**Contemporary British Children's Fiction and Cosmopolitanism** Fiona McCulloch, 2016-11-10. This book visits contemporary British children's and young adult YA fiction alongside cosmopolitanism, exploring the notion of the nation within the context of globalization, transnationalism, and citizenship. By resisting globalization's dehumanizing conflation, cosmopolitanism offers an ethical, humanitarian, and political outlook of convivial planetary community. In its pedagogical responsibility towards readers who will become future citizens, contemporary children's and YA fiction seeks to interrogate and dismantle modes of difference and instead provide aspirational models of empathetic world citizenship. McCulloch discusses texts such as J.K. Rowling's Harry Potter series, Jackie Kay's *Strawgirl*, Theresa Breslin's *Divided City*, Gillian Cross's *Where I Belong*, Kerry Drewery's *A Brighter Fear*, Saci Lloyd's *Momentum*, and Julie Bertagna's *Exodus* trilogy. This book addresses ways in which children's and YA fiction imagines not only the nation but the world beyond, seeking to disrupt binary divisions through a cosmopolitical outlook. The writers discussed envision British society's position and role within a global arena of wide-ranging topical issues, including global conflicts, gender, racial politics, ecology, and climate change. Contemporary children's fiction has matured by depicting characters who face uncertainty just as the world itself experiences an uncertain future of global risks such as environmental threats and terrorism. The volume will be of significant interest to the fields of children's literature, YA fiction, contemporary fiction, cosmopolitanism, ecofeminism, gender theory, and British and Scottish literature.

Crossing Textual Boundaries in International Children's Literature Lance Weldy, 2011-01-18. As the first part of the title indicates, my interest in looking at intertextuality and transformation still maintains a prominent place throughout this book as well. If we believe that no text is an island, then we will understand that the relationships between and within texts across the years become a fascinating place for academic inquiry. I included the word boundaries into the title because we never get tired of voicing our opinions about texts which traverse relegated boundaries such as genre or medium. Not only am I interested in discussing what these changes across boundaries mean socially, historically, and culturally, but also what they mean geographically, which accounts for the second part of my title. I am very excited that this book will be placing even more emphasis on children's literature in an international scene than my first book did in the sense that I have added more scholars on an international level. I hesitate to list the nationalities of all of the contributors here because quite a few have themselves crossed international boundaries in different ways, by either studying abroad or finding permanent residency in foreign countries. Nevertheless, the writers have lived extensively in or identify as being from Australia, Canada, England, Finland, Germany, Greece, Iceland, Ireland, Israel, Norway, Spain, Sweden, Turkey, the United States of America, and Wales.

Talking Animals in Children's Fiction Catherine Elick, 2015-03-25 Talking animal tales have conveyed anticruelty messages since the 18th century beginnings of children's literature. Yet only in the modern period have animal characters become true subjects rather than objects of human neglect or benevolence. Modern fantasies reflect the shift from animal welfare to animal rights in 20th century public discourse. This revolution in literary animal-human relations began with Lewis Carroll's *Alice's Adventures in Wonderland* and continued with the work of Kenneth Grahame, Hugh Lofting, P. L. Travers, and E. B. White. Beginning with the ideas of literary theorist Mikhail Mikhailovich Bakhtin, this book examines ways in which animal characters gain an aura of authority through using language and then participate in reversals of power. The author provides a close reading of 10 acclaimed British and American children's fantasies or series published before 1975. Authors whose work has received little scholarly attention are also covered, including Robert Lawson, George Selden, and Robert C. O'Brien.
