**Khasi Under British Rule, 1824-1947** Helen Giri, 1990      **Revisiting Traditional Institutions in the Khasi-Jaintia Hills** Charles Reuben Lyngdoh, 2016-12-14 Traditional institutions in the Khasi Jaintia society are living organisms which have existed for centuries and internally evolved from one phase to another. Despite having come into contact with newer and more modern forms of administration, they continue to exist backed by local public opinion that has called for their continuity amidst diminishing responsibility and utility. This collection of papers explores the landscapes of traditional institutions that exist in the present Khasi and Jaintia Hills in Meghalaya, India. The chapters blend oral tradition with historical records and available sources from secondary literature. They examine the interplay of power and functions between the constitutional authorities such as the state government and the Autonomous District Councils and traditional authorities represented by the traditional institutions.

Welsh missionaries and British imperialism Andrew May, 2017-02-01 In 1841 the Welsh sent their first missionary Thomas Jones to evangelise the tribal peoples of the Khasi Hills of north east India. This book follows Jones from rural Wales to Cherrapunji, the wettest place on earth and now one of the most Christianised parts of India. As colonised colonisers, the Welsh were to have a profound impact on the culture and beliefs of the Khasis. The book also foregrounds broader political, scientific, racial, and military ideologies that mobilised the Khasi Hills into an interconnected network of imperial control. Its themes are universal crises of authority, the loneliness of geographical isolation, sexual scandal, greed, and exploitation, personal and institutional dogma, individual and group morality. Written by a direct descendant of Thomas Jones, it makes a significant contribution in orienting the scholarship of imperialism to a much neglected corner of India and will appeal to students of the British imperial experience more broadly.

**Tribe-British Relations in India** Maguni Charan Behera, 2021-09-11 This book discusses the colonial history of Tribe-British relations in India. It analyses colonial literature as well as cultural and relational issues of pre-literate communities. It interrogates disciplinary epistemology through multidisciplinary engagement. It presents the temporal and spatial dimensions of tribal studies. The chapters critically examine colonial ideology and administration and civilization of tribes of India. Each paper introduces a unique context of Tribe-British interactions and provides an innovative approach, theoretical foundation, analytical tool, and methodological insights in the emerging discipline of tribal studies. The book is of interest to researchers and scholars engaged in topics related to tribes.

**Approaches to History** Sabyasachi Bhattacharya, 2011 History as a social science is arguably more self-reflective than associated disciplines in that family. Other social scientists seem to see little reason to look beyond the paradigm they are developing in the present times. Historians, on the other hand, tend to depend on the cumulative process of the development of their craft and the fund of accumulated knowledge. Yet while this is acknowledged in the practice of research, Historiography in itself as a subject of study has rarely found its place in the syllabi of Indian universities. Knowledge of Historiography is taken for granted when a scholar plunges into research. In an attempt to address this lacuna

the Indian Council of Historical Research ICHR has planned a series of volumes on Historiography comprising articles by subject specialists commissioned by the ICHR The first volume in the series Approaches to History Essays in Indian Historiography brings to the readers the first fruits of that endeavour While the essays encompass areas of research presently at the frontiers of new research scholars will also find the bibliographies accompanying the essays of significant appeal

**Placing the Frontier in British North-East India** Reeju Ray,2023 This book is about the entanglements of colonial law space and place in regions defined as frontiers in British India Changing Status of Women in North-eastern States,2009 C Lalkima b 1942 former Professor Dept of Public Administration Mizoram University contributed articles

K. Pachuau,2019-05-23 This collection of essays is an important contribution to the new literature on frontier studies and the historiography of Northeast India Moving away from an exclusive dependence on colonial ethnographies the authors build their arguments on a varied range of sources from buranjis to revenue records survey maps to explorers diaries and missionary papers to police files They question the givens of the categories through which the region is usually described and contest the stereotypes by which the people of the region are primitivized They explore the historical processes whereby the region was surveyed mapped understood represented politically governed economically refigured and historically constituted during the colonial period Though focused on the experience of Northeast India the volume also raises substantive questions about the idea of the frontier and the border the primitive and the modern and the tribal and the settled the local and the trans local The Politics of Belonging in India Daniel J. Rycroft,Sangeeta Dasgupta,2011-03-29 Since the 1990s the Indigenous movement worldwide has become increasingly relevant to research in India re shaping the terms of engagement with Adivasi Indigenous tribal peoples and their pasts This book responds to the growing need for an inter disciplinary re assessment of Tribal studies in postcolonial India and defines a new agenda for Adivasi studies It considers the existing conceptual and historical parameters of Tribal studies as a means of addressing new approaches to histories of de colonization and patterns of identity formation that have become visible since national independence Contributors address a number of important concerns including the meaning of Indigenous studies in the context of globalised academic and political imaginaries and the possibilities and pitfalls of constructions of indigeneity as both a foundational and a relational concept A series of short editorial essays provide theoretical clarity to issues of representation resistance agency recognition and marginality The book is an essential read for students and scholars of Indian Sociology Anthropology History Cultural Studies and Indigenous studies *Handbook of Research on Multicultural Perspectives on Gender and Aging* Pande, Rekha,van der Weide, Theo,2018-04-27 As people grow
