Electrical Double Layer at a Metal-dilute Electrolyte Solution Interface G.A. Martynov, R.R. Salem, 2012-12-06 Most of the properties of a metal electrolyte interface even the specific nature of an electrode reaction proneness of a metal to corrosion etc are primarily determined by the electrical double layer EDL at this boundary It is therefore no surprise that for the last at least one hundred years intense attention should have been centered on EDL So much of material has been gathered to date that we are easily lost in this maze of information A substantial part of the attempts to systematize these facts is made at present within the framework of thermodynamics Such a confined approach is undoubtedly inadequate The Gouy Chapman theory and the Stern Grahame model of the dense part of EDL developed 40-70 years ago tailored appropriately to suit the occasion inevitably underlie any description of EDL This route is rather too narrow to explain all the facts at our disposal A dire necessity has thus arisen for widening the principles of the microscopic theory This is precisely the objective of our monograph Furthermore we shall dwell at length on the comparison of the theory with experiment without such a comparative analysis any theory however elegant it may be is just an empty drum

My Struggle for Peace, Volume 2 (1955) Moshe Sharett, 2019-03-19 The second volume of the former Israeli prime minister's journals from the nation's early years centering on his time in office *My Struggle for Peace* is a remarkable political document offering insights into the complex workings of the young Israeli political system set against the backdrop of the disintegration of the country's fragile armistice with the Arab states Replete with Moshe Sharett's candid comments on Israel's first generation leaders and world statesmen of the day the diary also tells the dramatic human story of a political career cut short the removal of an unusually sensitive dedicated and talented public servant *My Struggle for Peace* is above all an intimate record of the decline of Sharett's moderate approach and the rise of more activist militant trends in Israeli society culminating in the Suez Sinai war of 1956 The diary challenges the popular narrative that Israel's confrontation with its neighbors was unavoidable by offering daily evidence of Sharett's statesmanship moderation diplomacy and concern for Israel's place in international affairs This is the second volume in the 3 volume English abridgement of Sharett's Yoman Ishi Personal diary Ma'ariv 1978 maintains the integrity flavor and impact of the 8 volume Hebrew original and includes additional documentary material that was not

accessible at the time The volumes are also available to purchase as a set or individually The editors vastly improved on the Hebrew version by adding Sharett's speeches reports cabinet minutes and other sources to the text These additions makes this work so important and welcome by all who aspire to understand the foreign and defense policies of Israel in its first decade Israel Studies Review

Sailing against the Current Albert Edelson, 2014-04 Like piecing together a complex mosaic from tiny colored tiles author Albert Edelson sets out to piece together his memories with the sociological historical and political factors contributing to the world as he witnessed it in order to create a complete record of his seventy years In this memoir and history set in the form of a ship's logbook he recalls the events of the emotional and geographical journeys that characterized his life Edelson was set afloat on the torrential river of life in a very dark time Born to Jewish parents in Belgium in 1941 Edelson survived the annihilation of the Jewish population of Belgium by being separated from his parents and hidden away as an orphan in a Catholic convent It wasn't until five years after the end of the war that Edelson was reunited with his mother and father After integrating back into his biological family Edelson embarked on a series of adventures that took him all over world and exposed him to many different civilizations and sociopolitical frameworks This intriguing history shares one man's unique journey in short but detailed installments each a tile in the great mosaic of life

Co-managing complex social-ecological systems in Tanzania Christopher Mahonge, 2023-09-04 It has been conventional among co-management scientists to view social ecological systems and actors and institutions found in these systems monolithically Such a view is simplistic and conceals the complex nature of social ecological systems and associated institutions and actors In essence a social ecological system is a complex system comprised of multiple diverse and dynamic social ecological units players and rules This book entitled Co-managing complex social ecological systems unveils the aforementioned complexity in which Lake Jipe wetland in Tanzania is the central case This case depicts intra inter and cross scale interactions among multiple and dynamic institutions actors and ecological systems at different dimensions of space and time While some candidates of actors and institutions play separate roles others play interdependent and linking roles across the multiple sectoral social ecological units The book introduces the layering concept of institutions and actors in three sectoral arrangements at Lake Jipe It argues that not only do the

institutions and actors found in social ecological systems operate next to one another but it becomes clear that they also work interdependently This concept extends the existing knowledge of co management practitioners and scholars about the diversity and complexity of inter linked human environment systems that traverse the current monolithic view and conceptual boundaries As such the book avoids a simplistic approach that may end up in superficial treatment of complex environmental management problem and sheds light on how to study and approach intricate social ecological systems using a model that recognises the diversities of these intricate systems
