMANITY

Fernando Alcoforado*

This article aims to demonstrate that the political, economic, social and environmental crises that are deepening throughout the world are demanding the advent of a new Enlightenment based on which humanity can live together without wars, there is true political progress that ensures that the fruits of economic and social progress are shared by all inhabitants of the planet without exception and there is the achievement of collective happiness for all humanity. This article also aims to demonstrate that the new Enlightenment is proposed in the book we wrote "How to Build a World of Peace, Progress and Happiness for All Humanity", recently published by Editora CRV in Curitiba in its Portuguese and English versions, because it points out what and how to do to overcome the gigantic problems that have affected humanity for centuries, making the construction of an ideal, imaginary, perfect society a reality, and therefore considered utopian and unattainable by many.

The world is facing several crises in the contemporary era. With each passing day, these crises deepen in the political, economic, social and environmental areas, whether at national or global levels. However, the greatest crisis experienced by humanity today is the intellectual crisis of thought, which constitutes the main obstacle to overcoming other crises and building a new society centered on real economic, political, social and environmental progress. The intellectual crisis of thought in the contemporary era is what makes the world we live in function chaotically, like a ship adrift towards disaster. The catastrophic scenario that looms for the future of humanity places on the agenda the need for a new Enlightenment to impose itself on the world to order political, economic, social and environmental life in the present and in the future.

1. The advent of the Enlightenment in the 18th century

The Middle Ages is the name given to the period of human history between the years 476, with the end of the Roman Empire in Western Europe, and 1453, when the fall of Constantinople occurred and marked the end of the Byzantine Empire. Enlightenment thinkers of the 18th century called the Middle Ages the "Dark Ages" because they believed that this period of human history was marked by ignorance, obscurantism, and intellectual repression. The Middle Ages have always been associated with backwardness, a time of "darkness" in knowledge, little freedom, and restricted circulation of ideas. The "Dark Ages" was the term adopted by Enlightenment thinkers to describe the Middle Ages as a time of ruin and scourge, that is, a time that lies between the glory of Antiquity and the height of Modernity.

In the 18th century, several thinkers began to mobilize around the defense of ideas that guided the renewal of practices and institutions in force throughout Europe. Raising philosophical questions that addressed the condition and happiness of man, the Enlightenment movement systematically attacked everything that was considered contrary to the pursuit of happiness, justice and social equality. The Enlightenment movement was based on the belief in the power of reason and progress, in freedom of thought and in political emancipation. The Enlightenment was a global, philosophical, political, social, economic and cultural movement that defended the use of reason as the best way to achieve freedom, autonomy and political emancipation.

concept The book presents a message to the political and religious elites of Europe to build one society for all and interculturalism instead of furthering the ideologies of ethno nationalism and religious nationalism A part of this text is dedicated to the situation in Africa in comparison to Europe **American Book Publishing Record** ,1996-05 **Adorno's Positive Dialectic** Yvonne Sherratt,2002-10-10 This book offers an interpretation of the work of Theodor Adorno In contrast to the conventional view that Adorno s is in essence a critical philosophy Yvonne Sherratt traces systematically a utopian thesis that pervades all the major aspects of Adorno s thought She places Adorno s work in the context of German Idealist and later Marxist and Freudian traditions and then analyses his key works to show how the aesthetic epistemological psychological historical and sociological thought interconnect to form a utopian image The book will be eagerly sought out by students and specialists in philosophy social and political theory intellectual history literary theory and cultural studies

Matter and Spirit James M. Lawler,2006 This narrative shows how the contours of moral and political philosophy in the seventeenth and eighteenth centuries were shaped by Kant s two distinct philosophical responses to the results of modern science This history of early modern Western philosophy takes its inspiration from Kant s claim that the battle between the metaphysics of matter and that of spirit is the principal axis around which modern philosophy up to his time in all its aspects has revolved The empiricist materialist trend that dominates in England is first examined in the progressively unfolding works of Hobbes Locke Berkeley Hume and Adam Smith A contrasting and competing dialectic develops in the rationalist spiritualist trend in the continental philosophy of Descartes Leibniz and Rousseau Framing this history is the background context of the philosophy and science of Aristotle and the challenges to the traditional paradigm presented by the revolutionary sciences of Copernicus Galileo and Newton James Lawler is Professor of Philosophy at the State University of New York at Buffalo [Eight Steps to Happiness: The Buddhist Way of Loving Kindness](#) Geshe Kelsang Gyatso,2011-01-01

This inspiring book explains how to meditate on eight beautiful verses that comprise one of Buddhism s best loved teachings Eight Verses of Training the Mind Composed by the great Tibetan Bodhisattva Geshe Langri Tangpa this short poem shows how we can transform all life s difficulties into valuable spiritual insights Geshe Kelsang Gyatso reveals practical ways in which we can use this timeless wisdom to find meaning and lasting happiness in our busy modern lives **Critique and Crisis** Reinhart Koselleck,2000-03-13 Critique and Crisis established Reinhart Koselleck s reputation as the most important German intellectual historian of the postwar period This first English translation of Koselleck s tour de force demonstrates a chronological breadth a philosophical depth and an originality which are hardly equalled in any scholarly domain It is a history of the Enlightenment in miniature fundamental to our understanding of that period and its consequences Like Tocqueville Koselleck views Enlightenment intellectuals as an uprooted unrealistic group of onlookers who sowed the seeds of the modern political tensions that first flowered in the French Revolution He argues that it was the split that developed between state and society during the Enlightenment that fostered the emergence of this intellectual elite divorced from the

realities of politics Koselleck describes how this disjunction between political authority proper and its subjects led to private spheres that later became centers of moral authority and eventually models for political society that took little or no notice of the constraints under which politicians must inevitably work In this way progressive bourgeois philosophy which seemed to offer the promise of a unified and peaceful world in fact produced just the opposite The book provides a wealth of examples drawn from all of Europe to illustrate the still relevant message that we evade the constraints and the necessities of the political realm at our own risk Critique and Crisis is included in the series Studies in Contemporary German Social Thought edited by Thomas McCarthy **Globalization and Environmental Challenges** Hans Günter Brauch,Ürsula Oswald
