Williams, 2016-07-01 In Sex in the Head Linda Ruth Williams uses psychoanalysis and recent feminist film theory to analyze a network of ideas which link looking with sexuality and difference in the work of a writer who disavowed yet covertly enjoyed the pleasures and power of vision The book is a departure from the long history of feminist readings of Lawrence in that it discusses his engagement with theories of the gaze and its cultural forms cinema photography painting and the visual dynamics and metaphors of literary texts as a way of thinking through gender It shows him arguing on the one hand against the evils of cinema and visual sex while relishing through the eyes of women the moving spectacle of those male bodies which populate the pages of his books It also questions what it is about the work of such an adamant cinephobe which has made it so thoroughly adaptable for film and television Best American Fantasy 2 Peter S.
